

Japan's Most Senior Oncologist, Prof. Fukushima Condemns mRNA Vaccines as 'Evil Practices of Science'

Solid science from a noted Japanese doctor and scientist that COVID-19 vaccines have injured people to the point of causing their deaths.

Japanese Doctors Warn About the Side Effects of the COVID-19 Vaccines

This is a transcript of a press conference called by Japanese physicians. Throughout the decades when I lived in Japan, it's been my observation that most Japanese are honest people and are not easily deceived by the media. When they encounter difficulties, they'll do an honest investigation of the problem and won't be easily swayed by others.

We are the General Incorporated Association of the Vaccine Injuries Study Group. We now have this press conference to report on the results of our study since its establishment. My name is Takeguchi, and I will be moderating the conference.

First of all, I would like to take this opportunity to express my condolences to those who have passed away due to health issues after receiving the

COVID-19 vaccine. Furthermore, I extend my best wishes to those who have suffered health issues and those who are currently struggling with symptoms.

(Next speaker)

A systematic review of the literature has revealed some surprising facts. Thousands of papers have reported side effects after vaccination, which affect every organ without exception, ranging from ophthalmology (the diagnosis and treatment of eye disorders) to general medicine, to psychiatry. We have compiled this information into a paper that was published yesterday.

These documents have been preliminarily investigated by a group of volunteer physicians. They saw how many cases have been reported by Japanese academic societies. This kind of reporting on drug side effects or the like is unprecedented.

As my specialty is cancer, chemotherapy drugs are plagued with side effects, but the patterns are known and predetermined. The patterns of side effects caused by this (COVID-19) vaccine are not determined. They can occur throughout the body. Multiple diseases can occur simultaneously. Doctors have never seen such a thing. This is the candid opinion of the medical profession.

Japanese doctors are also trying hard, but they face various obstructions. There's this sentiment of 'Why report something like vaccine damage?' There are interferences in reporting. Such actions themselves hinder academic freedom, and in some academic departments, censorship is taking place such as in conference presentations and publications of academic papers. This is happening globally. Some journals are effectively practicing censorship.

We are working on a paper that is expected to be published soon. Once published, we will be able to report in detail. For example, the age-adjusted mortality rate for leukemia has increased, and there are significant findings of breast cancer, ovarian cancer, and so on. We will share the relevant information with everyone as we advise and request the government on how to proceed.

Next, Prof. Yasufumi Murakami, the director in charge of the testing method development working group, will explain the progress of the test development and future outlook.

Prof. Yasufumi Murakami: Thank you, everyone. One thing I want to say initially is that it is clear how the adverse effects occur, which is still having many victims today. **I believe the vaccine should be stopped immediately.**

The mechanism by which adverse effects occur is well understood; **the spike [protein] is toxic.** It's very clear what happens when you administer a toxic gene to a human. Another point is that the Lipid nanoparticles, they are also toxic.

The major problem is that we are injecting two toxic substances into people, one of which is that human cells are producing spike proteins. Since the

immune system will attack this, it causes very violent reactions. Some cases occur within one or two weeks after injection, but there are also many cases that appear after one or two years.

Additionally, there is indeed such a thing as good and bad antibodies in humans, and an antibody called IgG4 actually suppresses immunity. Usually with vaccines, if an IgG4 antibody is induced, it is considered a failure. However, with the current messenger-type vaccines, a significant amount of IgG4 is being induced. When this happens, it plays tricks on various immune functions. Therefore, we want to thoroughly investigate what ratio of Japanese people are experiencing this. We aim to carefully examine what level of IgG4 reacts with the spike protein that is present in each individual.

Of course, the problem is, we already understand these factors. Vaccines that have failed are still being administered, and the Ministry of Health, Labour and Welfare recognizes these failed vaccines. So I would like to stop them immediately, but even though I speak out against the vaccine in various places, they don't stop administering them at all. So we will clearly present evidence and publish it in articles one by one.

New speaker: So, we are working with Dr. Fukushima to create this database, and so far, about 201 types of diseases and 3,071 papers on side effects have been reported. **It is unprecedented in human history for a single vaccine to have this much literature out on it.** With this, we plan to present it to the nation and the Japanese government in the form of solid science that no one can dispute.

In the next slide you will find diseases of the heart, kidney, thyroid, diabetes, liver, skin, eyes, blood, nerves, systemic diseases, brain, and lungs, diseases across all medical fields have been reported as Prof. Fukushima states. The characteristic of the side effects of this vaccine is that they occur simultaneously within entire families.

As for the data, when diseases such as those of the heart, kidney, endocrine, and liver occur simultaneously with the range in which they occur, a tremendous number of papers are reported with many pages.

New speaker: Mental disorders, psychiatric symptoms, depression, mania, and anxiety, came up in abundance. It's endless. It's about understanding why this is happening. That's why, actually, with broader keywords, for example, not just COVID-19 vaccines but also SARS-CoV-2, messenger RNA vaccines, and the like, when you separate it out into various keywords, more and more results come up. So this is just a part of it. Even with what Dr. Inoue introduced earlier, it's just a part of what has been done with the PubMed database. There are things that won't be caught by PubMed. So like "Creutzfeldt-Jakob disease (CJD)", it's not caught, next slide.

However, there are such peer-reviewed papers out there from Dr. Montagnier who discovered HIV and received the Nobel Prize. It's a persuasive paper. But it disappeared. He was cautious from the beginning.

About the spike protein sequence, within the genes, you know, he was warning

that if there's a prion-like (pathogenic type of misfolded protein) sequence, it could be very dangerous. Many scientists were warning about it. I too said it could be hazardous because of the possibility of prions. I discussed it with prion experts.

So, if you inject the vaccine into the muscle, it will be taken up by the surrounding cells. People who know nothing about medicine and biology don't think about such specific things, which is why they say it's an mRNA vaccine. However, if you know biology and medicine, such specific things don't happen. That is what we call off-target. Out of control beyond the target. It doesn't know where to go. If it goes into the bloodstream, it goes to the brain, liver, and kidneys. What if it went everywhere? That's something people don't think about. This off-target problem hasn't been solved.

And even if that is solved, there are still many problems. Because these nanoparticles, which were inflammatory earlier, are environmental issues, especially plastic nanoparticles, which are the world's number one problem. They enter the brain. However, those who don't know anything say, "It's plastic, so it won't be digested, so it's okay to eat." They pretend to know, but it doesn't get digested. The person has no idea how toxic organic substances are attached to the surface of those plastic nanoparticles. So, with fragments of such knowledge, they exaggerate things and think they can go with this. They say, "I know! This is good!" So, honestly, they need to go back and redo from middle school biology to high school and university entrance exams.

As I mentioned earlier, medicine is still immature. Basically, we don't understand much about the principles of life. Now, this kind of thing has happened, so, turning adversity into fortune, we should learn again here what happens instead of saying, "Go for it, go for it" with the vaccines. Well, it's like, ignorance is bliss. That's what this world is about. **Taking vaccines has become a kind of faith. Vaccines centers, they're like a weird cult. They're now basically fallen into an infinite hell.**

Simply thinking that things can be understood with fragments of knowledge is a mistake.

Transcription of OAN Report

Cameras from around the world are capturing footage of people collapsing in spasms, and what some people believe may be the latest symptom of Covid-19 vaccines. Here's One America News Pearson Sharp with more:

One America News has extensively covered the dangers of the experimental chemical injections the government is calling the Covid vaccine. From heart attacks and strokes to paralysis, neuropathy, and explosive increase in cancer, autoimmune diseases, and even sudden death with young healthy people in the prime of their lives simply falling down dead. The list of fatal side effects from these injections is truly stupefying. While now there are videos emerging of a terrifying new condition that's popping up all over the world.

What you're looking at now is footage from security cameras that shows people suffering from the effects of some mysterious attack on their bodies. In every case, it follows the same pattern. The affected person stops what they're doing and looks around as if they hear something, slowly turning their head. Then they start flailing their arms and legs, kicking and trashing like they're fending off some invisible attacker. This is followed by collapsing on the ground in a convulsion, rising and twisting in uncontrollable spasms. The incidents of this bizarre and frightening new malady have come out of nowhere, and now it's being captured by CCTVS around the world.

Now to be fair, it's not clear if this vaccine death spiral is linked to the TCP (?) injections. But when you consider the alarming number of other gruesome side effects from this vaccine, it's not hard to believe. As far as we can tell this has never been witnessed before. And if that's the case, then we have to consider what could be responsible.

Now let's think: What's the biggest new variable the world has seen in the last two years? Well, if you're not a brain-dead member of the Branch Covidien Fauci Cult, then the answer is simple. Nearly 70% of the world has submitted to the Covid injections. That's 5.3 billion people whose bodies are struggling to adapt to overcome the so-called vaccine toxic effects. And now we're seeing the results firsthand.

Peer-reviewed studies show a staggering 94% of covid injection recipients have abnormal blood, blood that no longer functions normally. This is a picture of what normal unvaccinated blood looks like at 40 times magnification, and was taken by doctors in Italy studying the blood of patients injected with the Pfizer and Moderna vaccines. Now here we have the same patients just one month after getting the Pfizer injection. You can clearly see the blood has been drastically altered! With researchers saying the vast majority of patients they studied suffered severe blood cell deformation after taking the vaccine. The researchers say metallic objects that resembled graphene oxide and other compounds like you see here or discovered floating in the blood. The scientists said they found extraordinarily anomalous substances in the blood which began forming gigantic foreign structures. The researchers concluded by saying **these results have never been observed before in any vaccines ever**, and that Pfizer and Moderna need to come clean about exactly what they're putting in the vaccines.

They added that the substances in the vaccines are incompatible with normal blood flow. Those gigantic foreign structures seen under the microscope are wreaking havoc on the human body. And now **coroners and embalmers around the**

country are discovering horrifying clots inside people's bodies! What you're looking at are the mysterious clots that are suddenly appearing in vaccinated people who later died. And medical experts say this is totally new, they've never seen anything like it until last year. (2021)

Lab tests show the clots are made from something other than human blood. And embalmers says they're showing up in otherwise healthy people who suddenly died from heart attacks or strokes. And when they were examined, their veins and arteries were completely clogged with these strange rubbery fibers that can be several feet long.

Even the young and healthy can be affected, like a teenage athlete in Ohio who suffered from a sudden pain in his legs and back and was rushed to the emergency room where doctors removed a mysterious 6-foot-long clot from his legs! After finding massive clots it's not surprising the FDA is withholding autopsy results of people who died after doing the Fauci vaccines. That's right, the FDA is actually refusing to release autopsy results of victims who received the experimental covid vaccine! They don't want anyone seeing just how grizzly the results are.

Considering this is the crap that's floating around in the blood of everyone that got the Fauci injection, it's no surprise that life expectancy in the US is plummeting at the fastest rate in history. In fact from 2020 to 2021 life expectancy in the US fell by nearly three years, meaning that **people are dying prematurely at 35 times the rate they were before the vaccines were introduced**. But these mysterious deaths all have one thing in common, one common denominator: Every one of them received the new experimental vaccine.

At some point, those responsible must be held accountable: The pharmaceutical giants who made these drugs, the media who pushed their propaganda, and the elected officials in Washington who made it illegal to refuse them. Until then, we the people who trusted those officials can only look on in horror and disbelief at the carnage being inflicted by the murderers we thought would save us.

For the record, my wife and I never trusted what the government had to say about the Covid vaccine and we remain unvaccinated. Thanks be to our God and our Savior the Lord Jesus Christ!

I find it useful to transcribe from videos information that I consider important. Videos are often taken down, but the text from them will remain on this website as long as I am still on earth.

This article is one of the best explanations of Satan's biological attack on humanity I have read to date. It's very clear and concise, and the author uses Scripture! I hope you appreciate it as much as I do.

The video is below the text. The Internet may someday not be available, but if you print out the text you will always have a hardcopy to share with others.

Many thanks to my dear Canadian friend Shirley who sent this to me!

Transcription of Divine Image Destroyed – By Christine Beadsworth

The human cell is created with a nucleus wall to protect the scroll of DNA within its nucleus. Just like a wall is built around the palace to protect the rule of a nation, these very important unique documents are books or DNA scrolls are guarded from marauders. Nothing is allowed to breach that war, and only trusted messengers are permitted to enter or leave that hallowed place.

