

Japan's Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as 'Evil Practices of Science'

Solid science from a noted Japanese doctor and scientist that COVID-19 vaccines have injured people to the point of causing their deaths.

What is "Fukushima"?

福島

fuku shima

It's been my observation that most people who have never been to Japan seem to think of Fukushima as an uninhabitable nuclear wasteland. My Facebook friends are surprised when on some of my posts I wrote that I traveled through Fukushima on my way back home to Niigata. "Why did you go there?" they ask.

Mass media reporters have abbreviated the damaged Fukushima Daiichi Nuclear Power Plant to a single word, "Fukushima." Therefore when non-Japanese people hear this word, they automatically think of the nuclear catastrophe in Japan. This is *not* how Japanese think when they hear the name of Fukushima.

Japan divided into Prefectures.

Japan is divided into 47 administrative areas which are called *prefectures*.

Fukushima Prefecture is the area of #7. I live right next to it in area #15, Niigata Prefecture. Because I often travel to Aomori Prefecture, (#2 on the map), if I take the Tohoku Expressway, the route back home to Niigata runs through Fukushima Prefecture. Nobody hesitates for fear of radiation to drive through Fukushima Prefecture.

Here we can see an enlarged map of area #7 that shows Fukushima Prefecture. The damaged nuclear reactor is in a town called Futaba, the area with the red circle drawn around it. The nuclear reactor is right on the Pacific coast. It is mainly the area of Futaba and parts of the areas immediately next to it which are in the no-go zone! People are living everywhere else in Fukushima Prefecture. Rice is again being planted and harvested in areas not close to the damaged nuclear power plant. You can see that Fukushima Prefecture is a large area and the area infected with radiation is relatively small in comparison.

There is also Fukushima City, the largest city in Fukushima Prefecture. So when I tell a Japanese person I passed through Fukushima, he or she understands that I passed through Fukushima Prefecture unless I specified it was Fukushima City. Nobody, I mean *nobody* would think I meant the Futaba area, the town of the nuclear power plant!

The word prefecture is defined on <http://dictionary.reference.com/browse/prefecture> as

noun

1.

the office, jurisdiction, territory, or official residence of a prefect.

The only other countries that use the word prefecture to divide their country into administrative areas are *Roman Catholic nations* such as France and Italy!

Japan was divided into 47 prefectures by the Meiji government in July 1871. The Japanese period of *Meiji* (September 8, 1868 through July 30, 1912) was when Japan was forced to open itself to the West. Interestingly, the Japanese word "Meiji" is composed of two Chinese ideographs meaning "enlightened rule". Was it because of the influence of the Illuminati (AKA Jesuit order)?

Why did Japan close itself off in the first place? To protect itself from Jesuit influence! The Tokugawa government (the period between 1603 and 1868) in the 17th century with the advice of English Protestant William Adams kicked out all the Roman Catholic **JESUIT** missionaries from Japan. William Adams warned the leader of the government, Tokugawa Ieyasu, that the real purpose of the Jesuit missionaries was not to spread the true faith of Christ to the Japanese, but to colonize Japan for Rome! During the period Japan

isolated itself from the West, it's interesting to note there was still some trade with England and the Netherlands – both *Protestant* countries. You see it was really only Roman Catholic countries, and specifically Portugal, Spain, France and Italy that the Tokugawa government feared. It was the USA which forced Japan to open itself up again to the West. America has been under the influence of the Roman Catholic Church from its very beginning! See [Washington in the Lap of Rome](#).

The Jesuits and Roman Catholic missionaries were expelled from Japan in the 17th century, but they returned in the 19th century during the time of Meiji (Illuminati / Jesuit rule). It's my conclusion, therefore, dividing Japan into administrative areas called "prefecture" may denote Japan returning back under the control of **Rome**! And by "Rome" I am referring to the Vatican and the Roman Catholic Church. The word prefecture comes from Latin, the language of the Roman Empire!

By the way, here is Fukushima in Chinese ideographs.

It literally means "fortune island"

[Fushishima Nuclear Power Plant Disaster and the Media: Distortions, hype and pure lies!](#)

I still hear a lot of fear-mongering about the Fukushima nuclear accident. Some call it "worse than Chernobyl". I find no logic in that statement at all. Two and a half years later and yet **not a single Fukushima power plant worker has died** or is even sick!

Examples of fear-mongering media manipulation headlines:

- Worse than Chernobyl: The inner threat of Fukushima crisis
- Nuclear disaster: Radiation levels at Fukushima would now be fatal within hours

- West Coast of North America to Be Hit Hard by Fukushima Radiation
- Fukushima Radiation Release Equivalent To 1,000 A-Bombs
- Fukushima leak is 'much worse than we were led to believe'

Folks, I live in Niigata Prefecture which is the neighboring prefecture to Fukushima. If people were dying or getting sick from nuclear radiation in Fukushima, I would hear the locals talk about it. Nobody is. See [Japan's radiation disaster toll: none dead, none sick](#)

Fukushima Radiation Reports Overblown

The fear mongers of the threat of radiation from the nuclear power plant meltdown were all wrong! Life goes on in Japan as it always had.

