The Flat Earth psyop: a clever, satanic form of psychological warfare designed to divide and conquer by confusing, distracting and controlling the opposition.

The Ultimate Argument Why the Earth is NOT Flat!

If the sun cannot be seen at night, something must be blocking it from our view! What could be big enough to block it? Only the earth itself!

Discussion with a Lady Seeking Answers

Why Flat Earth Memes are Pseudoscience

The image above is a flat earth meme to give a false impression that a spinning earth should throw off water into space just like a spinning wet tennis ball. It's discussed in this article.

I don't take much time talking to people who are convinced the Earth is flat and who are trying to convince me of their pseudoscience. I really thought the lady in this conversation was sincere, but in the end, she rejected my arguments. Who's right? You be the judge.

The lady's comments are indented and in *italics*.

So my question about the globe is, how do you explain areas that should be "hidden behind the curve" when you can plainly see farther than that with the naked eye? And how does air pressure work, assuming you reject the dome firmament. I'm genuinely still trying to figure out what I actually believe about all this.

It seems to me that you are repeating what you heard on Flat Earth videos. The fact is that you cannot see beyond the curvature of the earth. I am from Chicago and I cannot see the eastern shore of lake Michigan because of the curvature of the Earth unless I view it from an airplane. And just the fact that the higher you go in an airplane, the further away the horizon is, is evidence of a spherical Earth. From the air, I could see both the East and West shore of Lake Michigan when I flew over it.

There is no dome. Air pressure works because of the weight of the air due to gravity. We think of air as being very light but if you consider 20-30 miles of air over us all those molecules of air are going to be compressed near the Earth because of the weight of the miles and miles of molecules. That's how air pressure works. And the thing is this is not rocket science but simple science that people should be able to understand in high school. One Flat

Earth video said the reason for gravity is because of air pressure. And a simple experiment proves that to be absolutely false. I saw a video of a room with all the air pumped out of it and a heavy metal weight was dropped from a height the exact same time a feather was dropped. And gravity pulled the heavy metal weight and the feather down and they both hit the ground at precisely the same time! You see Flat Earthers also deny the force of gravity. And yet they dare not violate the principle of gravity by walking off the roof of a 20 store building.

Flat Earth videos are very deceptive. Unless you really understand true science, you will take statements as fact that are totally untrue. Like one man who said with binoculars you can see things what the curvature of the earth is supposed to be hiding. That's totally false!

specious

adjective

spe·cious | \ 'spē-shəs  \

Definition

1 : having a false look of truth or genuineness : SOPHISTIC

// specious reasoning

2 : having deceptive attraction or allure

Merriam-Webster's definition of the word specious

Flat Earth videos are full of specious reasoning.

(She sent me this meme of a wet and spinning tennis ball.)

Of course, if you spin a wet tennis ball at 50 revolutions per second, water will fly off it, but not if it rotates only one revolution over a 24 hour period. (And gravity is not even a factor in this case!)

The average speed of the earth spinning is supposedly 1500km/hour so it's not too far off to spin a tennis ball quickly. A condescending attitude doesn't help your case.

Do you really think I am trying to be condescending? 1500km/hour at the equator means the earth is revolving only once every 24 hours. I would not consider that to be a spinning earth. Do you? You couldn't even turn a tennis ball that slow! It would drive me crazy if I tried because it would take 24 hours. To say the Earth is spinning is not only misleading, it is false in my understanding of the definition of the word spin. Spinning Earth is mind manipulation in my opinion. I am just trying to say the facts. I don't want to talk down to people. I love people. It breaks my heart to hear sincere Christians call Flat Earth the truth. I consider Flat Earth to be promoted by government-funded agents seeking to marginalize Christians. And sad to say they have done a good job because millions of Bible believers are deceived. No famous and respected man of God I know of teaches Flat Earth.

Please know that I am continuing this conversation with you because I thought you are sincere in wanting me to help you understand that arguments for Flat Earth are based on false assumptions and pseudoscience. If I thought otherwise I would end the conversation. It would only be a waste of both of our time if you are not really interested in understanding what I have to say.

If gravity pulls things to the ground then how does a cloud made up of water droplets stay afloat? Gravity is still a theory, as is much of what we call modern science. I do lean towards electromagnetism being the force over gravity as it can already be observed in animals such as the gecko with its toes. And it's my opinion that much of science is made up, evolution. So if they lie about one thing, why are they telling the truth about other things? Satan is the father of lies and the prince of this world.

