

The CIA – Vatican Connection

This article is a transcript of part of the last half Christian J. Pinto's podcast on December 23, 2022, [JFK KILLED BY CIA, SAYS FOX NEWS](#) Everything Chris Pinto has to say is insightful, but I think the last part of the talk about the CIA's connection to the Vatican is especially so. You can listen to the entire podcast from the Soundcloud link on the bottom of this article:

The reason the CIA became so corrupt: First off, we've got to look at the formation of the CIA. We've got to remember that it goes back to the Office of Strategic Services (OSS) during World War II, which was formed toward the end of the war. Bill Donovan, who was a high-ranking Knight of Malta, was a Vatican agent. Donovan appears at the Vatican late in life and receives the Pope's highest honor for a lifetime of service to the papacy. This is the guy who founded the OSS, which eventually became the CIA.

It's no coincidence that you've got so many Catholics and so many Jesuits involved with our Central Intelligence Agency. That is not an accident. That is by design. But it basically means that our intelligence network is run by a foreign power, the Vatican. **And they have always given themselves unlimited immunity. In other words, they cannot be held accountable because the Pope is infallible and nobody can prosecute the Pope.** That's their view.

And they had the argument throughout the Middle Ages that the priest can do no wrong. So it doesn't matter what they do. There's not to be any accountability for it. Now, once people realize that they are working for this cabal and that this cabal goes back because of course, the official Catholic argument is that it goes back 2000 years. It goes back to the early church. It goes back to St. Peter himself. (So they say but without historical facts.)

So once people find out that this cabal is behind the CIA and they go to work for them, they're part of the inside club. That's why I think they just have no fear of consequences.

I think it's part of the reason why Joe Biden at one point said when he was running for office he offended a voter while he was out campaigning. And he looked at the guy and he said, Hey, I don't need your vote. I don't need your vote. Words to that effect. Why? Because he knew, I believe, that the election was going to be rigged. The election was going to be determined by

other people. It was going to be determined by these people he's out talking to. He's just got to do that because that's part of the theatrics. They have to go through the motions. They have to sell the idea that he was lawfully elected.

We're warned in the scripture that as time progresses, evildoers and seducers would wax worse and worse deceiving and being deceived. And it appears that this is what's happened here in the United States of America, this progressive movement, this communist movement, this counter-reformation movement to overturn our country, our constitutional republic, under God and overturn it and to put it under a system of socialism, communism with perhaps elements of Islamic Sharia, Sharia law. All of that is moving forward. That is all part of the globalist agenda. And there seems to be little doubt that our country has taken a very dark turn.

Now, I mentioned the counter-reformation, of course, because I do believe that has everything to do with globalism. It has everything to do with what is going on in the United States of America. Washington, D.C., **the federal government has been hijacked by Rome.** It's just like the title of the book by Justin D. Fulton, [Washington in the lap of Rome](#). That is the condition of our country right now. All three branches of government are effectively controlled by the Vatican. And our Deep State, I think the evidence is overwhelming. I don't think it's possible to understand the Deep State unless we understand that **the Jesuits are considered the most sophisticated intelligence network in the world, and they control Georgetown University** there in Washington, D.C. And so much of what happens through Georgetown University is that is the infrastructure for the federal government of the United States.

Now, I did want to mention the CIA connection going back to the OSS with the Nazis, with the Nazis, because at this point is clear that the Democratic Party has adopted virtually all of the political documents. All of the political doctrines of the Nazis from the war. And of course, you have Operation Paperclip where they smuggled Nazi former Nazis into the United States and put them in charge of the space and rocket program and they got involved in other areas of our country. Well, it's been well known that the Nazis after the war, many of them went to Argentina, went into Paraguay, went into Brazil, went into that whole territory. Why were they there? Why that part of the world? I believe the answer is the Jesuit reductions of Paraguay, the Jesuit reductions of Argentina, which had been developed centuries earlier, but the Jesuits have had a presence there in that part of the world for hundreds of years.

The New York Times at one point reported in this article back in 2013, "Joseph Mengele, the Nazi doctor who did experiments on concentration camp inmates fled to Paraguay after the war and lived under his own name in Hohenau, a German farming colony near the borders with Argentina and Brazil." So this is well known that the Nazis, Joseph Mengele and so on, and even it is given out that Hitler himself fled to Argentina, to this, this, what I consider to be Jesuit controlled or manipulated part of the world. In fact, where is the current Jesuit Pope Francis from? He's from Argentina.