From within the nucleus, orders are issued by the DNA and carried by the messenger RNA through the nucleus wall to the Golgi apparatus, which is a factory making proteins to build and strengthen the body. No other substance can pass through that nucleus wall except human mRNA. It is considered trustworthy to carry and deliver the messages issued.

I once heard an applied virologist describe mRNA or messenger RNA like a shopping trolley. You can load whatever you want in it and it will transport it to the intended destination. Now this works well when the human body is not interfered with. We are fearfully and wonderfully made. Messenger RNA faithfully carries the instructions issued by the unique DNA dwelling in the nucleus citadel.

Psalms 139 Verse 14 – 16 says,

I will praise you for I am fearfully and wonderfully made. Your

works are marvelous, and my soul knows it very well. My bones were not hidden from you. When I was made in secret and skillfully formed in the lowest parts of the earth. Your eyes saw my unformed substance and in your book [or scroll] all the days [of my life] were written [engraved] before ever they took shape, when as yet they were none of them.

Now did you know that every single strand of human DNA is marked with the name of God? How you ask? Because there are sulfide bonds holding together the two strands that make up the DNA. And these bonds occur after the 10th pair of nucleotides again after the fifth pair, and then six pairs later and again five pairs later. The tenth letter of the Hebrew alphabet is YOD. The fifth letter is HE, the sixth letter is VAU. YOD HE VAU HE spells Yahweh.

I will say it again. God's name is on every human chromosome. You are made in His image and sealed with the name of your Creator. Every cell in your body is hallmarked. And it is this very divine hormone that the enemy desires to obliterate. By injecting loaded messenger RNA into cells, one can sneak fragments of foreign enemy DNA through the carefully guarded nuclear walls and unload their contents into the scroll of DNA that God wrote for you. That's like pasting some pages of a counterfeit author's book into the middle of the instruction blueprint God wrote.

What is actually happening is that the name of God written into the sulfide bond arrangement in the DNA scroll is being erased. The beautiful scroll engraved by God to create a man in his image is being sabotaged. And from that moment of splicing onward, instead of instructions being released from the palace for life and health and security of the body, inserted DNA loads up the messenger RNA trolly with instructions for the protein factory in the cell outside the palace to start manufacturing enemy spike proteins. The protein factory just does what is told, whatever orders arrived from headquarters are immediately carried out. To put it simply, once the potion is injected into the body. Every single citadel guarding the scroll sign the name of the Creator within you is hijacked, and forced to issue instructions to manufacture weapons of death, which will not only kill you at some point, but also the people around you.

It is a cleverly engineered coup on a worldwide scale to throw off the rulership of God over His creation. So who is behind this dastardly plot? What does Psalm two say? In verse two:

The kings of the earth set themselves and the rulers take counsel together against the Lord and against his anointed, saying, Let us break their bands asunder and cast away their cords from us.

The word for band means bond, halter, or restraint. Is it not the carefully placed sulfide bonds that depict Yahweh's Name, which are disrupted and broken asunder by the vaccine contents? The word cord in Hebrew also means entwined, rope, or thick bows. Is the DNA not entwined like a rope? Perhaps

you can now see the plan of the kings of the earth, the elite who are banding together and arraying themselves against the Lord. The plan is to hijack His creation, destroy His image, remove His signature, and transform the human body into a genetically modified part human, part computer, which can be controlled externally. Sounds like science fiction, but tragically, it is the truth. Satan hates all who are made in God's image, every earthen vessel that is intended to become a dwelling place of His Spirit, receiving daily communication from the throne of heaven.

For centuries, he has been content to defile the bodies and souls of men by luring them into sin of every kind. But always his greatest ambition has been to sit in the place intended only for God in the human body. II Thessalonians two verse four says his intention is to sit as God in the temple of God, setting himself forth as if he is God. Many are waiting for the Third Temple to be built so that the antichrist can go and sit in it. But the body of Christ is the Third Temple, a temple not built with hands. And the diabolical deception currently underway, is the first step in the rollout of the plan to install the abomination that causes desolation right within the holy place of the Third Temple. In the holy place, the place with a unique engraved Scroll of your Creator is stored in a walled citadel, the enemy has already lifted up his battle cry.

How apt is the cry of the psalmist in Psalm 74 verse 3 -10 says:

Direct your feet quickly to the perpetual ruins and desolations.
The foe has devastated and desecrated everything in the sanctuary.
In the midst of your holy place, your enemies have ruled with a battle cry. They have set up their own emblems for signs of victory. They seemed like men who lifted up axes upon a thicket of trees to make themselves a record. And then all the carved wood of the holy place they broke down with hatchets and hammers. They have set your sanctuary on fire. They have profaned the dwelling place of your name by casting it to the ground. Oh God, how long is your adversary to scoff and reproach? Is the enemy to blaspheme and revive your name forever? Why do you hold back your hand even your right hand? Draw it out of your bosom and consume them to make an end of them. They have profaned the dwelling place of your name.

There is no better description of what has happened worldwide in the human body than these words. And in every nation, believers are being coerced into taking the supposed health-inducing jab. Is this not causing the great falling away described in II Thessalonians two verse three? The totality of the scheme is to leave the Third Temple desolate, destroyed, overtaken, and subjugated to an ancient enemy, who always coveted God's throne and the worship of God's bride.

Apostasia, the Greek for falling away means defection from truth, and comes from the Strong's G647 which means to separate, the writing of divorcement. How significant that a fragment of DNA writing is what separates or breaks asunder the record of God's name in the human DNA.

Now, obviously, the smuggling in of the death warrant to the guarded throne room involves deception and subterfuge. No one would allow such an intrusion if it was advertised by its true content. The coup is enacted under the guise of a delivery of a basket of wishes for health and happiness. Revelation chapter 18 speaks of the judgment that is incurred by those who carry out this deception. As you read the selected verse, remember that the Greek word translated sorceries is *pharmakeia*, the word from which we get pharmacy or dispenser of medicine.

Revelation 18 Verse 23b:

For your merchants were the great ones of the earth, for by your sorceries all nations were deceived.

So it is pharmaceutical deceptions which are employed to pull the wool over the eyes of all the nations. II Thessalonians two verse 11 says:

A strong delusion is released so that people believe a lie.

The Greek for *delusion* comes from a root word meaning deceiver or imposter. So the recurring theme is deception, which brings distraction.

No surprise that *pharmakeia* also means witchcraft, and comes from a root word meaning drug, or poison. Poison is intended to induce the death of the victim. The Word tells us that the life is in the blood. It is surely no coincidence that the foreign spike proteins, which the human body is forced to produce after it has been hijacked, trigger blood clots, which in turn cause fatal heart attacks and strokes.

It is Satan who seeks to kill, steal and destroy. Jesus came that you may have life and have it abundantly. Satan desires to remove God's image and replace it with his image. Revelation 14 Verse nine tells us that he plans to remove God's name and replace it with his name. Revelation 14 Verse 11. Ask yourself, who else could be behind the erasing of God's name in your DNA scroll? Beloved, God says His people perish for lack of knowledge.

Many pastors and shepherds worldwide are urging their congregations to receive the *pharmakeia* on offer. May the sheep wake up and see the edge of the precipice before they plunge over it. I would urge you to guard and keep your temple holy unto the Lord. Do not allow it to be breached. Cherish His Name encoded into the scroll of life within you, and take refuge under the shadow of His wings. Do not run to Egypt or Babylon for help, do all you can to boost your divinely built immune system naturally, and do not allow yourself to be deceived. Be a lover of truth, seek truth, go after it. II Thessalonians two is clear that it is those who do not love truth, who will fall prey to the strong delusion, wrapping its fingers around the globe. Do not succumb to those who call evil good and scheme to overthrow and render your holy place desolate. You will pay for it with your life. Rather entrust yourself to Him Who is the truth, the life, and the way. Choose life that you

and your children may live.

And I want to end with II Corinthians six verse 16.

What agreement does the temple of God have with idols? For you are the temple of the living God. As God has said, I will dwell in them and walk among them, and I will be their God, and they shall be my people. Therefore come out from among them and be separated says the Lord, and do not touch the unclean thing, and I will receive you, and I will be a father to you, and you shall be my sons and daughters, says the Lord Almighty.

And the (Greek) word for *unclean thing* is *akathartos*, meaning foul, unclean, and demonic.

May God Almighty give you the strength to stand uncompromising in the days which were facing.

[The Pharmaceutical Deception of the Beast](#)

And the light of a candle shall shine no more at all in thee; and the voice of the bridegroom and of the bride shall be heard no more at all in thee: for thy merchants were the great men of the earth; for **by thy sorceries (Greek: φαρμακεία pharmakeia: the use of medicine, drugs or spells) were all nations deceived.** -Revelation 18:23

I found a post about the dangers of vaccinations on Facebook by a lady who

became my Facebook friend in 2017, and for some reason, I have not noticed her posts all this time until yesterday, March 30, 2022! It's so wonderful to meet like-minded people on social media!

Yes, I'm still on Facebook in spite of the censorship. And I have been censored countless times, and even restricted from time to time. I have Gab and Mewe accounts too but nobody on them comments on my posts. Those platforms are ghost towns for me. And if I ditch Facebook, I will lose touch with people I want to stay in touch with.

There are people who discredit Facebook and all social media calling it a privacy issue with a CIA connection, etc. but I just don't care. If the Beast, the anti-Christ Shadow Government doesn't already have more than enough evidence to find me guilty of being a follower of Jesus Christ and a proclaimer of God's Word from the Bible even without me using social media, I would think there's something wrong with me. And what would be reliable sources of information without social media? Foxnews? Newsmax? I don't trust any corporate-funded news source. I think it's much safer to listen to individuals who I think have no monetary reasons to lie to me.

The Facebook post:

The [redacted] deception DID NOT start with the Covid [redacted]
It began with the first [redacted] and medical doctors and Moms of [redacted] injured and DEAD children have been warning the world for decades.

The only thing [redacted] eradicated was good health.

Quotes from Doctors Regarding Vaccination

"The greatest lie ever told is that vaccines are safe and effective." – Dr. Leonard G. Horowitz

"The public is woefully uninformed on vaccine risks due to government and mainstream media censorship." – Dr. Mark Geier, MD

"The chief, if not the sole cause of the monstrous increase in cancer has been vaccination." – Dr. Robert Bell, once Vice President, International Society for Cancer Research at the British Cancer Hospital

"Vaccines are highly dangerous, have never been adequately studied or proven to be effective, and have a poor risk/reward ratio." – Dr. Allen Greenberg, MD

"In my medical career I've treated vaccinated and unvaccinated children and the unvaccinated children are far healthier than the vaccinated ones." – Dr. Philip Incao, MD

"I found the whole vaccine business was indeed a gigantic hoax. Most doctors are convinced that they are useful, but if you look at the proper statistics and study the instances of these diseases you will realize that this is not so." – Dr. Archivides Kalokerinos, MD

"It is dangerously misleading to say that vaccines make us "immune" or protect against disease, when in fact that is the exact opposite of the truth. Vaccines only drive disease deeper and cause us to harbor it chronically." – Dr. Richard Moscovitz, MD

"The vaccinations are not working and they are dangerous. We should be working with nature." – Dr. Lendon Smith, MD

"There is no scientific evidence that vaccinations are of any benefit, but it is clear that they cause a great deal of harm." – Dr. Gerhard Buchwald, MD

"All vaccines are and have been causing ischemic (impaired blood flow) damage – to all – creating a plethora of chronic illnesses, disease, and in some instances, death. The injury from vaccination is additive; each vaccination further injures." – Dr. Andrew Moulden MD, PhD

"When you impair the brain blood flow by vaccination you can impair the respiration control center which can result in death. We call it SIDS." – Dr. Andrew Moulden MD, PhD

"Vaccination is the most dangerous medical practice in the history of classical medicine." – Dr. Sladjana Velkov (Macedonia)

[With vaccination] "what in reality is prevented is not the disease but the ability of our cellular immune system to manifest, to respond to and to overcome the disease! There is no system of the human being, from mind to muscles to immune system, which gets stronger through avoiding challenges, but only through overcoming challenges." – Dr. Philip Incao, MD

"I have lectured all over the world... I have always had a special interest in newspapers. All of them have one thing in common, there is always some reference made to some epidemic in some part of the world. For instance, two years ago, one paper referred to a polio epidemic in Holland. For the past three years, our newspapers have commented on the diphtheria epidemic in Russia. By these means, the population is constantly threatened with epidemics, they have been made to fear them, and the reports always conclude: "Go and get vaccinated." – Dr. Gerhard Buchwald, MD