Modern science has given us the technology and tools to communicate with each other on this platform, and now for a relatively low cost, the price of our monthly WiFi and/or phone bill. I find it highly ironic and even hypocritical that Flat Earthers mock modern science and yet use technology that science has provided to spread their Flat Earth pseudoscience! I'm not speaking about you but about Flat Earthers in general. I think you are repeating what you heard about clouds from a Flat Earth YouTube.

Clouds generally form, survive and grow in air that is moving upward. Rising air expands as the pressure on it decreases, and that expansion into thinner, high-altitude air causes cooling. That's why they stay up in the air. But they don't stay up forever and eventually fall down as rain due to gravity.

Yes, gravity is a theory, and the reason why Flat Earthers need to debunk the established theory of gravity with their own theories is because if the established theory of gravity is true, a Flat Earth cannot be possible. One of the theories of gravity on I heard from a Flat Earther is the earth is constantly being accelerated upward by a force. And yet other Flat Earthers say the Earth is motionless! So you see, Flat Earth doctrine is not consistent throughout the Flat Earth community.

Again I repeat, I am only taking time to share this with you because you told me you are sincerely seeking answers. If I thought you were convinced about Flat Earth, nothing I would say would change your mind, and I would be wasting my time.

Of course, there is pseudoscience in the academic world as well. As you clearly brought out, evolution is one of them. But the first real scientists such as Isaac Newton were men of God who believed in God Who designed the universe according to principles and laws, and they sought to discover those laws. That's what real science is about. It's the pursuit of knowledge. And the best scientists are those who hold the Genesis account of creation to be fact and especially those who believe in our Lord Jesus Christ.

Do you believe the moon reflects the light of the sun?

Yes, absolutely, I believe that. The moon doesn't generate its own light. It refracts the light of the Sun.

So how is it that when the sun and moon are both in direct line of each other in the sky it's not full? Today at 3 pm I could see both the moon and sun. The moon was only 1/2.

Phases of the moon are caused by the alignment of the earth, the moon, and

the sun. Like the earth, 1/2 of the moon's surface is always exposed to direct sunlight. However, depending on the moon's orientation with the earth during its 28 day orbit of the planet, a person on the surface of the earth will only be able to see a fraction of that exposed area, and the rest of the moon will appear to be dark or in shadow.

That's what they say. But when they are literally both in the sky there is nothing between them at all to cast a shadow.

But we see the shadow because of the moon's position in relation to the earth. It's all about the position or alignment of the sun, the Moon and the Earth. When the Earth's shadow from the Sun covers the moon that's when we have a lunar eclipse. When the shadow moves away the moon is full again. I think what I shared above about the alignment of the moon the Sun and the Earth is pretty clear. The moon like the Earth is always one half illuminated by the Sun but we only see part of that illumination at times because of our alignment with the Moon because the Moon orbits the earth. And the reason Flat Earthers want to debunk that is because it proves the existence of gravity.

This explains why we see the phases of the Moon. The image is not in scale of course. I think it is very clear and reasonable but of course, the Flat Earth people will reject it because they reject a spherical Earth and they reject the conventional theory of gravity.

One of my friends told me that in order to be convinced that the Earth is flat I have to watch at least 30 Flat Earth YouTubes. I told him, "no thank you I don't care to become brainwashed with false information." Some Flat Earthers told me they wavered back and forth at first but eventually entered the Flat Earth camp after seeing so many flat Earth videos. I think they are dangerous because they are so deceptive.

You keep saying your explanations are so simple, but you can't see that it's IMPOSSIBLE for something to cast a shadow if it is not between the light source and the object it is casting the shadow on... that's simple science. If the sun and moon are in a direct line in the sky, the Earth is not between them at all. I think I'm done with our conversation. I was looking for solid arguments and I'm not finding them. Thanks for your time.

Desklamp experiment showing how the phases of the moon work.

A simple experiment with my desk lamp and a model of the Earth shows the error of your reasoning. In this case, the model earth in the photo represents the Moon, the desk lamp represents the Sun, and I am standing figuratively on the earth taking the photo. From my position, though I can see the sun and the model simultaneously, part of the model is not illuminated by the light bulb. For you to say that is "impossible" tells me you are parroting the falsehoods of the Flat Earthers from a YouTube you watched.

