

# Dr. Robert Malone Talks about Information Warfare Against Truth Tellers

Robert Wallace Malone is an American virologist and immunologist. He is the inventor of mRNA technology. During the COVID-19 pandemic, Malone has shown COVID-19 vaccines to be ineffective and dangerous.

This is a talk by Dr. Malone transcribed by me from a YouTube video below the text. It will probably get zapped from YouTube sooner or later, but this text will remain.

It's been a series of epiphanies that have made me realize that there's no upside to just being circumspect and trying to be a nice guy in this environment. This is full-on media warfare, information warfare, political warfare, 21st century, like we've never seen before, and coordinated globally.

The other thing for me has been the personal journey of coming to terms with what the World Economic Forum really represents. And I really resisted that people initially, were coming to me talking about the Great Reset, and I was like, "Ah, this crazy talk." But then it's all documented! And then you see it being deployed. Here it is. They're proud of it. They don't hide it. This is the vision. It is a full on globalist totalitarian vision, with the money in control.

And I did a lot of political science when I was an undergraduate in the early 80s. And I had read things like books about transnationalism and the New World Order. I've found that fascinating, but confused, how could this possibly happen? And now to see it playing out in real-time, and in a way in which national sovereignty governments are increasingly irrelevant. You know, that's the thing that folks got to wake up about.

This is not about the vaccine. The vaccine is a symptom. That's a really hopeful message going into the new year, is that there's a growing cohort of people that are increasingly aware of how thoroughly we've been manipulated.

I thought I was red-pilled. You know, I've been on the inside for so long and

seen Tony Fauci's machinations for so long. That's my origin story, was the initial AIDS crisis starting in 83. When I was at Davis (a university in Davis California). So I saw the hardball politics. It's not that I haven't been aware of that. But I had not been aware before of the information control that is globally coordinated. I mean the [Trusted News Initiative](#) is profound. What that means that has become the Ministry of Truth (Reference to George Orwell's classic novel (Nineteen Eighty-Four)). And what Twitter's doing right now, that I think, with [Alex Berenson's bold and brave lawsuit](#), taking on Twitter, and then I've had a bunch of lawyers come to me because of getting de-platformed or canceled I think is really the right term.

Certainly, people can't deny it anymore. There's so much evidence. And the CNN ratings keep slipping, yay! Maybe we're gonna see some change in 2022. There is a kind of a growing movement and awareness that part of the problem here is the structure of how we have been building our organizations in doing business in a deep, profound way. And just dissatisfaction with what one sees at the World Health Organization and the CDC, and the whole HHS structure in the United States where you have carefully controlled information, only one leader is allowed to speak, only one leader is allowed to represent the position, I think that is gonna turn out to be one of the changes here is a growing awareness that that model is dysfunctional, broken, and it needs to be fixed.

For me, it has been an awakening journey, there's no question. I didn't seek this and never expected it. I find myself at the center of this storm of the resistance. That's what it is really. And I'm still amazed. But it has profoundly changed my view of the information that we receive.

You talk about me becoming more outspoken. I've seen that with my peers too. So for instance, (Dr.) Peter McCullough, he's kind of chilled out a little bit. But when you're attacked all the time. And you have all of this weaponized information against you and no respect... I mean, I'm Mr. Malone, you know, who claims to have invented... I mean, all this language, classic yellow journalism language to have it all deployed against me in absolutely no respect for what I actually did. They never cite all the patents. I mean, they just gloss over all that.

This is asymmetric warfare. We're basically in a guerrilla warfare situation and we got to play it smart. Because what I'm seeing is the other side is generally not very smart. They have a big hammer. They've got all kinds of resources, but they don't seem to be very bright.

I don't know what's going to happen in 2022. But there are some encouraging signs. You know, I try really hard to look for the silver lining and things and if this whole trauma that we've been through nationally and globally, leads to an awareness of how interconnected we are, and the need for healing and the need for community and the importance of integrity, and the importance of human dignity. That's kind of the perhaps naive pollyannish hopeful position in response to the Great Reset, is people use the term the Great Awakening.