"To create fear among parents to strengthen their motivation to vaccinate is an important part of the publicity used to promote vaccinations. A whole branch of research is examining the question: What level of fear needs to be created to appear as convincing as possible?" – Dr. Gerhard Buchwald, MD

"In 1866, an English physician described a very strange illness. Children looked like Mongols. His name was Down. That's why we call it Down's Syndrome today... I should add that this syndrome is a result of the vaccinations carried throughout England by Jenner in 1796... It (Down's Syndrome) is probably the first congenital disease caused by vaccinations. In Germany, the first child with evidence of Down's Syndrome was reported in 1922. Today, one in every 700 newborns has it." – Dr. Gerhard Buchwald, MD

"There is insufficient evidence to support routine vaccination of healthy persons of any age." – Dr. Paul Frame, MD, Journal of Family Practice

"Only after realizing that routine immunizations were dangerous did I achieve a substantial drop in infant death rates." – Dr. Archivides Kalokerinos, MD

"I'll talk about vaccines. Number one, vaccines make people sick. They don't work. They don't protect. The use of vaccines is totally wrong! It's perfect nonsense based on fear. They are dangerous. One child out of five has overwhelming disabilities from vaccines – neurological problems, seizures. I've got a whole list. There are plenty of books on this subject. Doctors don't even read about this." -Dr. Guylaine Lanctot, MD

"During those 30 years I have run against so many histories of little children who had never seen a sick day until they were vaccinated and who, in the several years that have followed, have never seen a well day since. I couldn't put my finger on the disease they have. They just weren't strong. Their resistance was gone. They were perfectly well before they were vaccinated. They have never been well since." – Dr. William Howard Hay, MD

"Nobody needs to be confused but everybody better be darn well frightened about taking any vaccine, under any circumstance, for any reason, at any time in their life." – Dr. Daniel H. Duffy Sr., DC (retired air force officer – 21 yrs., family doctor – 28 yrs., vaccination researcher – 49 yrs.)

"I vaccinated both my children with the MMR jab, but this was before I started my research into the problems associated with it. Knowing what I know now, I would not vaccinate my children and run the risk of them getting diabetes, asthma, eczema, becoming more susceptible to meningitis and ending up chronically disabled." – Dr. Jayne Donegan, GP, Homeopath

"Had my mother and father known that the poliovirus vaccines of the 1950s were heavily contaminated with more than 26 monkey viruses, including the cancer virus SV40, I can say with certainty that they would not have allowed their children and themselves to take those vaccines. Both of my parents might not have developed cancers suspected of being vaccine-related, and might even be alive today." – Dr. Howard B. Urnovitz, PhD, CEO, CSO and co-founder of Chronix Biomedical

"Childhood vaccines are giving us a world of chronic illness: autism, developmental disorders, Asperger's Syndrome, brain tumors, leukemia, cancers, information processing disorders, impulsive violence, allergies, asthma, diabetes, Crohn's disease, intestinal disorders, are just some of the vaccine associated disorders." – Dr. Tedd Koren, DC

"I am no longer trying to dig up evidence to prove vaccines cause autism. There is already abundant evidence. This debate is not scientific but is political." Dr. David Ayoub, MD

"There are at least seven laboratory studies, clinical studies, of blood, cerebral, spinal fluid, biopsies of autistic children which show huge differences between autistic children and normal children in terms of the presence of things like measles vaccine virus in their intestinal tract, for example, or their neurons. So, there's one line of evidence. Another, of course, is that we have data from thousands of parents who testify, often

with videotapes and photographs and eyewitness reports, that their kid was perfectly normal. And they can demonstrate it, as I say, very conclusively with tapes, until after the vaccine. The kid retreated into autism. There's just converging evidence from many, many directions." – Dr. Bernard Rimland, PhD, Founder and Former Director of the Autism Research Institute

"When the link between the use of unsafe, mercury-laden vaccine and autism, ADHD, asthma, allergies and diabetes becomes undeniable, mainstream medicine will be sporting a huge, self-inflicted and well-deserved black eye. Then will come the billion-dollar awards, by enraged juries, to the children and their families." – Dr. Bernard Rimland, PhD, founder and former director of the Autism Research Institute

"It is well known that measles is an important development milestone in the life and maturing processes in children. Why would anybody want to stop or delay the maturation processes of children and of their immune systems?" – Dr. Viera Scheibner

"The greatest threat to our health today is the medical community, and one of their most dangerous tools is vaccination – particularly the horrific procedure of injecting foreign protein into newborn infants!" – Dr. Daniel H. Duffy, DC

The greatest threat of childhood diseases lies in the dangerous and ineffectual efforts made to prevent them through mass immunization... There is no convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease." – Dr. Robert Mendelsohn, MD

"We are taught by the authorities that vaccines protect us against eventual aggressive viruses and microbes, and, therefore, prevent contagious illnesses and epidemics. This lie has been perpetuated for 150 years despite the ineffectiveness of vaccines in protecting against illnesses." – Dr. Guylaine Lanctot, MD

"My suspicion, which is shared by others in my profession, is that the nearly 10,000 SIDS deaths that occur in the United States each year are related to one or more of the vaccines that are routinely given children. The pertussis vaccine is the most likely villain, but it could also be one or more of the others." – Dr. Robert Mendelsohn, MD

"Many here voice a silent view that the Salk and Sabin Polio Vaccines, being made from monkey kidney tissue, have been directly responsible for the major increase in leukaemia in this country." – Dr. Fred Klenner, MD

"As a clinician, my current belief which guides my practice with these children is that any child given the Hep B vaccination at birth and subsequent boosters along with DPT has received unacceptable levels of neurotoxin in the form of the ethylmercury in the thimerosal preservative used in the vaccine. In any child with a genetic immune susceptibility (probably about one in six) this sets off a series of events that injure the brain-gut-immune system. By the time they are ready to receive the MMR vaccination, their immune system is so impaired in a great number of these

children that the triple vaccine cannot be handled by the now dysfunctional immune system and they begin their obvious descent into the autistic spectrum disorder.” – Dr. Jaquelyn McCandless, MD

“In 1976 I was working in the Gulf Country around Cape York, in an aboriginal community of about 300 people. The Health Department sent around a team and vaccinated about 100 of them against flu. Six were dead within 24 hours or so and they weren’t all old people, one man being in his early twenties. They threw the bodies in trucks to take to the coast where autopsies were done. It appeared they had died from heart attacks.” – Dr. Archie Kalokerinos, MD

“As a retired physician, I can honestly say that unless you are in a serious accident, your best chance of living to a ripe old age is to avoid doctors and hospitals and learn nutrition, herbal medicine and other forms of natural medicine unless you are fortunate enough to have a naturopathic physician available. Almost all drugs are toxic and are designed only to treat symptoms and not to cure anyone. Vaccines are highly dangerous, have never been adequately studied or proven to be effective, and have a poor risk/reward ratio. Most surgery is unnecessary and most textbooks of medicine are inaccurate and deceptive. Almost every disease is said to be idiopathic (without known cause) or genetic – although this is untrue. In short, our main stream medical system is hopelessly inept and/or corrupt. The treatment of cancer and degenerative diseases is a national scandal. The sooner you learn this, the better off you will be.” – Dr. Alan Greenberg, MD

“According to the records of the Metropolitan Life Insurance Company, from 1911 to 1935 the four leading causes of childhood deaths from infectious diseases in the U.S.A. were diptheria, pertussis, scarlet fever, and measles. However, by 1945 the combined death rates from these causes had declined by 95% before the implementation of mass vaccine programs.” – Dr. Harold Buttram, MD

“I would consider the risks associated with measles vaccination unacceptable even if there were convincing evidence that the vaccine works. There isn’t. ... In 1900 there were 13.3 measles deaths per 100,000 population. By 1955, before the first measles shot, the death rate had declined 97.7 percent to only 0.03 deaths per 100,000.” – Dr. Mendelsohn, MD

“Up to 90% of the total decline in the death rate of children between 1860 and 1965, because of whooping cough, scarlet fever, diptheria, and measles, occurred before the introduction of immunizations and antibiotics.” – Dr Archie Kalokerinos, MD

“For thirty years kids died from smallpox vaccinations even though no longer threatened by the disease.” – Dr. Robert Mendelsohn, MD

“I am and have been for years a confirmed anti-vaccinationist. Anti-vaccination has no backing from the orthodox medical opinion. A medical man who expresses himself against vaccination loses caste. Tremendous pecuniary interests too have grown around vaccination.” – Mahatma Gandhi

“I have no faith in vaccination; I look upon it with the greatest possible

disgust, and firmly believe that it is often the medium of conveying many filthy and loathsome diseases from one child to another, and no protection whatever against smallpox. Indeed, I consider we are now living in the Jennerian epoch for the slaughter of innocents, and the unthinking portion of the adult population.” –Dr. W.J. Collins, MD, BS, BSc, MRCS

“What people don’t know about vaccines –what most doctors don’t know– but well demonstrated in medical literature, is that vaccines shift your immune system to an immune suppression type of state called the “TH2 shift.” That’s what most vaccines do. They shift your immune system to a weaker, antibody type immune system... If you’re injecting people with so many vaccines that your keeping them in this constant state –that now your switching everyone to this TH2 immune suppression– then everyone becomes more susceptible [to infectious diseases]... and no one is talking about that. Now, a lot of scientists know that, but they are afraid to speak out because their careers would be ruined.” – Dr. Russell Blaylock, MD

“Using kids as guinea pigs in potentially harmful vaccine experiments is every parents’ worst nightmare. This actually happened in 1989-1991 when Kaiser Permanente of Southern California and the Centers for Disease Control (CDC) jointly conducted a measles vaccine experiment. Without proper parental disclosure, the Yugoslavian-made “high titre” Edmonston-Zagreb measles vaccine was tested on 1,500 poor, primarily black and Latino, inner city children in Los Angeles. Highly recommended by the World Health Organization (WHO), the high-potency experimental vaccine was previously injected into infants in Mexico, Haiti, and Africa. It was discontinued in these countries when it was discovered that the children were dying in large numbers.” – Dr. Alan Cantwell MD

“There is no evidence that any influenza vaccine thus far developed is effective in preventing or mitigating any attack of influenza. The producers of these vaccines know that they are worthless, but they go on selling them anyway.” – Dr. J. Anthony Morris, Former Chief Vaccine Control Officer, US FDA

“My own personal view is that vaccines are unsafe and worthless. I will not allow myself to be vaccinated again. Vaccines may be profitable but in my view, they are neither safe nor effective.” – Dr. Vernon Coleman, MB, ChB, DSc (Hon)

“I once believed in Jenner; I once believed in Pasteur. I believed in vaccination. I believed in vivisection. But I changed my views as the result of hard thinking.” – Dr. Walter Hadwen, MD, LSA, MRCS, LRCP, MB

“Cancer was practically unknown until compulsory vaccination with cowpox vaccine began to be introduced. I have had to deal with at least two hundred cases of cancer, and I never saw a case of cancer in an unvaccinated person.” – Dr. W. B. Clarke

“No long-term safety testing for the influenza vaccine has ever been done. They are experimenting on our lives and our children. Influenza vaccine is an experimental vaccine. ” – Dr. Mark Geier, MD, PhD

"There is a great deal of evidence to prove that immunization of children does more harm than good." – Dr. J. Anthony Morris, Former Chief Vaccine Control Officer, US FDA

"The only safe vaccine is one that is never used." – Dr. James A. Shannon, MD, Former Director, National Institutes of Health (1955-1968)

"Belief in immunization is a form of delusional insanity." – Dr Herbert Shelton, MD

"I don't think measles poses any risk to a healthy child." – Dr Jay Gordon, MD

"I sincerely believe that vaccines cause more harm to the health of the individual than the "protection" and "benefit" they are proclaimed to provide. Staying healthy without vaccines is not only possible, but being vaccine-free is the only way to maintain a lifetime of real health." – Dr. Sherri Tenpenny, DO

"Nothing but the natural ignorance of the public, countenanced by the inoculated erroneousness of the ordinary general medical practitioners, makes such a barbarism as vaccination possible. Recent developments have shown that an inoculation made in the usual general practitioner's light-hearted way, without previous highly skilled examination of the state of the patient's blood, is just as likely to be a simple manslaughter as a cure or preventive. But vaccination is nothing short of attempted murder. A skilled bacteriologist would just as soon think of cutting his child's arm and rubbing the contents of the dustpan into the wound, as vaccinating." – George Bernard Shaw

"The more it (vaccination) is supported by public authorities, the more will its dangers and disadvantages be concealed or denied." –M. Beddow Bayly

"One vaccine decreases cell-mediated immunity by 50%, two vaccines by 70%... all triple vaccines (MMR, DTaP) markedly impair cell-mediated immunity, which predisposes to recurrent viral infections, especially otitis media, as well as yeast and fungi infections." – Dr. Herman Hugh Fudenberg, M.D., Ph.D. (Immunology)

"Autism may be a disorder linked to the disruption of the G-alpha protein, affecting retinoid receptors in the brain. A study of sixty autistic children suggests that autism may be caused by inserting a G-alpha protein defect, the pertussis toxin found in the D.P.T. vaccine, into genetically at-risk children." – Mary N. Megson, M.D.