I thought that you were sitting at the fence about Flat Earth but now I see you have gone to the other side. As I said, Flat Earth videos are deceptive and the reasoning on them is specious. The bottom line for me is exactly one half of the Earth is illuminated by the Sun at all times while the other half of the earth is in darkness. This is impossible if the Earth is flat. A

simple experiment with a light bulb in a dark room next to a wall or near the floor proves that.

Flat-Earthers show us images of a **lamp illuminating a dark wall** to demonstrate —incorrectly— how night happens on a flat Earth.

❶ Areas farther from the lamp get less light, but still receive light nonetheless ❷ they look dark because cameras cannot deal with extremely bright & dim things simultaneously ❸ the lamp is visible from any points on the wall ❹ at no point on the wall the lamp appears obscured by the wall. — Despite of their claims, this only demonstrates that **flat Earth cannot explain how night occurs.**

Introduction

I am saddened to hear that more of my friends and fellow brothers and sisters in Christ fell for what I believe to be a psychological operation, AKA pysop, designed to marginalize them as “science deniers”, “conspiracy theorists” and wackos in general. The name of the pysop is Flat Earth.

If you are a Christian and proclaim the earth is flat, what will unsaved people think about your witness for Jesus Christ? What will they think of your testimony as a Christian? You say you cannot believe everything the World, the government, scientists and NASA is telling you, and I certainly agree! There is much falsehood being proclaimed today in the name of science. At the time of this post, scientists and medical professions calling COVID-19 vaccinations “safe” is one of the most dangerous falsehoods today in my opinion. Why do I believe COVID-19 vaccines are dangerous? Because rather than trust what the government and corporate-owned pharmaceutical companies making billions of \$ from selling the vaccines are telling me, I think listening to what many *other* scientists and medical professions who have endangered their very careers and reputations by telling me [COVID-19 vaccinations will kill me](#) is far more safer, logical and reasonable than listening to profit-seeking cooperations and government agencies which already have a reputation for being dishonest. And why are they dishonest? Because of the love of money and power!

If you believe the earth is flat, I think you will probably agree with me that COVID-19 vaccines are harmful. If you do, I hope you might consider the existence of government-fueled hoaxes which are known as “[cognitive infiltration](#)” that seek to undermine your message that COVID-19 vaccines are harmful, and your testimonial of salvation in Jesus Christ. I am convinced Flat Earth is one of those government-fueled hoaxes. Don’t let government spooks lead you astray!

Cognitive Infiltration

DISCREDITING TRUTH WITH CONSPIRACY HOAXES

BY CASS SUNSTEIN

II. Governmental Responses

What can government do about conspiracy theories? Among the things it can do, what should it do? We can readily imagine a series of possible responses. (1) Government might ban conspiracy theorizing. (2) Government might impose some kind of tax, financial or otherwise, on those who disseminate such theories. (3) Government might itself engage in counterspeech, marshaling arguments to discredit conspiracy theories. (4) Government might formally hire credible private parties to engage in counterspeech. (5) Government might engage in informal communication with such parties, encouraging them to help. Each instrument has a distinctive set of potential effects, or costs and benefits, and each will have a place under imaginable conditions. However, our main policy idea is that government should engage in cognitive infiltration of the groups that produce conspiracy theories, which involves a mix of (3), (4) and (5).

Not *all* science is false! If you claim it to be false, how are you reading this article right now? You're reading it from either your Desktop PC, laptop, smartphone, iPhone, iPad, tablet, or some other device that technology has created. All technology is based on science!

Update! Proof that Flat-earth promoter Eric Dubay is a CIA asset!

The below article is a repost of [The Millennium Report](#) by Revisionist Historians for World Peace.

There is an insidious conspiracy at work throughout the entire Internet which seeks to destroy Truth Movements everywhere. One of its organs of mischief is known as the **Flat Earth Society** (FES) and its explicit purpose is to take down every single truth-oriented website, blog and/or organization which permits an open comment section at the bottom of their posts and articles.

