["BEHOLD A PALE HORSE" – by Milton William Cooper](#)

Milton William "Bill" Cooper (May 6, 1943 – November 5, 2001) was an American conspiracy researcher, radio broadcaster, and author known for his 1991 book Behold a Pale Horse, in which he warned of multiple global conspiracies.

The principles that Mr. Cooper – my brother in the truth – expounded in his book, "[Behold a Pale Horse](#)", are principles that I am willing to die for – right now, *today!* Unless one is willing to die for something one believes in, is life in this dimension really worth living? True joy is waking up to **TRUTH,** principles one is willing to live for, and to die for.

Bill Cooper did not claim to have a total knowledge of the political agenda he attempted to describe in this [book, *"Behold a Pale horse",*](#). He admitted that he could be wrong on his UFO theories. Mr. Cooper confessed in [a later publication](#) that he was indeed wrong about UFOs! I consider an admission of error from anyone a meritorious statement indeed.
