

## The rebellion in Libya and NATO support of the rebels is about central banking?

A friend sent me an interesting article from the Asia times about what could be the reason for the mess in Libya right now. I believe it could be true. The Central banking system is not part of the government, but a coporation that creates huge profits for the investors. The real reason why the world's economy has gone down is because the central bankers have fleeced the people.

## Fukushima Fear Mongers Exposed

Over the past few weeks well meaning relatives and friends have sent me articles on how to prepare for the radiation from the Fukushima power plant meltdown. Some people have sent me web articles with statements from "scientists" such as Leuren Moret, full of gloom and doom calling the meltdown, "tectonic nuclear warfare" against the USA! This is **total nonsense**,

hype, fear mongering, and *disinformation*. I wonder whose payroll she is on?

For the record, I never once doubted that the Japanese are more than capable of handling the nuclear power plant disaster. I am proud to live in Japan among the most wonderful people in the world. They behaved so well in the face of disaster. They are clean, decent and for the most part, honest people. You cannot deceive an honest people for long, and the Japanese government is well aware of that. Many people have their own Geiger counters, and they report that radiation levels in all populated areas are well below the danger level.

One reason why the Japanese people have such low crime, and are so honest and hardworking is because the Japanese culture was heavily influenced by New Testament teachings over 1500 years ago. This knowledge was lost when all historical records in a certain place were burned in a fire. For more information about the hidden Biblical roots of Japanese culture, please see:

## [Northern Japan continues to shake](#)

Last night at 11:32 PM while in bed in my home in Niigata near the Sea of Japan, I felt a relatively strong earthquake. The building shook for a considerable amount of time. It is not common for earthquakes to occur on the west side of Japan, and because of the duration of the quake, I thought it may have occurred on the Pacific side near the previous earthquake of March 11. A radio report confirmed it.

Increased frequency of earthquakes is one of the signs that Jesus said would precede His return to earth.

Matthew 24:3 And as he sat upon the mount of Olives, the disciples came unto him privately, saying, Tell us, when shall these things be? and what shall be the sign of thy coming, and of the end of the world?

Matthew 24:4 ¶And Jesus answered and said unto them, Take heed that no man deceive you.

Matthew 24:5 For many shall come in my name, saying, I am Christ; and shall deceive many.

Matthew 24:6 And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all these things must come to pass, but the end is not yet.

Matthew 24:7 For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and

**earthquakes, in divers places.**

There are 66 books, 1,189 chapters and 31,102 verses in the Bible. It's interesting to note that in the 19 times and 16 verses the word earthquake in either its singular or plural form appears in 9 books and 14 chapters of the Bible, it appears 7 times in 5 verses in the book of Revelation, more often than in any other book of the Bible. The book of Revelation is the last book of the Bible and the book that most people associate with the last days just before Christ's return to earth.

## Lily Arendt

This is a photo I took of my little girl, Lily, then 4 years old, when we lived in Kamakura city Kanagawa prefecture. The photo is on the Shonan coast, near Inamuragasaki. I was taken with black and white film, and developed and printed personally by me. Back in those days I did a lot of B/W photography with my 35 MM Minolta SLR, and had the availability of a darkroom.

Lily Arendt, 4 years old, Kamakura city Kanagawa prefecture, Shonan coast, near Inamuragasaki, 1989.