"Probably 20% of American children -one youngster in five- suffers from 'development disability'. This is stupefying figure we have inflicted on ourselves...'development disabilities' are nearly always generated by encephalitis. And the primary cause of encephalitis in the USA and other industrialized countries is the childhood vaccination program. To be specific, a large proportion of millions of US children and adults suffering from autism, mental retardation, hyperactivity, dyslexia... owe their disorders

to one or another of the vaccines against childhood diseases.” – Harris Coulter PhD, Author, “Vaccination, Social Violence & Criminality: The Medical Assault on the American Brain”

“Childhood diseases are a far less serious threat than having a large fraction of a generation afflicted with learning disability and/or uncontrollable aggressive behavior because of a crusade for universal vaccination...” – Association of American Physicians & Surgeons

“We look at these unvaccinated kids as bright and chipper, and they have good personalities, and they’re easy-going and easy to get along with, and we look at them like they’re just something magical. ... When really that’s what normal is supposed to look like.” – Sherri Tenpenny, DO

“Recent evidence indicates that routine childhood vaccinations contribute to the emergence of chronic allergic problems such as eczema, ear infections, and asthma. A growing number of scientists and physicians maintain that most standard vaccinations permanently disturb the developing immune system, setting the stage for hypersensitive reactions to foods and other common substances. In fact, childhood illnesses such as measles, mumps, and whooping cough may actually reduce the risk of allergy.” –Konrad Kail, N.D.

“The incidence of asthma has been found to be five times more common in vaccinated children.” – The Lancet, 1994.

“Provocation polio. That is the truth about those outbreaks of polio. And I offer a well-considered personal opinion that polio is a man-made disease.” – Viera Scheibner, Ph.D.

“Public health regulators’ main interest is preserving the notion that vaccines help more than they harm. Anything else is blasphemous. For the rest of us, though, a recent review in immunology literature should give pause. It states: ‘To date, more than 80 systemic and organ-specific autoimmune diseases have been defined, and their cumulative burden is substantial, both medically and financially. Furthermore, the burden of autoimmune and autoinflammatory diseases is rising, making these diseases a ubiquitous global phenomenon that is predicted to further increase in the coming decades.’ An autoimmune storm is rising. The role of vaccines in it is emerging and will one day be crystal clear. The question is, how far off is that day, and who is going to pay while we wait for it?” – Celeste McGovern

Dr. Gary Kohls, MD has warned that advocates for [mandatory vaccination] were doing so “without acknowledging –or perhaps even being aware of– the large amount of recent neuroscience-based evidence from scientists worldwide that should be modifying the outdated CDC mandates.” “Big Pharma and the CDC have very profitably generated and then propagated the myth that their overpriced and very poorly researched vaccines are both effective and safe,” added Dr. Kohl, a retired physician who had a 40-year family practice career and now tries to sound the alarm on vaccine dangers. “The safety and efficacy of all vaccines has been disproven (including the 270 new ones that the industry is currently developing and planning to market), but the word has not broken through to the large clinics like the Mayo Clinic.” Source: The New American

"To all the pediatricians still trolling my page, now that I've got your attention, listen closely. Heed my words.

You should be FIGHTING LIKE HELL for the safety of our children from even the most remote possibility that vaccines aren't as safe as they could be or aren't as safe as we are being told. Instead of fighting for truth and safety, you're fighting like rats for your piece of cheese.

I have ZERO RESPECT for vaccine profiteers that are so financially biased, confirmation biased, indoctrinated, and willfully ignorant of the evidence that clearly shows vaccines cause injury, disease and REGRESSIVE AUTISM, that they aggressively lobby lawmakers to make vaccines mandatory, and deny parents the essential knowledge about the risks of toxic ingredients injected into their babies.

Bought by big pharma, the caretakers of children's health have become the perpetrators of harm rather than the protectors. They profit as our precious, perfect children are harmed and killed by vaccines filled with cheap preservatives, neurotoxic adjuvants, and human cellular material derived from aborted fetal cell lines. They are complicit accomplices in the murder-by-vaccine crimes that have made American infants THE MOST VACCINATED and THE MOST LIKELY TO DIE in the first year of life.

America's infant mortality rate, the highest rate in ALL developed nations, is a national tragedy. The epidemic of autism, autoimmune diseases, asthma, allergies, ADHD, and pediatric cancers is far worse. The evidence is everywhere.

Unbelievably, the epidemic of autism is rising exponentially. Today, ONE in 48 children in America suffer autism. At the present rate of increase, by 2032 ONE in TWO children AND 80% OF BOYS could be autistic. We can't afford to sacrifice our children and the future of our nation to the ignorance and greed of pediatricians and their big pharmaceutical vaccine manufacturer masters demanding parents submit our children to an intolerably dangerous, untested, and unnecessary vaccine schedule of 72+ injections...and rising. There are over 200 vaccines in the pipeline.

Every pediatrician, family practitioner, or vaccine profiteer that isn't rising up against the corruption of the science of vaccines perpetrated by the CDC is betraying their oath to "first, do no harm." They are on the wrong side of history. Too many have given up objectivity and reason and have simply become sales representatives for the vaccine manufacturers that have so easily bought and conditioned them to believe their lies. The blood of every vaccine injured or killed child is on the hands of every pediatrician that parroted lies like "vaccines do not cause autism" and "the science is settled." The science isn't settled, it's corrupt.

The vaccine industry will soon face the backlash as doctors, scientists, and parents across America become aware of your crimes, rise up to oppose your lies, and hold you accountable for the vaccine injury holocaust you've caused. The fraudulent deceit is coming to an end. We won't allow it to continue.

For me, uncovering the many layers of fraud and corruption that have allowed vaccines to harm so many children, is analogous to walking into an exam room in which a child is being abused by a doctor. I'm not about to look the other way and allow the abuse to continue. I would call the police, however, in my analogy the police are the CDC, and they are participating and enabling the abuse. Regardless, I won't ignore the abuse and allow it to continue. I'm going to stop the abusers from harming the child, and I won't be gentle about it.

That's how I see the travesty of the corruption of vaccines that is harming the children of America today. It's obvious and I'm angry about my how so many of medical colleagues refuse to open the door, expose the abuse, and stop it.

In closing, I beseech my colleagues to open your eyes, minds, and the evidence that for too long you've negligently denied. Confront the reality that you've been duped, controlled, and indoctrinated. Free yourselves from the indoctrination. Stand with me. Demand scientific transparency, integrity, and reform of the vaccine industry. Join me in this fight to protect children and get yourselves on the right side of history." Dr. James Meehan, MD

The pharmaceutical funded █████ DECEPTION began LONG AGO, friends.

Dr. E. J. Post, a prominent physician of Berlmont, Michigan, said:

"I HAVE REMOVED CANCERS FROM VACCINATED ARMS EXACTLY WHERE THE POISON WAS INJECTED."

In the New York Press, January 26, 1909, W. B. Clark stated:

"Cancer was practically unknown until cowpox vaccination began to be introduced. I have had to do with 200 cases of cancer and I NEVER SAW A CASE OF CANCER IN AN UNVACCINATED PERSON."

Dr. Herbert Snow, Surgeon of the London Cancer Hospital, had this to say:

"I am convinced that some 80 per cent of these cancer deaths are caused by the inoculations or vaccinations they have undergone. These are well-known to cause grave and permanent disease of the heart also."

Dr. Dennis Turnbull, who had studied cancer for 30 years declared:

"I have no hesitation in stating that in my judgement the most frequent disposing condition for cancerous development is infused into the blood by vaccination and re-vaccination."

Dr. Forbes Laurie, late Medical Director of the Metropolitan Cancer Hospital, (London) said:

"I am thoroughly convinced that the increase of cancer is due to vaccination."

[Dr. Robert Malone Talks about Information Warfare Against Truth Tellers](#)

Robert Wallace Malone is an American virologist and immunologist. He is the inventor of mRNA technology. During the COVID-19 pandemic, Malone has shown COVID-19 vaccines to be ineffective and dangerous.

This is a talk by Dr. Malone transcribed by me from a YouTube video below the text. It will probably get zapped from YouTube sooner or later, but this text will remain.

It's been a series of epiphanies that have made me realize that there's no upside to just being circumspect and trying to be a nice guy in this environment. This is full-on media warfare, information warfare, political warfare, 21st century, like we've never seen before, and coordinated globally.

The other thing for me has been the personal journey of coming to terms with what the World Economic Forum really represents. And I really resisted that people initially, were coming to me talking about the Great Reset, and I was like, "Ah, this crazy talk." But then it's all documented! And then you see it being deployed. Here it is. They're proud of it. They don't hide it. This is the vision. It is a full on globalist totalitarian vision, with the money in control.

And I did a lot of political science when I was an undergraduate in the early 80s. And I had read things like books about transnationalism and the New World Order. I've found that fascinating, but confused, how could this

possibly happen? And now to see it playing out in real-time, and in a way in which national sovereignty governments are increasingly irrelevant. You know, that's the thing that folks got to wake up about.

This is not about the vaccine. The vaccine is a symptom. That's a really hopeful message going into the new year, is that there's a growing cohort of people that are increasingly aware of how thoroughly we've been manipulated.

I thought I was red-pilled. You know, I've been on the inside for so long and seen Tony Fauci's machinations for so long. That's my origin story, was the initial AIDS crisis starting in 83. When I was at Davis (a university in Davis California). So I saw the hardball politics. It's not that I haven't been aware of that. But I had not been aware before of the information control that is globally coordinated. I mean the [Trusted News Initiative](#) is profound. What that means that has become the Ministry of Truth (Reference to George Orwell's classic novel (Nineteen Eighty-Four)). And what Twitter's doing right now, that I think, with [Alex Berenson's bold and brave lawsuit](#), taking on Twitter, and then I've had a bunch of lawyers come to me because of getting de-platformed or canceled I think is really the right term.

Certainly, people can't deny it anymore. There's so much evidence. And the CNN ratings keep slipping, yay! Maybe we're gonna see some change in 2022. There is a kind of a growing movement and awareness that part of the problem here is the structure of how we have been building our organizations in doing business in a deep, profound way. And just dissatisfaction with what one sees at the World Health Organization and the CDC, and the whole HHS structure in the United States where you have carefully controlled information, only one leader is allowed to speak, only one leader is allowed to represent the position, I think that is gonna turn out to be one of the changes here is a growing awareness that that model is dysfunctional, broken, and it needs to be fixed.

For me, it has been an awakening journey, there's no question. I didn't seek this and never expected it. I find myself at the center of this storm of the resistance. That's what it is really. And I'm still amazed. But it has profoundly changed my view of the information that we receive.

You talk about me becoming more outspoken. I've seen that with my peers too. So for instance, (Dr.) Peter McCullough, he's kind of chilled out a little bit. But when you're attacked all the time. And you have all of this weaponized information against you and no respect... I mean, I'm Mr. Malone, you know, who claims to have invented... I mean, all this language, classic yellow journalism language to have it all deployed against me in absolutely no respect for what I actually did. They never cite all the patents. I mean, they just gloss over all that.

This is asymmetric warfare. We're basically in a guerrilla warfare situation and we got to play it smart. Because what I'm seeing is the other side is generally not very smart. They have a big hammer. They've got all kinds of resources, but they don't seem to be very bright.

