The misunderstanding of God's promise to Abraham in Genesis 12:3 has led to the murder of innocent Palestinians in Gaza.

Carbon Dioxide is Not a Pollutant!

In light of the current (30 November until 12 December 2023) United Nations Climate Change Conference in UAE, also known as COP 28, I feel led by the Lord to write something about the so-called climate change crisis. COP stands for Conference Of the Parties under the UN Framework Convention on Climate Change (UNFCCC). In case you don't know it, the UN is not our friend.

Christiana Figueres, the Executive Secretary of the UNFCCC, stated in an interview that the Earth is already overburdened with people and that we should look at depopulating the planet.

She also said: (Quotes from https://www.azquotes.com/author/32264-Christiana_Figueres)

We have to get to the point where each individual, each corporation, each community chooses low carbon, because it makes fundamental sense. It should become a no-brainer.

DEMAND, PURCHASE & USE LOW CARBON PRODUCTS AND SERVICES. MAKE LOW CARBON SEXY!

The transition to a low-carbon economy will be much more painful if we wait until there is a climate crisis before recognizing that more than half of the world's fossil fuel reserves will have to remain in the ground.

Based on the many things I have heard over the years, the real reason behind the agenda of limiting carbon dioxide into the air is to purposely hurt the economy by increasing the cost of energy. Low-cost energy creates a strong middle-class economy, and this is what the New World Order elite do not want. The middle class has, from the elite's perspective, too much time to think! Rational thinking leads to awareness of government corruption and abuse of civil rights which results in public protests, something no government wants.

Christiana Figueres confirmed this view by actually admitting that the goal of environmental activists is not to save the world from ecological calamity but **to destroy capitalism!**

"This is the first time in the history of mankind that we are setting ourselves the task of intentionally, within a defined period of time, to change the economic development model that has been reigning for at least 150 years, since the Industrial Revolution."

The middle class in England grew as a result of the Industrial Revolution which began in the late 18th century.

As a group, the middle class saw enormous benefits from the industrial revolution. The growth of new businesses and factories created thousands of new jobs. The middle class itself grew in size as occupations like merchants, shopkeepers and accountants allowed the working class to lift themselves into a higher social strata. – Source:

<https://www.theclassroom.com/differences-between-wealthy-middle-class-poor-industrial-revolution-17180.html>

The Industrial Revolution created great wealth in England through the manufacture and sale of goods. Factories need a lot of energy to operate and that energy came from the low cost petroleum of that time, what the elite call “fossil fuel.” Fuel made from crude petroleum wasn’t taxed then as it is today. It turns out that the [origin of petroleum may be abiogenic](#) and not from fossils of decayed organic matter! If so, it may be limitless and the price could go down drastically. But that’s not what the ruling elite want to happen.

Bill Gates in an interview stated his ambitious goal is for the world to decrease CO₂ to zero by year 2050. In the meantime he confesses to being an ‘imperfect messenger’ as he lives in large houses and travels by private jet. [He owns four of them](#) which he used for 392 flights last year, more than once per day!

The climate may be changing but it’s not the result of CO₂ emissions. It’s either natural as a result of solar activity and/or it could be [malicious weather modification, something the US military learned how to do during the Vietnam War](#).

Quote from [There Is No Climate Emergency, Say 500 Experts in Letter to the United Nations](#)

On the same day last week that Greta Thunberg made an impassioned speech to the United Nations about her fears of a climate emergency, a group of 500 prominent scientists and professionals, led by the CLINTEL (Climate Intelligence) co-founder Guus Berkhout, sent this registered letter to the United Nations Secretary-General stating that there is no climate emergency and climate policies should be designed to benefit the lives of people.

The made points in the letter are [listed on CLINTEL’s website](#):

There is no climate emergency

A global network of over 1800 scientists and professionals has prepared this urgent message. Climate science should be less political, while climate policies should be more scientific. Scientists should openly address uncertainties and exaggerations in their predictions of global warming, while politicians should dispassionately count the real costs as well as the

imagined benefits of their policy measures.

Natural as well as anthropogenic (caused by humans) factors cause warming

The geological archive reveals that Earth's climate has varied as long as the planet has existed, with natural cold and warm phases. The Little Ice Age ended as recently as 1850. Therefore, it is no surprise that we now are experiencing a period of warming.

Warming is far slower than predicted

The world has warmed significantly less than predicted by IPCC ([The Intergovernmental Panel on Climate Change](#)) on the basis of modeled anthropogenic forcing. The gap between the real world and the modeled world tells us that we are far from understanding climate change.

Climate policy relies on inadequate models

Climate models have many shortcomings and are not remotely plausible as global policy tools. They blow up the effect of greenhouse gases such as CO₂. In addition, they ignore the fact that enriching the atmosphere with CO₂ is beneficial.