Now, I think this is like a missing piece of the puzzle of what's going on today because of Latin American Jesuitism, I remember reading that term years ago from a Catholic writer who talked about Latin American Jesuitism. That is what we're dealing with right now because this is what's affecting our southern border. This is why we have all these illegal aliens coming across the border. It's because of the influence, I believe, of Latin American Jesuitism on the politics of the United States.

The current Jesuit general, Arturo Sosa, who is from Venezuela, from South America, just like Pope Francis. They are both Latin American Jesuits. And if you go read Charles Chiniquy's book, *Fifty Years in the Church of Rome* back in the 1800s, he warned that part of the scheme of the Catholic bishops was to Latinize the United States, through mass immigration. So that the same part of the world that harbor the Nazis, the same part of the world that probably gave a haven to Adolf Hitler himself. You realize it's given out. It's considered a matter of fact in certain parts of the world that Hitler went to Argentina after the war.

It's really very unnerving to think that the Allied powers may well have been involved in a massive deception, a massive deception. But of course, if the CIA or the OSS rather was smuggling Nazi war criminals out of Europe, obviously they were compromised at some level. If the CIA would eventually be behind the assassination of John F. Kennedy, they had to be corrupt. Obviously were corrupt. I mean, it's given out that while Bill Donovan and the OSS assassinated George Patton at the end of the war, or as the war was ending. So that corruption was there. And of course, we believe that corruption has its roots, its origins in Rome and the deceptions of Rome and the fact that Rome engages in this Hegelian manipulation where they will often play both sides of a conflict so that whoever wins that conflict, they have their people in a position of power to take control or to manipulate.

That is the nature of Romanism and has been for centuries. That's also the nature of Jesuitism and has been for more than 400 years. In fact, the Jesuits have been in Argentina since shortly after they were commissioned. They were commissioned by the Pope in 1540. They were in South America in Argentina since 1549.

When I interviewed Sean Wilcock, he confirmed what I'd been reading elsewhere, that the immigrants that are coming across the Mexican border into the United States are not just coming here. **They are being told by their priests, to go to America.** Yes, what's happening to our country right now, brothers and sisters, is an invasion. An invasion of our country by the same powers that supported Nazism during the war. But it's all being carried out in a very, very deceptive manner with layers of deception, lies, sophistry and propaganda. It is a system of evil that is perhaps unparalleled in all the pages of history.

We are living in a truly remarkable time. And as I've said before, the fulfillment of the Apostle Paul's warning in the last days, perilous times shall come. And I believe we are in perilous times. Now that's the case, we still have faith in God. We still have confidence that God always leads us to triumph in Christ and that all things work together for good to those that

love God. We're the called according to His purpose. Praise the Lord. Because when you're on board the Titanic and the ship is going down, the only thing you can do is lift your eyes to heaven and look upward. And right now our country is like a ship that is going down. And how is it possible to rescue this sinking ship? The Lord knows. Part of me thinks it is possible. It's certainly possible. All things are possible with God. If the Lord wills, He can certainly raise up champions to turn this thing around. That is entirely possible. But these forces, these dark and evil forces that are at work, they are not unbeatable. They have been beaten before in history over and over and over again. It's very important that we recognize that. They have their victories in history, but they have many, many losses.

And we have to remember that the principles of freedom, the great principles of freedom that we have today, were all established by our God-fearing Bible-believing Christian ancestors who resisted these powers of darkness. They go all the way back to the Inquisition. Consider the Thirty Years War, the original Thirty Years War. That was a war that ultimately took Thirty Years, roughly, but ultimately Protestantism prevailed against the powers of Rome and the papacy. It happened then, it happened through World War I and World War II. What is called the Second Thirty Years War? Now the powers of Nazism did not win. The Nazis supported by Rome, supported by the Vatican and the Jesuit order, did not prevail. Ultimately, they were put down.

But remember, when Hitler rose up, when the Nazis rose up, they were a spectacle. And they seemed very, very powerful. And some people thought they were unbeatable. That was not the case. God had other plans.

So what can we as ordinary people do? Me, I look to the words of one of the prayers of King David from Psalm 18 and verse 17. Well, I'll go back to verse 16. He says, He sent from above, He took me, He drew me out of many waters. He delivered me from my strong enemy, and from them which hated me, for they were too strong for me. The Lord delivered him because his enemies were too strong for him. And David, let's remember, was a mighty warrior. But he had enemies that were too powerful for him alone. He had to rely upon the Lord. And I believe we are in exactly that position, brothers and sisters. The Scripture says that we should only fear the Lord, and He will deliver us from the hands of all our enemies. Praise God.