I don't know what's going to happen in 2022. But there are some encouraging

signs. You know, I try really hard to look for the silver lining and things and if this whole trauma that we've been through nationally and globally, leads to an awareness of how interconnected we are, and the need for healing and the need for community and the importance of integrity, and the importance of human dignity. That's kind of the perhaps naive pollyannish hopeful position in response to the Great Reset, is people use the term the Great Awakening.

The Global Elite Using Mass Formation Psychosis to Mislead the Public About Covid-19 and Vaccinations

This is an excerpt of Joe Rogan interviewing Dr. Robert Malone, an American virologist and immunologist. He is the inventor of mRNA technology used in Pfizer and Moderna vaccines. He has since taken a stance that the vaccines will actually make COVID-19 infections worse and is warning people against them! Expect to find a lot of negative stuff about this man if you search for him on Google. The main tool the enemy uses to discredit the message is to discredit the messenger.

In this talk, Dr. Malone identifies a tool used by governments throughout history called Mass Formation Psychosis. Hitler used it to vilify the Jews for Germany's problems. Lenin and Stalin used it to murder Christians and everyone who opposed them in their regimes. Mao used it during the Cultural Revolution to stir up university students to work for him and purge out anyone who opposed the revolution. Is the world in the midst of mass formation psychosis right now over how to treat a disease that the vast majority of the people who get it survive from? My wife Tess got Covid while she was in the Philippines and got well. She now has natural immunity far better than any vaccine can give her!

Dr. Robert Malone: How does this happen? How do we have this emergent phenomenon? The "how question," right? And you know, behind the "how question" is the "why question" the how question of a third of the population basically being hypnotized and totally wrapped up in whatever Tony Fauci and

the mainstream media feeds them, whatever CNN tells them is true.

Let me illustrate that. The other day, I was looking through New York Times' recent articles about Omicron and pediatrics in preparation for this and for making some slideshows. And I saw this headline in the New York Times. The text and the title was "How You Should Think About Children and Omicron." He was blatantly saying "this is how you should think. We're going to tell you how to think." okay, people kind of got to get that in their head. That's the world we're in right now. Now, what [Mattias Desmet has shared with us](#), brilliant insight, is another one of those, "Aha, now that part makes sense." Which is that this comes from basically European intellectual inquiry into what the heck happened **in Germany, in the 20s, and 30s, you know, very intelligent, highly educated population, and they went barking mad.** And how did that happen? **The answer is mass formation psychosis**, when you have a society that has become decoupled from each other, and has free floating anxiety, and a sense that things don't make sense. We can't understand it. And then their attention gets focused by a leader or series of events, on one small point, just like hypnosis, **they literally become hypnotized and can be lead anywhere.** And one of the aspects of that phenomena is the people that they identify as their leaders, the ones typically that come in and say, "You have this pain, and I can solve it for you, I and I alone can fix this problem for you." Then they will follow that person through him. It doesn't matter whether they lie to him, or whatever, the data are irrelevant. And furthermore, anybody who questions that narrative is to be immediately attacked, they are the other. This is central to mass formation psychosis. And this is what has happened. We have all those conditions.

If you remember back before 2019, everybody was complaining, the world doesn't make sense, blah, blah, blah. And we're all isolated from each other. We're all on our little tools. We're not connected socially anymore, except through social media. And then this thing happened and everybody focused on it. That is how mass formation psychosis happens. And that is what's happened here.

Now there are ways to get out of it. Mattias' recommendation is you got to get people to realize that what **we've got is a situation of global totalitarianism.** In his experience in Europe, making people realize is a bigger threat than the virus can cause a separation psychologically, in this fusion, this hypnosis that is happened. The problem is, then you're just substituting a bigger boogeyman for the current one. And somebody else can come in and manipulate that the real problem, and it gets back to your core point. We're sick as a society, and we have to heal ourselves. And one of the things we have to do is come together, we have to recreate our social bonds. We have to buy into integrity, the importance of human dignity, and the importance of community. That's how we get out of this. And I think that this insight of Mattias Desmet, is really central to kind of making sense of all of this crazy.

We got a world in which the press is incentivized to push a storyline because they're all controlled by the same large funds that Pfizer is, and so as tech. I don't know how we're gonna get out of it. But it's got to start with us. All of us finding common ground.

Covid-19 Vaccinations – “A Malicious Act of Bioterrorism” – Dr. Zev Zelenko

Transcription of video below

Dr. Valdimir (Zev) Zelenko: I would take the words of Bill Gates seriously. Not because he's a prophet, but because he's a criminal. Because he's a bio-terrorist. Because he's a eugenicist. Because he's a sociopath. And he has a proven track record of being right. Well, that's not surprising if you're actually orchestrating it. So it's not a coincidence that an eradicated virus that only exists in the most secure neurology labs appears in an insecure Merc laboratory in Philadelphia. Four or five days after the sociopath Gates tells us we should expect a smallpox outbreak.

Sean, the SGT Report Host: Oh, my goodness, friends, that was Dr. Zev Zelenko. And this interview could literally save lives. Now, you may know people who have taken the vaccine, and it's too late to help them. But maybe those people have children. And maybe, just maybe if you get this information to those people, you might at least save the lives of their kids.

(Keto advertisement skipped.)

It's Sean from SgtReport.com and SgtReport.tv. I'm also very pleased to have back on the show the one the only Dr. Zev Zelenko. He is the inventor of the Z Stack. And guess what? They now have Z Stack gummies for kids. What does that mean? Well, it means you don't have to get sick when the "flu season" returns or COVID season. Well, we know what it really is. Dr. Zev Zelenko joins me now. How are you sir?

Dr. Zev Zenlenko: I'm doing great. Thank you. Thanks for having me.

Sean: Glad to have you back. I'll leave the link to Z Stack below if people want to check that out. It is quercetin which is the delivery system for zinc, vitamin C, and vitamin D the stuff you need to stay healthy. Dr. Z, I am now fully convinced that what we are up against as it pertains to this

experiment rolled out by Pfizer, Moderna, FDA, CDC, NIH, this experiment people are taking part in willingly is really an IQ test. So if I may, we'll kick this off with a soundbite from a woman who, look, my heart goes out to this person. I don't know who she is. I'm not making fun of her. But this really is an IQ test and people ought to know what they're participating in before they willingly participate in and run out and get the jab.

Sickly looking woman: So I got my third dose of the Pfizer booster vaccine on Sunday. And on Monday, by about 10:30 in the morning, I was having body aches and pains and chills and stuff. Pretty bad. I went home. Then that night, I could not stay awake. I was having fevers, still chills, still the body aches. Yesterday, body aches and pains. But by the afternoon I thought I was doing pretty good. Woke up this morning. I have sores all inside my mouth. The fever is back. I still have the body aches, massive migraine. As much as I love my shots. Side effects.

Sean: I'm coming back to you Dr. Zelenko. Boy, I don't think she has any idea that she's probably experiencing blood clotting. Her immune system is crashing. A lot of these people have no idea what they're participating in Dr. Z. Is it an IQ test? What do you make of what she just said?

Dr. Zev Zenlenko: I think it's more accurately an EQ test, an emotional intelligence test. And what I mean by that is the problem of the psychological warfare that has been waged on humanity, which is basically the use of prolonged fear together with isolation from other human beings and the people you love. What that does, is psychologically decompensates a person. They live in such an emotional horror, that they're they become prime targets to be manipulated by any false promise. So if I'm creating anxiety, and then I come to you and I said, dangle a vaccine in front of you and say, Well, this is going to help you. Most people take that vaccine, not for intellectual reasons at all. Their minds have completely shut down. They're acting purely on emotion. And they're gravitating towards taking that vaccine because it reduces their anxiety in the short term. So and that's why if you challenge them, they get belligerent even the most – I've had debates with incredibly intelligent people, but I see their minds are have shut down, and they become belligerent because my words are bringing them back into a state of anxiety that they definitely don't want to be in. So it's the shutdown of the intellect and the irrational behavior that's being fueled by their emotions. And that's really what's going on here. I think it's not really IQ raw, intellectual talent because I know plenty of people with a higher IQ who are fallen victim to this psychological warfare.

Sean: I think that's very fair. That's a very good point. And let me ask you this. Do we make a mistake by calling this thing, a vaccine? I just listened to a powerful interview, a roundtable between Dr. David E. Martin, Robert F. Kennedy, Jr. I believe Judy Mikovits was part of that and one other person. And David E. Martin said we have to stop calling this a vaccine, or we've already lost the battle. It is not a vaccine. It is an mRNA weapons delivery system. Is he right?

Dr. Zev Zenlenko: Yeah, I mean, listen, language is very important. You could call it a vaccine if you call it a vaccine that kills people. You see, the

problem is we grew up thinking the word vaccine is associated with health, with goodness with preservation of life. So most of humanity associates the word vaccine with something good. And that's the marketing ploy here. There's also a legal ploy where something's called a vaccine, pharmaceutical company that's making it cannot be sued, or it's difficult to sue them and they're indemnified. So **there's a legal benefit to being called a vaccine**. But for my purposes, if you want to say there are vaccines that save life, and there are vaccines that are weapons of eugenics and kill people, that's fine. I personally call it a *Poison Deathtrap*.

Sean: As do I, and here's what I want to do for that poor woman. Look, she's already taken the booster. So she's three shots in, there's nothing we can do to help her. But for those who are listening, and I do have a friend I reached out to several months ago, probably close to six, eight months ago at this point, warning this person to at least watch an educational video I sent her it was 14 minutes long saying please watch this before you take the VAX. They're very dangerous. I know she didn't watch the video and her reply to me via email was we're going to have to agree to disagree on this issue. Okay, So I want people like her and those who might be considering jabbing their own kids to understand what we know. Got a lot of sound bites I want to play here and Dr. Zelenko is an expert so he'll weigh in on the sound bites but here's what we know. And Dr. Z you tell me if I'm forgetting anything.

Number one, this Vax is experimental. It is mRNA technology the first-ever of its kind used on human beings. Pfizer, Moderna, J&J have indemnity from lawsuits. If you participate in this experiment and get injured or die, you cannot sue them, there will be no financial recovery for you. And finally, here, **the FDA wants until 2076 to fully release the Pfizer Vax data**. I don't know if you saw that line item. I can put it up on the screen here. What am I missing? That's what we know. And I have additional sound bites I want to play to demonstrate for people what this Vax is doing to the blood of those who take it Have I missed anything so far?

Dr. Zev Zenlenko: Yes, I don't know if the word "experimental" conveys the malignancy here the malfeasance of what actually is going on. So in October of 2020, the FDA made an internal presentation to its own scientists. And that presentation was not meant to be leaked, but it was, and we have it. And on slide 16, which I'll provide for you so you can include this in the video, on slide 16 of this presentation, the FDA lists all the side effects of these vaccines. Now, this is two months prior to the rollout. Yes, that's two months before this vaccine, these vaccines were released onto the public, the FDA presented this slide to its own scientists. Now, if you jump ahead to today, if you look through and go to the VAERS database, and just look what are the categories or side effects that actual human beings have experienced, that have taken the time to file a report, or the doctor has taken the time to file a report, **there's a 100% correlation between what actual human beings have experienced clinically, and what the FDA told his own scientists two months prior to the release of this bio-weapon**. So whenever you have 100% correlation, what that means is a term for that. **It's called premeditated, first degree, capital murder, crimes against humanity, and genocide!** This is *not* an experiment. This is **a malicious act of bioterrorism** and the complicity

of our own government and agencies that are have been charged and put into power by us to protect us **who have whored themselves out to special interests** and stakeholders. They serve everyone except the American people.

Sean: Thank you for that you're 100% right. I soft-pedal it when I call this an experiment. It's so much more than an experiment. It is a plot to depopulate! And I think that segues nicely into this next soundbite. I want to play this. This is Karen Kingston on the Stew Peters show. Now Karen Kingston is a biotech analyst and an auditor of drug trials data. Very, very bright woman, she knows what she's doing. She knows how to analyze all the paperwork, mountains and mountains of documents that come out of these trials. And here's what she has to say about Pfizer and this particular product, that they're masquerading as a vaccine, listen to this.

