"The war in Bosnia is simply a stage to train assassins to be a market for, and new weapons to be a marketplace so the drugs can be used. And the (U.S.) Army runs the whole show. It's totally run by the Army. **The CIA is a bogus thing.** It's training and doctrine command. It's NATO, It's SHAPE – Supreme Headquarters Allied Powers Europe started by Eisenhower. It's a totally independent corporation. Its main function is to buy and sell weapons and to launder money. ... The CIA is kinda bogus. It's just to confuse use to get us off the track. It's all being done by **Army people.**" – Kay Griggs
