

# The Significance to the USA of Mexico's Cinco de Mayo Celebration

Painting of the Battle of Puebla, fought in Mexico on 5 May 1862 (from which the Cinco de Mayo celebrations originate) between the forces of the French Empire and the Mexican Republic.

This is a partial transcription of Christian J. Pinto's Noise of Thunder Radio [podcast of May 10, 2024](#). While my wife and I agree with what he has to say about Islam, it seems to us he's making all Palestinians synonymous with Muslims though some of them are Christians!

We don't agree in general with his take on the modern State of Israel. He once stated that the creation of Israel in 1948 was a fulfillment of prophecy. We strongly disagree. Moreover, Chris seems to contradict everything [Palestinian pastor Isaac Munther](#) has to say about the Israeli / Palestinian conflict! Who's right? Don't you think a Christian pastor who lives close to the conflict in Bethlehem would have more credible information than a person thousands of miles away whose primary source of information is the biased Western media?

However, what Chris Pinto has to say about the Jesuits and what they are doing to destabilize America, is in my opinion, very valuable information that hardly anybody but Jesuit conspiracy researchers are talking about. And what he has to say about the significance of Cinco de Mayo in this article is outstanding! We need to know who are our enemies lest we be misled and sidetracked. Too many people today have a superficial viewpoint thinking it's only a conflict between left and right, between Republicans and Democrats. I believe both sides are controlled by the same people. With this website, I want to cut the very roots of the evil tree, not just attack its bad fruits. We may be able to slow down the evil doers' plans somewhat, but only Jesus Christ, the "stone cut without hands" of Daniel chapter two will destroy the Beast controlling the governments of this world.

## **Partial Transcript**

Okay, praise the Lord, you guys, and welcome. I'm Chris Pinto.

This is Noise of Thunder Radio. Today on the show, we are going to talk about what's going on in the news. We've just come through Cinco de Mayo, and I am going to talk a little bit about Cinco de Mayo, because you're going to learn about it with the release of our upcoming film, *American Jesuits*.

A very quick update on *American Jesuits*. For those who have been waiting, patiently waiting for this new film to be completed, we have effectively completed the documentary. All of the major editing is done now.

When you see this film, you're going to see lots and lots of information. I mean, it is just jam-packed with information on the Jesuits, both past and present. So if you use this as a witnessing tool for friends and family, you're going to be able to show them very, very quickly, within the first 30 minutes, why they should pay attention to the Jesuit order in modern times and understand why they're important in the past, but also what they are up to in the world today, in the world we are living in right now.

## **Jesuit control of the world**

In fact, I had a conversation just the other day with Dr. David Brown, who many of you are familiar with. He and I spoke on the phone the other day, and I was telling him that I was finishing this new film.

He said, well, what's it called? I told him *American Jesuits*. He said, oh boy. He says, *they are turning our country upside down*.

He recognizes it right away, even though he and I have not really talked about this in probably over a year. Anybody who knows the history of the Jesuits and the Counter-Reformation, and once you realize that *Fauci, Dr. Anthony Fauci, was Jesuit trained from a very early age, and you realize all the other people in Washington, including Joe Biden, who are closely aligned with the Jesuit order, it is unbelievable, but it's also virtually undeniable that they have a powerful influence over what is happening right now with globalism, what's happening with flooding our southern border with all these illegals. This is a plan, folks.*

We're gonna show you, this is a plan that goes back more than 100 years, and we are watching it happen right before our eyes. Meanwhile, we're not just gonna talk to you about it. We're gonna show you the documentation past and present up in modern times, stuff nobody knows about.

Well, most people don't know about it because they don't talk about it in the schools. They're not gonna talk about it on mainstream television, but it's information that is, if you will, *hidden in plain sight*. If you know where to look, you'll find it.