Karen Kingston: The CEO is not oblivious as to what's going on with the phase three trials. They're very much aware of it. And this evidence shows that they conspired to commit aggravated assault and murder of children with a bioweapon. And maybe your audience or naysayers are saying you have no evidence this is a bioweapon. Yes, I do. Take a look at the biological license application that was submitted actually submitted in May of this year. And what it says under the product description verbatim is the mRNA Kornati (?) is a single-stranded mRNA encoding the full-length SARS code two spike glycoprotein derived from the Wuhan-HU1-11slip that was uploaded to Gendai by China. It is the bioweapon! That's what it is. And it's literally called the Wuhan-HU1-Spike protein. We know that's a bioweapon. If you still don't believe me take a look at the patent that was issued on January 10 of 2017. And it was issued to actually MIT and Harvard. But this all rolls up into the master cotton. (?) And who funded this? It says under state government support the invention was made with a government support order by the NIH. But if you go to section nine, what does it say, Stew? It says that this nanotechnology vaccine will deliver a molecule. In some embodiments, the small molecule is a toxin. In some embodiments, the toxin is from a chemical weapon or an agent of biowarfare. **The NIH patented a vaccine to deliver a bioweapon.**

Sean: Alright, sir, I'm coming back to you. I don't know if your blood is boiling like mine is but my understanding is within the last week, the NIH Director has called for the arrest of those spreading what he calls disinformation about this product.

Dr. Zelenko: The NIH, CDC and FDA are **the enemies of the people**. They should be held accountable. I'm a person who believes in the rule of law. Once they're convicted for crimes against humanity, whoever the leadership is, which is a whole list of people that should be targeted, they should be brought to trial by military tribunal, and if they're convicted of crimes against humanity, genocide, and mass murder, they should be executed. And that should be sent a message to future despots that we have a rule of law here, you will be held accountable. And we society, humanity will not tolerate the terror, the terrorizing of innocents, and a war against God-consciousness and an attempt to enslave masses of people. We will come after you.

Covid Vaccine Causes Myocarditis

This article is from a paper by Drs. Peter McCullough, M.D., an American cardiologist, and Jessica Rose, Ph.D., a specialist in Orthopedics and Sports Medicine at Stanford Children's Health Specialty Services. It was published by Elsevier which is a Netherlands-based publishing company specializing in scientific, technical, and medical content. After the preliminary draft of their report was peer-reviewed and approved for publication, it was posted by the publisher on its website. **Shortly thereafter, the publisher, Elsevier, without giving a reason, suddenly withdrew the publication.** (Partial text from Dr. John G. COVID-19 'Vaccine': A Bioweapon

Dr. Jane Ruby is a prominent health economist and new right political pundit. She currently works as a president at Ruby Health Consulting since 2018. It actually provides innovative solutions for Health Economics and outcomes research (HEOR). She calls Covid vaccines a bioweapon. I sure wouldn't bet my life that she's wrong.

[The Sparticus Document: An Overview of the Covid Plandemic and the Sinister Motivation Behind It](#)

This article is reposted from

<https://biblescienceforum.com/2021/10/01/the-sparticus-document-a-summary-of-the-whole-plandemic/> It's an anonymously posted document by someone who calls

themselves Spartacus. It is an excellent overview and summary of the Covid plandemic by people who seem to know what they are talking about. I normally don't post articles written by people whose credentials I cannot verify, but because Dr. John Gideon Hartnett vouches for it by posting it on his website, and because Dr. Hartnett is a respected academic and someone I know personally, I think it's something of value that the public should know. I don't understand all the medical jargon in this article, but it's not necessary to understand it all to get the point of what the main message is.

Hello,

My name is Spartacus, and I've had enough.

We have been forced to watch America and the Free World spin into inexorable decline due to a biowarfare attack. We, along with countless others, have been victimized and gaslit by propaganda and psychological warfare operations being conducted by an unelected, unaccountable Elite against the American people and our allies.

Our mental and physical health have suffered immensely over the course of the past year and a half. We have felt the sting of isolation, lockdown, masking, quarantines, and other completely nonsensical acts of healthcare theater that have done absolutely nothing to protect the health or wellbeing of the public from the ongoing COVID-19 pandemic.

Now, we are watching the medical establishment inject literal poison into millions of our fellow Americans without so much as a fight.

We have been told that we will be fired and denied our livelihoods if we refuse to vaccinate. This was the last straw.

We have spent thousands of hours analyzing leaked footage from Wuhan, scientific papers from primary sources, as well as the paper trails left by the medical establishment.

What we have discovered would shock anyone to their core.

First, we will summarize our findings, and then, we will explain them in detail. References will be placed at the end.

Summary:

- COVID-19 is a blood and blood vessel disease. SARS-CoV-2 infects the lining of human blood vessels, causing them to leak into the lungs.
- Current treatment protocols (e.g. invasive ventilation) are actively harmful to patients, accelerating oxidative stress and causing severe VILI (ventilator-induced lung injuries). The continued use of ventilators in the absence of any proven medical benefit constitutes mass murder.
- Existing countermeasures are inadequate to slow the spread of what is an aerosolized and potentially wastewater-borne virus, and constitute a form of medical theater.

- Various non-vaccine interventions have been suppressed by both the media and the medical establishment in favor of vaccines and expensive patented drugs.
- The authorities have denied the usefulness of natural immunity against COVID-19, despite the fact that natural immunity confers protection against all of the virus's proteins, and not just one.
- Vaccines will do more harm than good. The antigen that these vaccines are based on, SARS-CoV-2 Spike, is a toxic protein. SARS-CoV-2 may have ADE, or antibody-dependent enhancement; current antibodies may not neutralize future strains, but instead help them infect immune cells. Also, vaccinating during a pandemic with a leaky vaccine removes the evolutionary pressure for a virus to become less lethal.
- There is a vast and appalling criminal conspiracy that directly links both Anthony Fauci and Moderna to the Wuhan Institute of Virology.
- COVID-19 vaccine researchers are directly linked to scientists involved in brain-computer interface ("neural lace") tech, one of whom was indicted for taking grant money from China.
- Independent researchers have discovered mysterious nanoparticles inside the vaccines that are not supposed to be present.
- The entire pandemic is being used as an excuse for a vast political and economic transformation of Western society that will enrich the already rich and turn the rest of us into serfs and untouchables.

COVID-19 Pathophysiology and Treatments:

COVID-19 is not a viral pneumonia. It is a viral vascular endotheliitis and attacks the lining of blood vessels, particularly the small pulmonary alveolar capillaries, leading to endothelial cell activation and sloughing, coagulopathy, sepsis, pulmonary edema, and ARDS-like symptoms. This is a disease of the blood and blood vessels. The circulatory system. Any pneumonia that it causes is secondary to that.

In severe cases, this leads to sepsis, blood clots, and multiple organ failure, including hypoxic and inflammatory damage to various vital organs, such as the brain, heart, liver, pancreas, kidneys, and intestines.

Some of the most common laboratory findings in COVID-19 are elevated D-dimer, elevated prothrombin time, elevated C-reactive protein, neutrophilia, lymphopenia, hypocalcemia, and hyperferritinemia, essentially matching a profile of coagulopathy and immune system hyperactivation/immune cell exhaustion.

COVID-19 can present as almost anything, due to the wide tropism of SARS-CoV-2 for various tissues in the body's vital organs. While its most common initial presentation is respiratory illness and flu-like symptoms, it can present as brain inflammation, gastrointestinal disease, or even heart attack or pulmonary embolism.

COVID-19 is more severe in those with specific comorbidities, such as obesity, diabetes, and hypertension. This is because these conditions involve endothelial dysfunction, which renders the circulatory system more

susceptible to infection and injury by this particular virus.

The vast majority of COVID-19 cases are mild and do not cause significant disease. In known cases, there is something known as the 80/20 rule, where 80% of cases are mild and 20% are severe or critical. However, this ratio is only correct for known cases, not all infections. The number of actual infections is much, much higher. Consequently, the mortality and morbidity rate is lower. However, COVID-19 spreads very quickly, meaning that there are a significant number of severely-ill and critically-ill patients appearing in a short time frame.

In those who have critical COVID-19-induced sepsis, hypoxia, coagulopathy, and ARDS, the most common treatments are intubation, injected corticosteroids, and blood thinners. This is not the correct treatment for COVID-19. In severe hypoxia, cellular metabolic shifts cause ATP to break down into hypoxanthine, which, upon the reintroduction of oxygen, causes xanthine oxidase to produce tons of highly damaging radicals that attack tissue. This is called ischemia-reperfusion injury, and it's why the majority of people who go on a ventilator are dying. In the mitochondria, succinate buildup due to sepsis does the same exact thing; when oxygen is reintroduced, it makes superoxide radicals. Make no mistake, intubation will kill people who have COVID-19.

The end-stage of COVID-19 is severe lipid peroxidation, where fats in the body start to "rust" due to damage by oxidative stress. This drives autoimmunity. Oxidized lipids appear as foreign objects to the immune system, which recognizes and forms antibodies against OSEs, or oxidation-specific epitopes. Also, oxidized lipids feed directly into pattern recognition receptors, triggering even more inflammation and summoning even more cells of the innate immune system that release even more destructive enzymes. This is similar to the pathophysiology of Lupus.

COVID-19's pathology is dominated by extreme oxidative stress and neutrophil respiratory burst, to the point where hemoglobin becomes incapable of carrying oxygen due to heme iron being stripped out of heme by hypochlorous acid. No amount of supplemental oxygen can oxygenate blood that chemically refuses to bind O₂.

The breakdown of the pathology is as follows:

SARS-CoV-2 Spike binds to ACE2. Angiotensin Converting Enzyme 2 is an enzyme that is part of the renin-angiotensin-aldosterone system, or RAAS. The RAAS is a hormone control system that moderates fluid volume in the body and in the bloodstream (i.e. osmolarity) by controlling salt retention and excretion. This protein, ACE2, is ubiquitous in every part of the body that interfaces with the circulatory system, particularly in vascular endothelial cells and pericytes, brain astrocytes, renal tubules and podocytes, pancreatic islet cells, bile duct and intestinal epithelial cells, and the seminiferous ducts of the testis, all of which SARS-CoV-2 can infect, not just the lungs.

SARS-CoV-2 infects a cell as follows: SARS-CoV-2 Spike undergoes a

conformational change where the S1 trimers flip up and extend, locking onto ACE2 bound to the surface of a cell. TMPRSS2, or transmembrane protease serine 2, comes along and cuts off the heads of the Spike, exposing the S2 stalk-shaped subunit inside. The remainder of the Spike undergoes a conformational change that causes it to unfold like an extension ladder, embedding itself in the cell membrane. Then, it folds back upon itself, pulling the viral membrane and the cell membrane together. The two membranes fuse, with the virus's proteins migrating out onto the surface of the cell. The SARS-CoV-2 nucleocapsid enters the cell, disgorging its genetic material and beginning the viral replication process, hijacking the cell's own structures to produce more virus.

SARS-CoV-2 Spike proteins embedded in a cell can actually cause human cells to fuse together, forming syncytia/MGCs (multinuclear giant cells). They also have other pathogenic, harmful effects. SARS-CoV-2's viroporins, such as its Envelope protein, act as calcium ion channels, introducing calcium into infected cells. The virus suppresses the natural interferon response, resulting in delayed inflammation. SARS-CoV-2 N protein can also directly activate the NLRP3 inflammasome. Also, it suppresses the Nrf2 antioxidant pathway. The suppression of ACE2 by binding with Spike causes a buildup of bradykinin that would otherwise be broken down by ACE2.

This constant calcium influx into the cells results in (or is accompanied by) noticeable hypocalcemia, or low blood calcium, especially in people with Vitamin D deficiencies and pre-existing endothelial dysfunction. Bradykinin upregulates cAMP, cGMP, COX, and Phospholipase C activity. This results in prostaglandin release and vastly increased intracellular calcium signaling, which promotes highly aggressive ROS release and ATP depletion. NADPH oxidase releases superoxide into the extracellular space. Superoxide radicals react with nitric oxide to form peroxynitrite. Peroxynitrite reacts with the tetrahydrobiopterin cofactor needed by endothelial nitric oxide synthase, destroying it and "uncoupling" the enzymes, causing nitric oxide synthase to synthesize more superoxide instead. This proceeds in a positive feedback loop until nitric oxide bioavailability in the circulatory system is depleted.

Dissolved nitric oxide gas produced constantly by eNOS serves many important functions, but it is also antiviral against SARS-like coronaviruses, preventing the palmitoylation of the viral Spike protein and making it harder for it to bind to host receptors. The loss of NO allows the virus to begin replicating with impunity in the body. Those with endothelial dysfunction (i.e. hypertension, diabetes, obesity, old age, African-American race) have redox equilibrium issues to begin with, giving the virus an advantage.