Here's how they work:

Agents of the FES often begin by posting rather benign yet factual comments about NASA, which everyone now knows is a rogue agency which can rarely be trusted to tell the truth about particular scientific endeavors and galactic missions. That's a no-brainer that everyone agrees with—NASA holds onto most of the truth and parcels out only the absolute minimum to the taxpayers who fund their space missions and other assorted projects.

The *Flat Earthers* then take advantage of this universal hatred of NASA for their spewing so much deception over so many years, and they use it to subtly garner support for their nonsensical **Flat Earth Theory** (FET). When the time is right, the *Flat Earthers* will then start introducing utterly absurd notions about the Solar System and patently false concepts about the Earth's relationship to the Sun.

They justify their preposterous sophistry and wacky ideas by routinely outing

NASA as a serially prevaricating government agency, which they are – and then using their well-known deception as a justification to overturn the entire paradigm of modern astrophysics. **Talk about throwing the baby out with the bath water.** There is no astronomical scientific truth that the *Flat Earthers* have left unassailed. You name it – gravity, a spherical Earth and other planetary orbs, rotational movement of the planets. planetary revolutions around the Sun – they throw it all out and label it as “NASA lies”.

Once they do that in a very public Internet forum or chat room, website or blog comment section, they begin to stir up a LOT of trouble. They pre-position sock-puppets in the same forums, blogs, etc, who will, with apparent spontaneity, support their silly and stupid comments about the *Flat Earth Theory* (FET). The longer the comment thread, the more opportunity to draw in the unsuspecting into their outlandish web of deceit and deception.

They do this by presenting some entirely new and quite valid hypotheses which do introduce such concepts that are related to the Electric Universe; or that propose that the Solar System is also moving through space in a manner which defies the conventional scientific wisdom. There are many instances where the current scientific paradigm does completely fall down, by the way, and the FEs use these obvious flaws to take down the whole system of modern thought.

By so aggressively assaulting the conventional wisdom which is accepted by the vast majority of people on the planet, they then tar the reputation of the truth movement groups whose websites they have deliberately polluted with their obvious foolishness concerning their *FLAT EARTH* fantasies.

A Massive CIA Black Operation

Many are now suspicious that these relentless FE initiatives are so organized because they have the backing of those government agencies that do not want the truth (about anything) revealed. The CIA, FBI, DIA, NSA have long employed this signature MO which is determined to kill the messengers of truth anyway they can. Ruining reputations has always been preferred to outright murder, which they also perpetrate when they deem it absolutely necessary. After all, the primary mandate for *The Company* (aka the C.I.A.) is to carry out their covert truth-silencing black operations.

Important Note:

The vast majority of *Flat Earthers* do not even have a clue that they are being used 24/7 to advance a sinister agenda to destroy the various truth movements around the globe. If they did have this awareness, most would leave the whole enterprise in a heartbeat. Like all C.I.A. blackops, they are conducted on a strictly need-to-know basis and in a highly compartmentalized fashion. Just like only the 33 degree Freemason types know anything of the real plots that are afoot in the world, so, too, do those CIA controllers manipulate the *Flat Earthers* from afar. All the CIA ever has to do is effectively control one individual who has been completely programmed to execute their agenda. Others who demonstrate similar vulnerability to the same programming are then chosen to lead the sheep whenever and wherever necessary. The bottom line here is that many *Flat Earthers* are truly seeking the truth. This segue into *Flat Earth* crazyland is but detour they must take

in order to get real after they become aware that they have become profoundly deceived. Everyone takes a similar journey in life as they break free from all the deception which has been brought to bear by the ubiquitous and everpresent *Global Control Matrix*.

Conclusion

How easy is it for a pack of *Flat Earth* jackals to take down an honest truth-seeking website or forum that only looks to uncover the truth. These folks have scripts crafted for every rejection and every response that they face. They have been thoroughly brainwashed to understand the *Flat Earth Theory* as truth, and are mind-controlled to see themselves as modern-day Galileos.

In light of their cohesive organization they have learned how to work in a concerted effort to quickly victimize the unsuspecting. Their primary weapons are little (and big) lies that NASA has told, as well as some glaring gaps in the current astrophysics paradigm. It's true that each successive paradigm has rendered the previous one partially obsolete as the world has evolved from the Newtonian to the Einsteinian to the Quantum to the Electric Universe.

However, that does NOT mean that fire is not hot and does not burn. These *Flat Earthers* would have us all believe even that – that fire is not hot and does not burn – if they could, and much more crazy stuff. Nevertheless, it's critical to understand such crazymaking by certified crazymakers is quite purposeful. For CIA-certified crazymakers such as these always have a covert agenda to execute and specific goals to accomplish. Hence, the challenge for many has been to avoid being caught up in their utterly crazy agenda. Otherwise, if we get caught off guard, we risk missing the gun-grabbing that can occur in the wake of an Orlando false flag mass shooting or the like.

Flat-Earth is a black-op disinfo campaign designed to make conspiracy researchers and Bible believers who promote it look foolish.

Flat Earth Theory Totally Trashed

Flat earth is cognitive infiltration to marginalize Bible-believing Christians!

A Conversation with a Flat-Earther

Brother J, do you believe the earth is flat? Some of my friends do. What is your view on it?

Yes I think it's flat

May I ask why you think so?

Mathematically, scientifically, conspiratorially, and biblically. You can pick any one lol

I was raised in the Midwest USA. Please explain why I cannot see the Rocky Mountains with a telescope from a harvested cornfield in the fall.

Because there is still height and depth to the earth.

Yes, there is indeed height and depth. The Rocky Mountains are higher than northern Illinois where I was raised. Why do I not see anything higher than a mole hill from a harvested cornfield? I saw mountains to both east and west from Sacramento California when I was stationed there while serving in the USAF.

YouTube the Bedford level experiment

Giving me a YouTube is not a valid answer IMO. Unless you can explain to me in your own words the answer to my question, it means to me you are not really sure. We are not talking rocket science. We are talking about science an amateur with an elementary school education can validate.

Actually it's best explained by a demonstration but fair enough. It's the fact that you can't look beyond your vantage point. You can't keep scrolling through a telescope to nothing.

Vantage point means the horizon, correct?

Yep

If the earth is flat, the distance to the horizon would be infinity, correct?

Where do u get that idea

Logic

So your saying because your not high enough to see the other side your vantage point is infinite? Dude it's like that on a ball also lol

Yep, that's correct.

Okay. So when you go up in space, you can see distant galaxies from your vantage point

You don't need to go up in space to see distant galaxies. You can see them from earth.

*Oh? Your positive that's what you see
Have you read the book of Enoch
Actually Deuteronomy
Your looking at the host of heaven*

Right about Deuteronomy.

Do you know how many Jesuits proposed the earth was a ball?

I reject the book of Enoch as God's Word. And just because Jesuits said the earth is a ball doesn't make it false. Is EVERYTHING Satan says a lie? Read the first couple chapters of the book of Job. He does say truth from time to time.

Where's the curvature of the earth

Even yet, where is the scripture that points to the earth being a ball or spinning

So why does the Bible say 3 times the earth doest move? Why did Joshua command the sun to stop spinning and not the earth?

Genesis 1:1-5 In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. And God said, Let there be light: and there was light. And God saw the light, that it was good: and God divided the light from the darkness. And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

The way I see it is God, "in the beginning" not only created matter and light on the first day, He created time as well. Is 24 hours dependent on the existence of the sun to be 24 hours? Or is 24 hours dependent on one rotation of the earth? According to my understanding of time and physics, the latter is true. Therefore even without a sun there were 24 hour days because of the rotation of the earth!

Genesis 1:4 And God saw the light, that it was good: and God divided the light from the darkness.

Suddenly verse 4 makes more sense to me than ever! If the sun didn't exist till day 4, how could God divide the light from the darkness? Answer: God Himself was the light source over a rotating earth!

God can override His Laws of physics when He wants to.

That makes no sense. He created light. It says nothing about rotating. Your adding to what it says.

What is one day?

God was the light source. Not a rotating earth.

24 hours

Day is light dude. Jesus says it's 12 hours

Night is night.

Answer why did Joshua command the sun to stop moving?

Twenty four hours is one rotation of the earth, PERIOD!!!

Lol what was it rotating around then?

God?

Movement is relative

Lol!

The earth is set on pillars! It doesn't move!

All scripture is for doctrine

Man cannot move it for sure

And it doesn't move!

Show me the pillars

Fear before him, all the earth: the world also shall be stable, that it be not moved.

1 Chronicles 16:30

Say among the heathen that the Lord reigneth: the world also shall be established that it shall not be moved: he shall judge the people righteously.

Psalms 96:10

He raiseth up the poor out of the dust, and lifteth up the beggar from the dunghill, to set them among princes, and to make them inherit the throne of glory: for the pillars of the earth are the Lord's, and he hath set the world upon them.

1 Samuel 2:8

*Better check the Hebrew on that one. Cause it's the same word for the pillars
samsom tore down
which shaketh the earth out of her place, and the pillars thereof tremble;*

Job 9:6

The earth and all the inhabitants thereof are dissolved: I bear up the pillars of it. Selah.

Psalms 75:3

*Scripture says clearly the earth doesn't move, is set on pillars, has foundations, has ends (28 times) and you get a ball out of that?
Take heed that no man deceive you. You don't think it's strange every
"astronaut" was a free Mason? NASA is the fruit of operation paperclip?
Heliocentricity is a Jesuit doctrine? Come on man wake up. You can't see any curvature of the earth anywhere! People claim they can from a plane then you show weather balloons that read 127,000 ft and they say well the earth is too big?*

Do use GPS navigation? Better not or that would make you hypocritical. GPS cannot work without satellites. A satellite has to keep moving to stay in space. If you say there is no space, no satellites and no gravity, I would say there is no sanity in your mind. It's extreme denial to say I am not giving you physics that an elementary school kid can understand and it's extreme hypocrisy to deny science and yet use technology which science produced to preach lies about flat earth!!!! It's a lie probably from NASA to divide the Truth Movement. Yes, I do believe NASA lied about the moon walk. No, I do not believe they lie about satellites. The moon is a satellite!

GPS cannot work? Right. Have you ever considered how your position can be triangulated by cell towers? Radio towers? I'm not going any further until

you address the scriptures presented.

Does GPS work over the ocean far from those towers? It does.

Does the Bible use figurative language? Plenty. Sun moon and stars falling is a collapse of governments. **There is NO Bible teacher I respect that teaches flat earth.** That is *your* private interpretation. My Bible tells me private interpretations are a no no.

My scientist friend who is a born again Christian who believes a literal 6 days of Creation and exposes Big Bang and Evolution as pseudo science says that GPS works anywhere. He says
Yes. It works over oceans anywhere.

What about satellite phones where there are no Cell towers? They work in deserts.

Besides Cell tower information only can determine which Cell you are in. It can't work for navigation on roads as it is too unprecise.

actually the bible classifies the stars as angels. Just because the bible uses SOME figurative language doesnt mean you can pick and choose what dictates as a figurative language. So what is the figurative language of "ends of the earth" 28 times? Pillars? not moving? encased in a firmament that means VAULT. I hope you realize in doing so, your giving me your interpretation of what the bible means."scientist" really? do you pay any attention to what science is trying to tell us? LOL they claim they are "tackling god" dude, your awake to the jesuits. look it up. its not a conspiracy, its right there. i never said GPS doesnt work, i said prove their are satellites. I really don't care who says what. I care what is found under solid research and questioning.

Thank you for sharing your opinions, brother, but I need some facts before I can believe the earth is flat. I want to know why I can't see land of the State of Michigan from Chicago from Lake Shore Drive looking at Lake Michigan. I can see only a water horizon. I want to know why I can see both the East and West Shore of Lake Michigan from an airplane. I want to know why I cannot see the Chicago skyline from where I was raised in the Chicago city limits 20 miles away. I want to know why I cannot see the tallest mountain, Mt. Fuji from my home or anywhere else in Japan unless I get to a location not much further than 60 miles of it. I want to know how GPS works though you say it doesn't use satellites and satellites don't exist even though they can be seen in a night sky. I want to know why water going down a drain in the Southern Hemisphere spins counter clockwise. I want to know why flying over Alaska is the shortest way from Chicago to Tokyo. I want to know why the higher I go in an airplane the further away the horizon is. Give me facts brother, not theories, opinions or specious arguments.

(Chat Conversation End)

I knew the answer to all my questions above. Only a spherical model of the earth can possibly be the correct answer. So far not a single person who believes the earth is flat has changed his mind. I used the masculine pronoun

his because so far I only know of one lady who has swallowed the flat-earth fallacy. Why is it that mostly men have fallen for flat-earth nonsense?