It's not, on the one hand, the only reason people don't know is because nobody tells them, but we're gonna show it to you. Anyway, so that is coming up. Yes, the documentary is, we're hoping that we can turn this thing around so that we'll have the copies by the end of May.

Please pray for us. Pray for this work, that it will be a blessing to many people in our country and around the world.

## **Candace Owens conversion to Roman Catholicism**

All right, so now that we are talking about these issues, something I got a

series of emails from different people who reached out, and of course, one of the kind of disappointing bits of news is that Candace Owens, *Candace Owens has now converted to Roman Catholicism*. Candace Owens becomes Catholic. That's a headline from Newsweek, and Newsweek.com says, quote, Candace Owens has converted to Catholicism, describing it as a "decision to go home."

A decision to go home. Another website called The Unheard has a story on it. Says that Candace Owens had previously identified as a reformed evangelical Protestant.

Now she has made, "a decision to go home." Wow, what does that mean? Well, we know what it means. *It is based upon modern Romish propaganda that the Roman Catholic Church supposedly represents the most ancient form of Christianity*, supposedly, which I would say to anyone, that's like, you know, the modern Catholic Church with Vatican Council II declaring that Islam is effectively the same as Christianity, and so is Buddhism and Hinduism, et cetera, and all this craziness going on now with the gay blessings from Pope Francis, et cetera, with all of that, and they are promoting transgenderism.

## **Jesuit false doctrines**

If you study the Jesuit order, they are promoting not only homosexuality, they are promoting transgenderism. No question about it. To say that that is the most ancient form of Christianity, it's like the Democrats telling you that their political agenda with open borders, gay marriage, transgenderism, and socialism, that that's the most ancient form of America.

And, of course, anybody who knows the history of our country knows that's completely absurd. The same can be said for Rome. The vast majority of the doctrines that are believed are *doctrines that are unheard of for the first 10 centuries of church history*.

This is what many people don't realize. Things like indulgences, purgatory, transubstantiation, prayers to Mary, and the Hail Mary prayer don't show up. (In early Church history.)

I mean, even papal infallibility. People think papal infallibility is an ancient doctrine. It was a theory for centuries, but there was never a formal declaration about papal infallibility *until the year 1870*.

That's when the Jesuits pushed through, Vatican Council I, and there was so much opposition within the Catholic community. There is an article on this about Lord Acton, who is famous for the, quote, "Power corrupts, absolute power corrupts absolutely." That's what most conservatives know him for, but he was a 19th-century conservative Catholic.

He staunchly opposed the concept of papal infallibility, and when he was in Rome, while they were trying to push through Vatican Council won, it is said *he feared being assassinated by the Jesuits* because he knew that they were in a very mafia style trying to push Vatican I through. If you go study that history, it's somewhat disturbing, but nevertheless, we did a show. The reason I mentioned this thing with Candace Owens is we had done a show

several months ago where Candace Owens and Ali Beth Stuckey were having this debate with Candace Owens' husband, who is Catholic, and that seems to be, of course, why she has chosen to convert to Roman Catholicism.

It's undoubtedly the decision that she made with her husband. In the 19th century, what they would say, they would say that a person had **perverted to Rome**.

That was the common word. If you look that up, you'll find it through the 1800s during the time of the Oxford Movement. Whenever somebody would leave Protestantism and go to Rome, they would say they perverted to Rome.

## Cinco de Mayo

So we're going to talk about Cinco de Mayo, the 5th of May.

The 5th of May. Why do we celebrate Cinco de Mayo? Well, the reason we celebrate Cinco de Mayo is because of the First Battle of Puebla. The First Battle of Puebla.

This is a history that most people are unaware of. And what happened was, during the American Civil War, on May 5th, 1862, the First Battle of Puebla, that is when the French Army, under the French Emperor Napoleon III, invaded Mexico and fought the First Battle of Puebla. And most everybody believed that the Mexican Army was going to fail, that they were going to lose this battle because the French Army was much more sophisticated, etc.