Due to the extreme cytokine release triggered by these processes, the body summons a great deal of neutrophils and monocyte-derived alveolar macrophages to the lungs. Cells of the innate immune system are the first-line defenders against pathogens. They work by engulfing invaders and trying to attack them with enzymes that produce powerful oxidants, like SOD and MPO. Superoxide dismutase takes superoxide and makes hydrogen peroxide, and myeloperoxidase takes hydrogen peroxide and chlorine ions and makes hypochlorous acid, which is many, many times more reactive than sodium hypochlorite bleach.

Neutrophils have a nasty trick. They can also eject these enzymes into the extracellular space, where they will continuously spit out peroxide and bleach into the bloodstream. This is called neutrophil extracellular trap formation, or, when it becomes pathogenic and counterproductive, NETosis. In severe and critical COVID-19, there is actually rather severe NETosis.

Hypochlorous acid building up in the bloodstream begins to bleach the iron out of heme and compete for O₂ binding sites. Red blood cells lose the ability to transport oxygen, causing the sufferer to turn blue in the face. Unliganded iron, hydrogen peroxide, and superoxide in the bloodstream undergo the Haber- Weiss and Fenton reactions, producing extremely reactive hydroxyl radicals that violently strip electrons from surrounding fats and DNA, oxidizing them severely.

This condition is not unknown to medical science. The actual name for all of this is acute sepsis.

We know this is happening in COVID-19 because people who have died of the disease have noticeable ferroptosis signatures in their tissues, as well as various other oxidative stress markers such as nitrotyrosine, 4-HNE, and malondialdehyde.

When you intubate someone with this condition, you are setting off a free radical bomb by supplying the cells with O₂. It's a catch-22, because we need oxygen to make Adenosine Triphosphate (that is, to live), but O₂ is also the precursor of all these damaging radicals that lead to lipid peroxidation.

The correct treatment for severe COVID-19 related sepsis is non-invasive ventilation, steroids, and antioxidant infusions. Most of the drugs repurposed for COVID-19 that show any benefit whatsoever in rescuing critically-ill COVID-19 patients are antioxidants. N-acetylcysteine, melatonin, fluvoxamine, budesonide, famotidine, cimetidine, and ranitidine are all antioxidants. Indomethacin prevents iron- driven oxidation of arachidonic acid to isoprostanes. There are powerful antioxidants such as apocynin that have not even been tested on COVID-19 patients yet which could defang neutrophils, prevent lipid peroxidation, restore endothelial health, and restore oxygenation to the tissues.

Scientists who know anything about pulmonary neutrophilia, ARDS, and redox biology have known or surmised much of this since March 2020. In April 2020, Swiss scientists confirmed that COVID-19 was a vascular endotheliitis. By late 2020, experts had already concluded that COVID-19 causes a form of viral sepsis. They also know that sepsis can be effectively treated with antioxidants. None of this information is particularly new, and yet, for the most part, it has not been acted upon. Doctors continue to use damaging intubation techniques with high PEEP settings despite high lung compliance and poor oxygenation, killing an untold number of critically ill patients with medical malpractice.

Because of the way they are constructed, Randomized Control Trials will never show any benefit for any antiviral against COVID-19. Not Remdesivir, not Kaletra, not HCQ, and not Ivermectin. The reason for this is simple; for the

patients that they have recruited for these studies, such as Oxford's ludicrous RECOVERY study, the intervention is too late to have any positive effect.

The clinical course of COVID-19 is such that by the time most people seek medical attention for hypoxia, their viral load has already tapered off to almost nothing. If someone is about 10 days post-exposure and has already been symptomatic for five days, there is hardly any virus left in their bodies, only cellular damage and derangement that has initiated a hyperinflammatory response. It is from this group that the clinical trials for antivirals have recruited, pretty much exclusively.

In these trials, they give antivirals to severely ill patients who have no virus in their bodies, only a delayed hyperinflammatory response, and then absurdly claim that antivirals have no utility in treating or preventing COVID-19. These clinical trials do not recruit people who are pre-symptomatic. They do not test pre-exposure or post-exposure prophylaxis.

This is like using a defibrillator to shock only flatline, and then absurdly claiming that defibrillators have no medical utility whatsoever when the patients refuse to rise from the dead. The intervention is too late. These trials for antivirals show systematic, egregious selection bias. They are providing a treatment that is futile to the specific cohort they are enrolling.

India went against the instructions of the WHO and mandated the prophylactic usage of Ivermectin. They have almost completely eradicated COVID-19. The Indian Bar Association of Mumbai has brought criminal charges against WHO Chief Scientist Dr. Soumya Swaminathan for recommending against the use of Ivermectin.

Ivermectin is not "horse dewormer". Yes, it is sold in veterinary paste form as a dewormer for animals. It has also been available in pill form for humans for decades, as an antiparasitic drug.

The media have disingenuously claimed that because Ivermectin is an antiparasitic drug, it has no utility as an antiviral. This is incorrect. Ivermectin has utility as an antiviral. It blocks importin, preventing nuclear import, effectively inhibiting viral access to cell nuclei. Many drugs currently on the market have multiple modes of action. Ivermectin is one such drug. It is both antiparasitic and antiviral.

In Bangladesh, Ivermectin costs \$1.80 for an entire 5-day course. Remdesivir, which is toxic to the liver, costs \$3,120 for a 5-day course of the drug. Billions of dollars of utterly useless Remdesivir were sold to our governments on the taxpayer's dime, and it ended up being totally useless for treating hyperinflammatory COVID-19. The media has hardly even covered this at all.

The opposition to the use of generic Ivermectin is not based in science. It is purely financially and politically-motivated. An effective non-vaccine intervention would jeopardize the rushed FDA approval of patented vaccines

and medicines for which the pharmaceutical industry stands to rake in billions upon billions of dollars in sales on an ongoing basis.

The majority of the public are scientifically illiterate and cannot grasp what any of this even means, thanks to a pathetic educational system that has miseducated them. You would be lucky to find 1 in 100 people who have even the faintest clue what any of this actually means.

COVID-19 Transmission:

COVID-19 is airborne. The WHO carried water for China by claiming that the virus was only droplet-borne. Our own CDC absurdly claimed that it was mostly transmitted by fomite-to-face contact, which, given its rapid spread from Wuhan to the rest of the world, would have been physically impossible.

The ridiculous belief in fomite-to-face being a primary mode of transmission led to the use of surface disinfection protocols that wasted time, energy, productivity, and disinfectant.

The 6-foot guidelines are absolutely useless. The minimum safe distance to protect oneself from an aerosolized virus is to be 15+ feet away from an infected person, no closer. Realistically, no public transit is safe.

Surgical masks do not protect you from aerosols. The virus is too small and the filter media has too large of gaps to filter it out. They may catch respiratory droplets and keep the virus from being expelled by someone who is sick, but they do not filter a cloud of infectious aerosols if someone were to walk into said cloud.

The minimum level of protection against this virus is quite literally a P100 respirator, a PAPR/CAPR, or a 40mm NATO CBRN respirator, ideally paired with a full-body tyvek or tychem suit, gloves, and booties, with all the holes and gaps taped.

Live SARS-CoV-2 may potentially be detected in sewage outflows, and there may be oral-fecal transmission. During the SARS outbreak in 2003, in the Amoy Gardens incident, hundreds of people were infected by aerosolized fecal matter rising from floor drains in their apartments.

COVID-19 Vaccine Dangers:

The vaccines for COVID-19 are not sterilizing and do not prevent infection or transmission. They are “leaky” vaccines. This means they remove the evolutionary pressure on the virus to become less lethal. It also means that the vaccinated are perfect carriers. In other words, those who are vaccinated are a threat to the unvaccinated, not the other way around.

All of the COVID-19 vaccines currently in use have undergone minimal testing, with highly accelerated clinical trials. Though they appear to limit severe illness, the long-term safety profile of these vaccines remains unknown.

Some of these so-called “vaccines” utilize an untested new technology that

has never been used in vaccines before. Traditional vaccines use weakened or killed virus to stimulate an immune response. The Moderna and Pfizer-BioNTech vaccines do not. They are purported to consist of an intramuscular shot containing a suspension of lipid nanoparticles filled with messenger RNA. The way they generate an immune response is by fusing with cells in a vaccine recipient's shoulder, undergoing endocytosis, releasing their mRNA cargo into those cells, and then utilizing the ribosomes in those cells to synthesize modified SARS-CoV-2 Spike proteins in-situ.

These modified Spike proteins then migrate to the surface of the cell, where they are anchored in place by a transmembrane domain. The adaptive immune system detects the non-human viral protein being expressed by these cells, and then forms antibodies against that protein. This is purported to confer protection against the virus, by training the adaptive immune system to recognize and produce antibodies against the Spike on the actual virus. The J&J and AstraZeneca vaccines do something similar, but use an adenovirus vector for genetic material delivery instead of a lipid nanoparticle. These vaccines were produced or validated with the aid of fetal cell lines HEK-293 and PER.C6, which people with certain religious convictions may object strongly to.

SARS-CoV-2 Spike is a highly pathogenic protein on its own. It is impossible to overstate the danger presented by introducing this protein into the human body.

It is claimed by vaccine manufacturers that the vaccine remains in cells in the shoulder, and that SARS-CoV-2 Spike produced and expressed by these cells from the vaccine's genetic material is harmless and inert, thanks to the insertion of prolines in the Spike sequence to stabilize it in the prefusion conformation, preventing the Spike from becoming active and fusing with other cells. However, a pharmacokinetic study from Japan showed that the lipid nanoparticles and mRNA from the Pfizer vaccine did not stay in the shoulder, and in fact bioaccumulated in many different organs, including the reproductive organs and adrenal glands, meaning that modified Spike is being expressed quite literally all over the place. These lipid nanoparticles may trigger anaphylaxis in an unlucky few, but far more concerning is the unregulated expression of Spike in various somatic cell lines far from the injection site and the unknown consequences of that.

Messenger RNA is normally consumed right after it is produced in the body, being translated into a protein by a ribosome. COVID-19 vaccine mRNA is produced outside the body, long before a ribosome translates it. In the meantime, it could accumulate damage if inadequately preserved. When a ribosome attempts to translate a damaged strand of mRNA, it can become stalled. When this happens, the ribosome becomes useless for translating proteins because it now has a piece of mRNA stuck in it, like a lace card in an old punch card reader. The whole thing has to be cleaned up and new ribosomes synthesized to replace it. In cells with low ribosome turnover, like nerve cells, this can lead to reduced protein synthesis, cytopathic effects, and neuropathies.

Certain proteins, including SARS-CoV-2 Spike, have proteolytic cleavage sites

that are basically like little dotted lines that say “cut here”, which attract a living organism’s own proteases (essentially, molecular scissors) to cut them. There is a possibility that S1 may be proteolytically cleaved from S2, causing active S1 to float away into the bloodstream while leaving the S2 “stalk” embedded in the membrane of the cell that expressed the protein.

SARS-CoV-2 Spike has a Superantigenic region (SAg), which may promote extreme inflammation.

Anti-Spike antibodies were found in one study to function as autoantibodies and attack the body’s own cells. Those who have been immunized with COVID-19 vaccines have developed blood clots, myocarditis, Guillain-Barre Syndrome, Bell’s Palsy, and multiple sclerosis flares, indicating that the vaccine promotes autoimmune reactions against healthy tissue.

SARS-CoV-2 Spike does not only bind to ACE2. It was suspected to have regions that bind to basigin, integrins, neuropilin-1, and bacterial lipopolysaccharides as well. SARS-CoV-2 Spike, on its own, can potentially bind any of these things and act as a ligand for them, triggering unspecified and likely highly inflammatory cellular activity.

SARS-CoV-2 Spike contains an unusual PRRA insert that forms a furin cleavage site. Furin is a ubiquitous human protease, making this an ideal property for the Spike to have, giving it a high degree of cell tropism. No wild-type SARS-like coronaviruses related to SARS-CoV-2 possess this feature, making it highly suspicious, and perhaps a sign of human tampering.

SARS-CoV-2 Spike has a prion-like domain that enhances its infectiousness.

