

# PDF Files of Suppressed Books

This is a list of all the PDF files on this website that I created from other PDF files by extracting the text, posting individual articles of the text, and then compiling the articles to create new PDF files. The difference between the PDF files that I created compared to the original PDF files I got the text from is my PDF files are much better in quality with a much smaller file size, often only 1/10 or less the size of the original file. This makes the PDF file easier to share with others by email. For example, The Grand Design Exposed PDF file I downloaded from Archive.Org was 58 megabytes, and the one I created is only 1.4 megabytes. Not only is the appearance better and the text easier to read, but I also corrected the numerous spelling mistakes in the original file!

Any suggestions how to improve the summaries and the info about the authors on this page are greatly appreciated! Please write them in the comments and I'll probably implement them.

- [Prophetic Outlook Today](#) by E. P. Cachemaille, a Cambridge scholar and author.
- [The Papacy And The Civil Power](#) by Richard W. Thompson (1809-1900), Secretary of the U.S. Navy from 1877 to 1880. Mr. Thompson gives clear reasons why the popes of Rome are the enemies of the American constitutional republic form of government that guarantees liberty of conscience and the separation of Church and State.
- [Genocide In Satellite Croatia 1941-1945](#), by Edmond Paris, (1894 – 1970), a French historian who exposed the evils of the popes of Rome and the Vatican. This book covers the history of the slaughter of 750,000 Orthodox Serbians during World War II by the Roman Catholic Croatian Ustashi with the aid of Catholic bishops and priests! It was so awful even the German Nazis were shocked and grossed out at the atrocities! And though Hitler became a hated name in Germany, the Vatican still venerates all the top criminals who led the massacre of innocents!
- [Ravens Wolves by Monica Farrell](#). The author Monica Farrell (1892 – 1982) was an Irish Protestant evangelist. Ravens Wolves is about the mass murder of 700,000 Orthodox Serbs in Yugoslavia by Roman Catholic Croats through their military unit, the Ustashi, from 1941 to 1945 during World War II. Even the German Nazi soldiers were revolted by the barbarity of the Croats!
- [The Footprints of the Jesuits](#). The author Richard W. Thompson (1809-1900), was Secretary of the U.S. Navy from 1877 to 1880. The book examines the influence and role of Jesuits in political and religious contexts, particularly focusing on their opposition to Protestantism and the implications of their existence on American civil institutions.
- [Jesuit Plots From Elizabethan To-Modern Times](#). The author, Albert Close, (who wrote during the first half of the 20th century) was affiliated with the Protestant Truth Society of Great Britain and wrote a number of books on Historicism. The book is English history about the plots of the Jesuit Order to reinstate Roman Catholicism in England from the time

King Henry VIII established the Church of England shortly after the beginning of the Protestant Reformation. The Jesuit Order made various failed attempts in the 16th century to assassinate English Protestant monarchs to take over that nation. Mr. Close reveals some of the criminal efforts of these 'Shock troops of Rome'."

- [The Vatican Against Europe](#). The author, Edmond Paris, (1894 – 1970) was a French historian who exposed the evils of the popes of Rome and the Vatican. The book in Paris' own words: "...highlighting the historical continuity of the retrograde and evil politics of the Vatican, as well as the latter's overwhelming responsibility in the disasters that have succeeded one another in Europe during the last fifty years. The following pages lay bare the deceit and crimes in which the Holy See, its representatives throughout the world, and its Nazi and Fascist allies have participated, and which their unparalleled hypocrisy has not been able to conceal."
- [The Grand Design Exposed by John Daniel](#) According to my friend Darryl Eberhart, John Daniel is a pseudonym. The author's real name is Daniel Goodwyn and he passed away, "several years ago." The book outlines the Devil's conspiracy against God and His people by creating what he calls, "manufactured crises" (plural of crisis). The book contains abundant history about the Knights Templars, the Jesuit Order, the Illuminati, the Freemasons, the Vatican, and the Catholic Church, and how the Enemy of our souls works through these groups to try to defeat God's people.
- [The Divine Programme of World History](#). The author, Henry Grattan Guinness, (1835–1910) was an Irish Protestant preacher, evangelist, and author. He was the great evangelist of the Third Evangelical Awakening and preached during the Ulster Revival of 1859. The author sets forth the general principles of prophetic interpretation, and also the fulfillment in the last twenty-five centuries of things predicted by prophets and apostles in God's Word, the Bible.
- [The Present Antichrist](#). The author, Fred J. Peters, was a Protestant preacher who published this book in 1920. He says the purpose of the book is "to popularize the prophetic teaching of our Great Reformers" whose doctrines about the Antichrist are no longer taught today by the vast majority of evangelicals because they have been fed false interpretations of prophecy about the "MAN OF SIN" of II Thessalonians 2:3-4 as an end-time individual *only*.
- [The Papal System](#). The author, William Cathcart, (1826-1908) was born in Northern Ireland and became a Baptist minister in England and later America. His book is a historical sketch of every doctrine, claim, and practice of the Church of Rome.
- [The Seventh Vial](#). The author, James Aitken Wylie (1808-1890), was a Scottish historian of religion and Presbyterian minister. He was a prolific writer and is most famous for writing [The History of Protestantism](#). The Seventh Vial is an exposition of the Apocalypse, the Book of Revelation.
- [The Two Babylons](#). The author, Alexander Hislop (1807 – 1865), was a Free Church of Scotland Protestant minister known for his exposure of the unbiblical doctrines and practices of the Roman Catholic Church. The Two Babylons demonstrates the connection between the ancient Babylonian mystery religions and practices of the Roman Catholic Church.

- [The Antichrist: His Portrait and History](#). The author, Baron Porcelli (1849-1937), was a former Roman Catholic priest and therefore an insider of the Roman Catholic Church. Former priests are the best sources of information! He writes: "The Martyrs, the Reformers, and the Historicists generally, down to the present day, guided by the visions from Dan. vii. to Rev. xix., have no doubts on the matter: The Papacy, that is the succession of the Popes, is the Antichrist foretold and described in Scripture."
