

Climate Change & The New World Order

The UN and Vatican are pushing the climate change scam to help bring about their new world order of global governance – no more God-given rights, only government “privileges.”

Fukushima Radiation Reports Overblown

The fear mongers of the threat of radiation from the nuclear power plant meltdown were all wrong! Life goes on in Japan as it always had.

Joyce Riley of the Power Hour radio show: Hype, fear-mongering, disinformation and plain lies

Joyce Riley

A dear lady friend in the USA urged me to listen to hours 2 and 3 of the March 27, 2012 Power Hour radio show broadcast hosted by Joyce Riley. She was afraid that I and my family were in **extreme and imminent danger** due to **nuclear radiation** contamination. She knows I live in an area that is neighbor to Fukushima Prefecture, Japan. After listening to what Joyce Riley and her callers were saying, I understood my friend's concern! Click on the audio arrow to hear 1 minute and 45 seconds of the Power Hour, hour 3 of March 27th.

[Joyce-Riley-The-Power-Hour-03-27-12-Hr-3](#)

If Joyce Riley were saying those things *last year March 2011* immediately after the Great East Japan Earthquake, I might think she was giving accurate information. But I think for her to make such claims *now* is nothing but pure lies and fear-mongering!

I knew I could disprove at least one of her statements immediately. I called a friend who lives near Misawa AFB in Aomori Prefecture. He has close contacts with military personnel on the base. He reports *no recent* increase of military personnel sending their dependants back to the USA! I visited Misawa city last year and months after the nuclear disaster in Fukushima. I saw little American kids with their parents at the Misawa city MacDonalds. Those children were of course dependants of US Air Force personnel stationed at the near by Misawa Air Base.

May 7 update:

Hirosaki Park May 5th, 2012. Misawa USAF personnel with dependents

The photo shows a man and his wife, their 3 children, and their 2 friends standing to the right and the left. The location of the photo is Hirosaki Park, Hirosaki City in Aomori Prefecture. The 3 men are USAF personnel from Misawa Air Force base in Aomori Prefecture. The lady and the 3 children are the dependents of one of the men, obviously the man holding the baby. This is positive visual proof for you that Joyce Riley was lying!!

When walking through Hirosaki Park last Saturday I saw *many* USAF people. I knew they were USAF because I was one of them at one time, and they were all young with short hair. The people in the photo confirmed to me that they are indeed from Misawa AFB and confirmed that there is **no recent sudden repatriation of US military dependents in Japan.**

Misawa is far more likely to get hit by radiation than my area of Niigata is because it is located northeast of Fukushima while I live west of Fukushima with a mountain range between me and the nuclear reactors. Also, wind blows from the west to the east in this part of Japan. There are no mountains to block radiation coming to Misawa from Fukushima. No repatriation of dependents means the USAF doesn't consider radiation a threat at this time.

The claim about chaos and overly congested Japanese airports is also false. A young man I know flew from Tokyo International Airport (Narita) just a few days ago. He had no difficulty in getting and boarding a flight.

Moreover, if you are reading this 45 days from March 27, sometime past the middle of May 2012, and you haven't been hearing of nuclear radioactive contamination to the point of massive evacuations from Japan and people dying by the scores, you can be absolutely certain that Joyce Riley's program has no credibility whatsoever!

I smelled a rat as soon as I learned that the Power Hour is hosted on the **Genesis Communications Network (GCN)**, so called "alternative media" that also hosts [Alex Jones](#). GCN is affiliated with mainstream media **ABC** and ABC is owned by the *Walt Disney Company*! Whenever I think of ABC and especially Disney, I think of mind control, MK-ULTRA and disinformation. If you have a steady diet of either mainstream media or the compromised big name alternative media, and think you think for yourself and form your own opinions, think again. Those opinions were in all probability *given to you*.

[Fukushima Fear Mongers Exposed](#)

Over the past few weeks well meaning relatives and friends have sent me articles on how to prepare for the radiation from the Fukushima power plant meltdown. Some people have sent me web articles with statements from “scientists” such as Leuren Moret, full of gloom and doom calling the meltdown, “tectonic nuclear warfare” against the USA! This is **total nonsense**, hype, fear mongering, and *disinformation*. I wonder whose payroll she is on?

For the record, I never once doubted that the Japanese are more than capable of handling the nuclear power plant disaster. I am proud to live in Japan among the most wonderful people in the world. They behaved so well in the face of disaster. They are clean, decent and for the most part, honest people. You cannot deceive an honest people for long, and the Japanese government is well aware of that. Many people have their own Geiger counters, and they report that radiation levels in all populated areas are well below the danger level.

One reason why the Japanese people have such low crime, and are so honest and hardworking is because the Japanese culture was heavily influenced by New Testament teachings over 1500 years ago. This knowledge was lost when all historical records in a certain place were burned in a fire. For more information about the hidden Biblical roots of Japanese culture, please see:

Message from an acquaintance of the people who are fighting the radiation leak in the crippled nuclear power plant in Fukushima

I received the following email from a friend about the situation of the nuclear power-plant in Fukushima.

Dear everyone,

I have an urgent request for prayer. Right now there are people who are giving their all to save our country, its people, and you and your family at the risk of their lives at Fukushima atomic power plant. Please pray for the success of their work.

The Soldiers of Special chemical troop of Defense army (those who are working at the plant now) are volunteers who are above 55years old, who believe that their responsibility to their families (raising their children) is nearly over. They have volunteered to do this work. There are 50 such volunteers.

This is an excerpt from an article in JIji-tsushin□

Tokyo Electric Company has asked different cooperative firms for help of volunteers who would be a suicide squad to do the technical work inside of atomic power house.

One of the volunteers who has been working at an atomic power plant in West Japan for 40 years volunteered saying he would have only one year till his retirement and his children are grown up now.

His family couldn't dissuade him. He is quiet but firm in his determination that such a difficult job should be done by veterans like him. His daughter said this is a side of her father that she has never seen before.

The next day, 20 more volunteers left their homes for this mission as if it

was a usual morning of going to work.

Working under such conditions at atomic power plant, it is usual to be exposed to radiation. The allowed amount of contamination during such work is limited by the government to 100msv.

But this number was changed from 100msv to 250 msv because those volunteers have requested to lift the limit so that they would have enough time to do their work. So they were prepared to risk high doses of radiation.

The peace that we still enjoy now is due to their sacrifice....

Please everyone, pray!

Please pray that the mission can be completed.

Please pray that the future missions awaiting will be successful.

Pray for the safety of these workers.

Please tell all of your friends, family members, and as many people as possible

Ask them to join us in prayer for this.