Joyce Riley of the Power Hour radio show: Hype, fear-mongering, disinformation and plain lies

Joyce Riley

A dear lady friend in the USA urged me to listen to hours 2 and 3 of the March 27, 2012 Power Hour radio show broadcast hosted by Joyce Riley. She was afraid that I and my family were in **extreme and imminent danger** due to **nuclear radiation** contamination. She knows I live in an area that is neighbor to Fukushima Prefecture, Japan. After listening to what Joyce Riley and her callers were saying, I understood my friend's concern! Click on the audio arrow to hear 1 minute and 45 seconds of the Power Hour, hour 3 of March 27th.

[Joyce-Riley-The-Power-Hour-03-27-12-Hr-3](#)

If Joyce Riley were saying those things *last year March 2011* immediately after the Great East Japan Earthquake, I might think she was giving accurate information. But I think for her to make such claims *now* is nothing but pure lies and fear-mongering!

I knew I could disprove at least one of her statements immediately. I called a friend who lives near Misawa AFB in Aomori Prefecture. He has close contacts with military personnel on the base. He reports *no recent* increase of military personnel sending their dependants back to the USA! I visited Misawa city last year and months after the nuclear disaster in Fukushima. I saw little American kids with their parents at the Misawa city MacDonalds. Those children were of course dependants of US Air Force personnel stationed at the near by Misawa Air Base.

May 7 update:

Hirosaki Park May 5th, 2012. Misawa USAF personnel with dependents

The photo shows a man and his wife, their 3 children, and their 2 friends standing to the right and the left. The location of the photo is Hirosaki Park, Hirosaki City in Aomori Prefecture. The 3 men are USAF personnel from Misawa Air Force base in Aomori Prefecture. The lady and the 3 children are the dependents of one of the men, obviously the man holding the baby. This is positive visual proof for you that Joyce Riley was lying!!

When walking through Hirosaki Park last Saturday I saw *many* USAF people. I knew they were USAF because I was one of them at one time, and they were all young with short hair. The people in the photo confirmed to me that they are indeed from Misawa AFB and confirmed that there is **no recent sudden repatriation of US military dependents in Japan.**

Misawa is far more likely to get hit by radiation than my area of Niigata is because it is located northeast of Fukushima while I live west of Fukushima with a mountain range between me and the nuclear reactors. Also, wind blows from the west to the east in this part of Japan. There are no mountains to block radiation coming to Misawa from Fukushima. No repatriation of dependents means the USAF doesn't consider radiation a threat at this time.

The claim about chaos and overly congested Japanese airports is also false. A young man I know flew from Tokyo International Airport (Narita) just a few days ago. He had no difficulty in getting and boarding a flight.

Moreover, if you are reading this 45 days from March 27, sometime past the middle of May 2012, and you haven't been hearing of nuclear radioactive contamination to the point of massive evacuations from Japan and people dying by the scores, you can be absolutely certain that Joyce Riley's program has no credibility whatsoever!

I smelled a rat as soon as I learned that the Power Hour is hosted on the **Genesis Communications Network (GCN)**, so called "alternative media" that also hosts [Alex Jones](#). GCN is affiliated with mainstream media **ABC** and ABC is owned by the *Walt Disney Company*! Whenever I think of ABC and especially Disney, I think of mind control, MK-ULTRA and disinformation. If you have a steady diet of either mainstream media or the compromised big name alternative media, and think you think for yourself and form your own opinions, think again. Those opinions were in all probability *given to you*.

[Attempt to hitchhike to the Fukushima Pacific coastline](#)

An attempt to visit the damaged nuclear power plants in Fukushima, Japan.

[Fukushima Fear Mongers Exposed](#)

Over the past few weeks well meaning relatives and friends have sent me articles on how to prepare for the radiation from the Fukushima power plant meltdown. Some people have sent me web articles with statements from “scientists” such as Leuren Moret, full of gloom and doom calling the meltdown, “tectonic nuclear warfare” against the USA! This is **total nonsense**, hype, fear mongering, and *disinformation*. I wonder whose payroll she is on?

For the record, I never once doubted that the Japanese are more than capable of handling the nuclear power plant disaster. I am proud to live in Japan among the most wonderful people in the world. They behaved so well in the face of disaster. They are clean, decent and for the most part, honest people. You cannot deceive an honest people for long, and the Japanese government is well aware of that. Many people have their own Geiger counters, and they report that radiation levels in all populated areas are well below the danger level.

Related external link: [Fukushima panic breaks completely free of the facts!](#)

One reason why the Japanese people have such low crime, and are so honest and hardworking is because the Japanese culture was heavily influenced by New Testament teachings over 1500 years ago. This knowledge was lost when all historical records in a certain place were burned in a fire. For more information about the hidden Biblical roots of Japanese culture, please see:
