

October 1st hitchhike adventure to Saitama

With another man also hitchhiking! His partner with him took the photo

Yuki Sakai who
took me to Saitama
from Niigata

Oct. 1, 2010: Today I hitchhiked from Niigata city to Sayama city, a distance of about 280 kilometers, in only 3 cars. There was very little waiting time for the first two cars, but I had to wait 2 hours for the third and final ride. The driver was only 19 years old and has been driving for only one year. It was very interesting to talk to such a young man.