CO₂ is plant food, the basis of all life on Earth

CO₂ is not a pollutant. It is essential to all life on Earth. Photosynthesis is a blessing. More CO₂ is beneficial for nature, greening the Earth: additional CO₂ in the air has promoted growth in global plant biomass. It is also good for agriculture, increasing the yields of crops worldwide.

Global warming has not increased natural disasters.

There is no statistical evidence that global warming is intensifying hurricanes, floods, droughts and suchlike natural disasters, or making them more frequent. However, there is ample evidence that CO₂-mitigation measures are as damaging as they are costly.

Climate policy must respect scientific and economic realities

There is no climate emergency. Therefore, there is no cause for panic and alarm. We strongly oppose the harmful and unrealistic net-zero CO₂ policy proposed for 2050. If better approaches emerge, and they certainly will, we have ample time to reflect and re-adapt. The aim of global policy should be 'prosperity for all' by providing reliable and affordable energy at all times. In a prosperous society men and women are well educated, birthrates are low and people care about their environment.

Those are statements from honest scientists!

I have a scientist friend, Dr. John Gideon Hartnett, who also exposes the UN Climate Change policies as a scam. The following facts are from his Bible Science Forum website: [Decarbonise the planet, are they mad?](#)

The lie that sits beneath the climate change movement is that there is excess carbon dioxide in the atmosphere. Who says and by what definition? There is no climate catastrophe – some have even called the ideology a total fraud. But there is plenty of money to be made and so Big Oil backs these schemes to suck the life out of the planet.

How deluded do you need to be? Carbon dioxide is not a pollutant. It's **plant food**. It is **essential to life**, all life (directly or indirectly), yeah, except for maybe some deep sea worms, and anaerobic bacteria.

There are four essential ingredients for green plants to grow and produce oxygen and sugars. The sugars are the food for animals and humans. The sugars in grasses are what the herbivores (animals like cows and sheep) convert into protein, which we need as a species to survive. And carnivores eat the herbivores, thus all species are included.

Those four essential ingredients are **sunlight**, **carbon dioxide**, **water** and **minerals**, especially magnesium. Sunlight, carbon dioxide, and water – atmospheric molecules – are all demonized as greenhouse gases causing global warming. In addition, nitrogen, another atmospheric molecule, an essential plant fertilizer, is also considered pollution.

NASA says the earth is getting greener as a result of more CO₂ emissions!

A quarter to **half of Earth's vegetated lands** has shown **significant greening over the last 35 years** largely due to rising levels of atmospheric carbon dioxide, according to a new study published in the journal *Nature Climate Change* on April 25.

An international team of 32 authors from 24 institutions in eight countries led the effort, which involved using satellite data from NASA's Moderate Resolution Imaging Spectrometer and the National Oceanic and Atmospheric Administration's Advanced Very High Resolution Radiometer instruments to help determine the leaf area index, or amount of leaf cover, over the planet's vegetated regions. The greening represents an increase in leaves on plants and trees equivalent in area to two times the continental United States.

Green leaves use energy from sunlight through photosynthesis to chemically combine carbon dioxide drawn in from the air with water and nutrients tapped from the ground to produce sugars, which are the main source of food, fiber and fuel for life on Earth. Studies have shown that **increased concentrations of carbon dioxide increase photosynthesis, spurring plant growth.**

What does that mean in relation to the United Nations climate change agenda? It means to me purposely decreasing the amount of carbon dioxide into the air will *decrease* plant growth! There's even talk about cutting down carbon dioxide in the air by [capturing it to permanently storing it underground!](#) Utter madness!

All Christians should pray against COP 28.

Whenever there is worldwide deception, we know Satan is behind it for the Bible says:

Revelation 20:7-8 And when the thousand years are expired, Satan shall be loosed out of his prison, And shall go out to **deceive the nations** which are in the four quarters of the earth,...

We don't have to accept the abuses of our constitutional liberties! We can pray that the Lord will defeat any government policy that is against our morals.

The UN and Vatican are pushing the climate change scam to help bring about their new world order of global governance – no more God-given rights, only government “privileges.”

[What exactly is the World Economic](#)

Forum?

I found a talk by Larry Alex Taunton that I like on my friend's website [Global Depopulation by WEF](#)

Mr. Taunton has very interesting things to say about Klaus Schwab's World Economic Forum. He gives the history and the motivation behind it.

Larry Alex Taunton (born, May 24, 1967) is an American author, columnist, and cultural commentator. He has personally engaged some of the most outspoken opponents of Christianity, including Richard Dawkins, Christopher Hitchens, and Peter Singer.

