

Bruce Lipton explains the placebo effect and why most modern medical practices are not based on true science

I was truly amazed and impressed by this talk by Dr. Bruce Lipton! He explains why modern medical practices are still based on old outdated 19th century science because it does not include the principles of quantum mechanics. The medical world, especially in the USA, is stuck in a rut because of the influence of pharmaceutical companies and their monetary motivations. If you have a chronic illness of either a physical, mental, or spiritual nature, please do yourself a favor by taking 30 minutes to sit down and listen to this talk.