And people kind of looked down on the Mexican capabilities, if you will. But the Mexican people turned the tables. They surprised everybody and won the battle.

They won the First Battle of Puebla. And so that is the reason why Cinco de Mayo is celebrated. That is the whole purpose of the celebration.

Now, the reason this pertains to us as Americans is because why was the French Army invading Mexico? Well, they were invading Mexico because this was what was called *the European plot. The European plot, not just against Mexico, but against the United States of America*. And this is happening during the American Civil War.

And as we're going to show you in the film, when we present the documentation, we have the history on it. What we show you is that there was a plan that involved Pope Pius IX, Napoleon III of France, and the monarchy in Austria, in particular, the Archduke Maximilian I. Maximilian I, Archduke of Austria. He was to be appointed for a short period of time, as the new emperor of Mexico. Because their plan was to have the French Army go in. This is the Pope, the French Emperor, and Maximilian of Austria, all in cahoots together, that they're going to establish a Roman Catholic Empire, a Mexican Catholic Empire in Mexico.

They're going to put a European monarch as the emperor. They want a guy with blonde hair and blue eyes because they look down on the Mexican people. And they wanted a European there.

And then what was going to happen is the French Army was going to continue and invade the southern part of the United States through Mexico, and help the Confederacy defeat Abraham Lincoln. That was all the plan.

Now, folks, you've got to understand something. This is not a conspiracy theory. This is history. And we're going to show it to you in the new film.

This is what was going on during the American Civil War. And the plan was that they were going to have a Roman Catholic Empire, a Mexican Catholic Empire, that was going to go from Mexico through the United States all the way up into Canada, which was already Catholic territory. But in order for that plan to be accomplished, they had to dismantle and destroy the United States of America.

And so that was ultimately why the Pope supported the Southern Confederacy. And so this is why Cinco de Mayo is significant. The reason that it's a celebration is because Mexico defeated the French in the First Battle of Puebla.

That caused a delay. But then they came back, the French, they ultimately prevailed, got control of Mexico, won the Second Battle of Puebla, then they went and they captured Mexico City, and they installed their guy. They actually set up this guy, Maximilian I, to be the emperor.

And he was the emperor of Mexico for a short period of time. And so they set him up. But Abraham Lincoln, during that space of about a year that the French were delayed, it allowed him to strengthen the Union, and the Union forces, and so Lincoln was able to send military aid down to Mexico. And that military aid helped the Mexicans push the French out of their country. They had to retreat. And then the Mexicans took Maximilian, and he was executed, and that was the end of this great dream that they had.

But the reason it's a celebration for America is because it delayed the advance, and ultimately the delay is what caused them to fail. That's what caused them to fail ultimately, collectively. You have to go study all the details.

We're not going to go into all the details on the radio program. We give you more of them. We give you specific quotes, sources, everything in the film.

But that was plan A for the Catholic bishops. Plan B, because plan A for their Mexican Catholic empire did not work out, *plan B is mass immigration into the United States through the Mexican border*. That's plan B. And quite frankly, folks, that is what we are witnessing in our country today.

That's why Joe Biden, who is a Vatican agent as far as I'm concerned, has opened the borders of our country. *Biden is Jesuit trained. Mayorkas is Jesuit trained. All of the players in this game have these direct connections to the Jesuit order. Nancy Pelosi, AOC. I mean, the list goes on and on.*

It's not a coincidence that all of these Vatican agents are the ones responsible for flooding our country with millions and millions and millions of illegals, most of whom are Catholics, coming from Mexico and Venezuela and

all these other territories. And yes, now they've got people coming in from China. They've got people coming in from the Middle East, but I believe they're all part of a globalist coalition to undermine and ultimately destroy the United States of America.

**We've got to be in prayer that the Lord will turn their plans upside down and rescue our country. And we've got to stand up and do our part and do whatever the Lord calls us to do.**

(End of transcript.)