Quoted from the YouTube video:

In this, our fourth episode of the "Ideas Have Consequences" podcast, author and host Larry Alex Taunton cuts through the conspiracy theories and the WEF's noble slogans to explain the history of this sinister organization and the anti-human ideas driving it. Taunton, who attended the WEF's annual meeting in Davos, Switzerland as a kind of spy, brings a unique knowledge and experience to this important issue. This is THE podcast when it comes to ideas and the World Economic Forum.

Important points from the video

- The elite are telling us all how we need to reduce our carbon footprint. The carbon they want to reduce is you.
- There are a boatload of ideas that are driving the World Economic Forum. They are sinister ideas but the people themselves don't think of themselves as sinister. Indeed they think of themselves as very decent good people who are doing what is the best for humanity.
- C.S Lewis once made the observation that the worst kind of tyranny is that which is done for your own good. And it's because those kind of tyrants are individuals who tyrannize you with the approval of their consciences. They're individuals who reassure themselves that at the end of the day what they're doing even if it caused a little bit of harm, it was ultimately for your own good. It's why a guy like Joseph Stalin when asked by a lady, "When are you going to stop killing people? He said, "When it's no longer necessary." He simply meant, to make the Socialist,

the Stalinist, the Marxist omelet, you got to break a few eggs. And this is the mentality of the World Economic Forum.

- Human beings in the Socialist, Marxist, Communist, and Fascist way of thinking are simply raw materials for building the Utopian state, and this defines the World Economic Forum as well.
- Atheism is a major driving factor.
- The guys that are coming after you, they're not going to have gone to Sunday school, they're not going to be people who have been influenced to the degree that you are by the Christian faith. They're going to be prepared to follow their atheism to its logical conclusions. They're like Peter Singer (Australian moral philosopher and the Ira W. DeCamp Professor of Bioethics at Princeton University) who's the most consistent atheist that I've ever met. They're going to be willing to follow it all the way to where it goes which is to say there's no ultimate meaning in life other than that which you assign to yourself which again has no real meaning, no transcendent meaning. It's just kind of a fake meaning that you give yourself in order to feel better about this life. It means there's no life in the Hereafter, there's no hope, there's no justice, there's no ultimate right and wrong, there is only what happens. And if it means that you're a genocidal maniac, who cares? There's no ultimate right and wrong. And it means a guy like Stalin or Mao got away with it. There's no one in the next life to judge them for what they did. (Or so they think!) Once a culture absorbs that kind of ideology, atheism at its core, it's anything goes. And we're starting to see that in the culture now.
- The World Economic Forum has moved beyond the debate over God's existence to a place where their whole premise, their whole world view just more or less assumes there is no God. And they're taking it to the next level, they're taking it to its logical conclusion.
- At its core the World Economic Forum is about population control. They want to reduce the global population.
- They use the word "sustainability." That is a word you should be very wary of any time you hear sustainability, economic sustainability, development sustainability, governmental sustainability, or agricultural sustainability. Nothing good follows on the backside of the word sustainability. It always turns out to be fundamentally anti-human and that is because the World Economic Forum is anti-human. Atheism taken to its logical conclusions is anti-human.
- A lot of these World Economic Forum types don't believe in human perfectibility. They believe in societal perfectibility. There's a slight difference between those two. They recognize that human beings are flawed but they think they're flawed for a different reason. They don't think it is because of the Fall as I believe as a Christian from the Genesis account of creation and the polluting of the human spirit from Adam all the way down.
- I remember how Richard Dawkins put this to me in his home some years ago. I said, "Do you believe in evil?" And he says, "I believe in genetic predispositions." So he's rejecting the premise that there's an ultimate right and wrong, there are only genetic predispositions, and those pre-dispositions are divided into two categories, those dispositions that we like and those dispositions that we don't like,

that we consider to be anti-social and therefore things to be eradicated. That's an evil philosophy because it leads you to believe that we can separate out the evil people and destroy them and we're left off with a better humanity. This is what drove Hitler, just separate out the bad people and destroy them.

- The World Economic Forum itself was founded in 1971. Between 1965 and 1975 there was an obsession with the global population, that the population was getting out of control.
- This concern over population control had infected the thinking of academic elites, and so they were buying into this in a big way, and the Club of Rome comes along. This is a group that was established in Rome which oddly now is based in Zurich. They should be called the Club of Zurich. It was a group of about 25 people the goal of it becoming about 60 people, but I think they're north of 100 members now. They're mostly individuals who are think-tankish types. They are academics, they're businessmen, they are influential people who gather together for the purpose of bettering mankind. That's the stated goal of the Club of Rome. It's a think tank, a vastly influential think tank.
- The club of Rome was saying, "Look we have a global crisis and the global crisis is overpopulation. Read what Paul Ehrlich said in the *"Population Bomb."* We're in trouble what are we going to do?" So they said, "Rather than doing what academics normally do and just producing a paper that's full of theories and suggestions, let's actually create an executive committee that acts on their recommendations of the think tank. We need to create the problem: Overpopulation."
- Klaus Schwab, a German engineer, founded what he called at the time the World Forum. He would eventually change the name to the World Economic Forum. The World Economic Forum was created with the intention that it would act upon the think tank's (the Club of Rome's) recommendations.
- You have to think about this just a little bit how arrogant must you be to think that it is your job to act on behalf of the whole of humanity without being elected to so much as dog catcher! These are not elected individuals. At the time of its founding, the World Economic Forum wasn't particularly influential. Now it is.
- This year's World Economic Forum there were more than 50 heads of state, 115 billionaires and more than 600 CEOs of major corporations. Major multi-billion dollar corporations that are involved in this. And then there are peons like me who attended which are another 2700 individuals. And so I decided I needed to be there. I wanted to mingle among the 2700 others. I wanted to see what those people are about.
- Dennis Meadows (American scientist and Club of Rome member) is here saying, "Yeah, we need to reduce the global population by billions, but hey I really hope this can be done in a civil way, in a peaceful way." It's astonishing the way these people talk about peace. It doesn't mean that everybody's happy, but it means that conflict isn't solved through violence and through force but rather in other ways.
- Dennis Meadows comes off as just your regular normal guy who lives next door and who you discover wants to rid the planet of seven billion people. Here's a guy who says, "Gosh I sure hope that we can do it in a sustainable way." And then you hear the absolute contempt for democracy, for the will of the people. This is the way these people think. They do

not believe that you deserve a voice in this.

- We have Marxist regimes in South America that are destroying economies. We have seen Brazil fall to Marxists via dubious means Venezuela fell to Marxists, Peru has fallen to Marxists, Chile has fallen to Marxists. Stunningly the most stable democracy in South America has fallen to Marxists and Honduras, all of those countries have fallen. Colombia is another one that has also fallen to Marxists, and they're destroying economies and those people are fleeing to the USA. Do you know what CNN said the reason was for these millions of people crossing our southern border? CNN said it was due to climate change! Complete nonsense! This has nothing to do with climate change. It has everything to do with the very policies that these people (the WEF elite) are trying to import into the United States.
- World Economic Forum agenda is fundamentally anti-human. It is anti-Christian. It is atheistic to its core.

What is the Club of Rome?

"The Club of Rome is a platform of diverse thought leaders who identify holistic solutions to complex global issues and promote policy initiatives and action to enable humanity to emerge from multiple planetary emergencies." (Source: <https://www.clubofrome.org/about-us/> – on the official website of the Club of Rome)

"The Club of Rome is **a Masonic lodge founded in 1968 on David Rockefeller's estate** in Bellagio, Italy. The Member Squadron is a traditional collection of grandiose reformers with heads of state, UN bureaucrats, leading politicians and government officials, diplomats, scientists, economists and big business leaders. **A collection from all over the world with a strong side of rich Western "elite"**. This political lodge also brings together multi-billionaires in the Rockefeller, Rothschild and Soros families along with political chameleons such as Anders Wijkman and industrial magnates such as the now deceased oil businessman Maurice Strong." The second definition is from Technocracy News which mediabiasfactcheck.com calls "Conspiracy-Pseudoscience." LOL!

I fact-checked mediabiasfactcheck.com and this is what I came up with:

"Mediabiasfactcheck has been repeatedly caught in lies and distortion of truth. Repeated claims that have proven false about Covid alone are enough to quit using them. Takes going to court to get them to correct lies they publish. It is a totally discredited, self-styled 'fact-checker' site that has been served with a 'cease and desist' legal notice for publishing unsubstantiated and defamatory claims against Principia Scientific International (PSI)." David Icke and Dr. John Coleman talk a lot about the Club of Rome, but because I don't trust information from either of those guys, I won't use any

of their materials. Coleman talked about the Club of Rome as a governing body giving orders, but I see it more as a think tank.

I consider the most reliable source of information about globalists' plans that do not have the good of the general public in mind to be right out of publications of the globalists themselves. The following quotes are from a PDF file of a Club of Rome publication entitled: "[The First Global Revolution – A Report by the Council of the Club of Rome](#)" written in 1991 by Alexander King and Bertrand Schneider. The need for enemies seems to be a common historical factor. States have striven to overcome domestic failure and internal contradictions by designating external enemies. Climate change is controversial even among scientists, but you probably didn't know that by listening to the mainstream media.