The Spike S1 RBD may bind to heparin-binding proteins and promote amyloid aggregation. In humans, this could lead to Parkinson’s, Lewy Body Dementia, premature Alzheimer’s, or various other neurodegenerative diseases. This is very concerning because SARS-CoV-2 S1 is capable of injuring and penetrating the blood-brain barrier and entering the brain. It is also capable of increasing the permeability of the blood-brain barrier to other molecules.

SARS-CoV-2, like other betacoronaviruses, may have Dengue-like ADE, or antibody-dependent enhancement of disease. For those who aren’t aware, some viruses, including betacoronaviruses, have a feature called ADE. There is also something called Original Antigenic Sin, which is the observation that the body prefers to produce antibodies based on previously-encountered strains of a virus over newly- encountered ones.

In ADE, antibodies from a previous infection become non-neutralizing due to mutations in the virus’s proteins. These non-neutralizing antibodies then act as trojan horses, allowing live, active virus to be pulled into macrophages through their Fc receptor pathways, allowing the virus to infect immune cells that it would not have been able to infect before. This has been known to happen with Dengue Fever; when someone gets sick with Dengue, recovers, and then contracts a different strain, they can get very, very ill.

If someone is vaccinated with mRNA based on the Spike from the initial Wuhan strain of SARS-CoV-2, and then they become infected with a future, mutated strain of the virus, they may become severely ill. In other words, it is possible for vaccines to sensitize someone to disease.

There is a precedent for this in recent history. Sanofi's Dengvaxia vaccine for Dengue failed because it caused immune sensitization in people whose immune systems were Dengue-naïve.

In mice immunized against SARS-CoV and challenged with the virus, a close relative of SARS-CoV-2, they developed immune sensitization, Th2 immunopathology, and eosinophil infiltration in their lungs.

We have been told that SARS-CoV-2 mRNA vaccines cannot be integrated into the human genome, because messenger RNA cannot be turned back into DNA. This is false. There are elements in human cells called LINE-1 retrotransposons, which can indeed integrate mRNA into a human genome by endogenous reverse transcription. Because the mRNA used in the vaccines is stabilized, it hangs around in cells longer, increasing the chances for this to happen. If the gene for SARS-CoV-2 Spike is integrated into a portion of the genome that is not silent and actually expresses a protein, it is possible that people who take this vaccine may continuously express SARS-CoV-2 Spike from their somatic cells for the rest of their lives.

By inoculating people with a vaccine that causes their bodies to produce Spike in-situ, they are being inoculated with a pathogenic protein. A toxin that may cause long-term inflammation, heart problems, and a raised risk of cancers. In the long-term, it may also potentially lead to premature neurodegenerative disease.

Absolutely nobody should be compelled to take this vaccine under any circumstances, and in actual fact, the vaccination campaign must be stopped immediately.

COVID-19 Criminal Conspiracy:

The vaccine and the virus were made by the same people.

In 2014, there was a moratorium on SARS gain-of-function research that lasted until 2017. This research was not halted. Instead, it was outsourced, with the federal grants being laundered through NGOs.

Ralph Baric is a virologist and SARS expert at UNC Chapel Hill in North Carolina. This is who Anthony Fauci was referring to when he insisted, before Congress, that if any gain-of-function research was being conducted, it was being conducted in North Carolina.

This was a lie. Anthony Fauci lied before Congress. A felony.

Ralph Baric and Shi Zhengli are colleagues and have co-written papers together. Ralph Baric mentored Shi Zhengli in his gain-of-function manipulation techniques, particularly serial passage, which results in a

virus that appears as if it originated naturally. In other words, deniable bioweapons. Serial passage in humanized hACE2 mice may have produced something like SARS-CoV-2.

The funding for the gain-of-function research being conducted at the Wuhan Institute of Virology came from Peter Daszak. Peter Daszak runs an NGO called EcoHealth Alliance. EcoHealth Alliance received millions of dollars in grant money from the National Institutes of Health/National Institute of Allergy and Infectious Diseases (that is, Anthony Fauci), the Defense Threat Reduction Agency (part of the US Department of Defense), and the United States Agency for International Development. NIH/NIAID contributed a few million dollars, and DTRA and USAID each contributed tens of millions of dollars towards this research. Altogether, it was over a hundred million dollars.

EcoHealth Alliance subcontracted these grants to the Wuhan Institute of Virology, a lab in China with a very questionable safety record and poorly trained staff, so that they could conduct gain-of-function research, not in their fancy P4 lab, but in a level-2 lab where technicians wore nothing more sophisticated than perhaps a hairnet, latex gloves, and a surgical mask, instead of the bubble suits used when working with dangerous viruses. Chinese scientists in Wuhan reported being routinely bitten and urinated on by laboratory animals. Why anyone would outsource this dangerous and delicate work to the People's Republic of China, a country infamous for industrial accidents and massive explosions that have claimed hundreds of lives, is completely beyond me, unless the aim was to start a pandemic on purpose.

In November of 2019, three technicians at the Wuhan Institute of Virology developed symptoms consistent with a flu-like illness. Anthony Fauci, Peter Daszak, and Ralph Baric knew at once what had happened, because back channels exist between this laboratory and our scientists and officials.

December 12th, 2019, Ralph Baric signed a Material Transfer Agreement (essentially, an NDA) to receive Coronavirus mRNA vaccine-related materials co-owned by Moderna and NIH. It wasn't until a whole month later, on January 11th, 2020, that China allegedly sent us the sequence to what would become known as SARS-CoV-2. Moderna claims, rather absurdly, that they developed a working vaccine from this sequence in under 48 hours.

Stephane Bancel, the current CEO of Moderna, was formerly the CEO of bioMérieux, a French multinational corporation specializing in medical diagnostic tech, founded by one Alain Merieux. Alain Merieux was one of the individuals who was instrumental in the construction of the Wuhan Institute of Virology's P4 lab.

The sequence given as the closest relative to SARS-CoV-2, RaTG13, is not a real virus. It is a forgery. It was made by entering a gene sequence by hand into a database, to create a cover story for the existence of SARS-CoV-2, which is very likely a gain-of-function chimera produced at the Wuhan Institute of Virology and was either leaked by accident or intentionally released.

The animal reservoir of SARS-CoV-2 has never been found.

This is not a conspiracy “theory”. It is an actual criminal conspiracy, in which people connected to the development of Moderna’s mRNA-1273 are directly connected to the Wuhan Institute of Virology and their gain-of-function research by very few degrees of separation, if any. The paper trail is well-established.

The lab-leak theory has been suppressed because pulling that thread leads one to inevitably conclude that there is enough circumstantial evidence to link Moderna, the NIH, the WIV, and both the vaccine and the virus’s creation together. In a sane country, this would have immediately led to the world’s biggest RICO and mass murder case. Anthony Fauci, Peter Daszak, Ralph Baric, Shi Zhengli, and Stephane Bancel, and their accomplices, would have been indicted and prosecuted to the fullest extent of the law. Instead, billions of our tax dollars were awarded to the perpetrators.

The FBI raided Allure Medical in Shelby Township north of Detroit for billing insurance for “fraudulent COVID-19 cures”. The treatment they were using? Intravenous Vitamin C. An antioxidant. Which, as described above, is an entirely valid treatment for COVID-19-induced sepsis, and indeed, is now part of the MATH+ protocol advanced by Dr. Paul E. Marik.

The FDA banned ranitidine (Zantac) due to supposed NDMA (N-nitrosodimethylamine) contamination. Ranitidine is not only an H2 blocker used as antacid, but also has a powerful antioxidant effect, scavenging hydroxyl radicals. This gives it utility in treating COVID-19.

The FDA also attempted to take N-acetylcysteine, a harmless amino acid supplement and antioxidant, off the shelves, compelling Amazon to remove it from their online storefront.

This leaves us with a chilling question: did the FDA knowingly suppress antioxidants useful for treating COVID-19 sepsis as part of a criminal conspiracy against the American public?

The establishment is cooperating with, and facilitating, the worst criminals in human history, and are actively suppressing non-vaccine treatments and therapies in order to compel us to inject these criminals’ products into our bodies. This is absolutely unacceptable.

COVID-19 Vaccine Development and Links to Transhumanism:

This section deals with some more speculative aspects of the pandemic and the medical and scientific establishment’s reaction to it, as well as the disturbing links between scientists involved in vaccine research and scientists whose work involved merging nanotechnology with living cells.

On June 9th, 2020, Charles Lieber, a Harvard nanotechnology researcher with decades of experience, was indicted by the DOJ for fraud. Charles Lieber received millions of dollars in grant money from the US Department of

Defense, specifically the military think tanks DARPA, AFOSR, and ONR, as well as NIH and MITRE. His specialty is the use of silicon nanowires in lieu of patch clamp electrodes to monitor and modulate intracellular activity, something he has been working on at Harvard for the past twenty years. He was claimed to have been working on silicon nanowire batteries in China, but none of his colleagues can recall him ever having worked on battery technology in his life; all of his research deals with bionanotechnology, or the blending of nanotech with living cells.

The indictment was over his collaboration with the Wuhan University of Technology. He had double-dipped, against the terms of his DOD grants, and taken money from the PRC's Thousand Talents plan, a program which the Chinese government uses to bribe Western scientists into sharing proprietary R&D information that can be exploited by the PLA for strategic advantage.

Charles Lieber's own papers describe the use of silicon nanowires for brain-computer interfaces, or "neural lace" technology. His papers describe how neurons can endocytose whole silicon nanowires or parts of them, monitoring and even modulating neuronal activity.

Charles Lieber was a colleague of Robert Langer. Together, along with Daniel S. Kohane, they worked on a paper describing artificial tissue scaffolds that could be implanted in a human heart to monitor its activity remotely.

Robert Langer, an MIT alumnus and expert in nanotech drug delivery, is one of the co-founders of Moderna. His net worth is now \$5.1 billion USD thanks to Moderna's mRNA-1273 vaccine sales.

Both Charles Lieber and Robert Langer's bibliographies describe, essentially, techniques for human enhancement, i.e. transhumanism. Klaus Schwab, the founder of the World Economic Forum and the architect behind the so-called "Great Reset", has long spoken of the "blending of biology and machinery" in his books.

Since these revelations, it has come to the attention of independent researchers that the COVID-19 vaccines may contain reduced graphene oxide nanoparticles. Japanese researchers have also found unexplained contaminants in COVID-19 vaccines.

Graphene oxide is an anxiolytic. It has been shown to reduce the anxiety of laboratory mice when injected into their brains. Indeed, given SARS-CoV-2 Spike's propensity to compromise the blood-brain barrier and increase its permeability, it is the perfect protein for preparing brain tissue for extravasation of nanoparticles from the bloodstream and into the brain. Graphene is also highly conductive and, in some circumstances, paramagnetic.

In 2013, under the Obama administration, DARPA launched the BRAIN Initiative; BRAIN is an acronym for Brain Research Through Advancing Innovative Neurotechnologies®. This program involves the development of brain-computer interface technologies for the military, particularly non-invasive, injectable systems that cause minimal damage to brain tissue when removed. Supposedly, this technology would be used for healing wounded soldiers with

traumatic brain injuries, the direct brain control of prosthetic limbs, and even new abilities such as controlling drones with one's mind.

Various methods have been proposed for achieving this, including optogenetics, magnetogenetics, ultrasound, implanted electrodes, and transcranial electromagnetic stimulation. In all instances, the goal is to obtain read or read-write capability over neurons, either by stimulating and probing them, or by rendering them especially sensitive to stimulation and probing.

However, the notion of the widespread use of BCI technology, such as Elon Musk's Neuralink device, raises many concerns over privacy and personal autonomy. Reading from neurons is problematic enough on its own. Wireless brain-computer interfaces may interact with current or future wireless GSM infrastructure, creating neurological data security concerns. A hacker or other malicious actor may compromise such networks to obtain people's brain data, and then exploit it for nefarious purposes.

However, a device capable of writing to human neurons, not just reading from them, presents another, even more serious set of ethical concerns. A BCI that is capable of altering the contents of one's mind for innocuous purposes, such as projecting a heads-up display onto their brain's visual center or sending audio into one's auditory cortex, would also theoretically be capable of altering mood and personality, or perhaps even subjugating someone's very will, rendering them utterly obedient to authority. This technology would be a tyrant's wet dream. Imagine soldiers who would shoot their own countrymen without hesitation, or helpless serfs who are satisfied to live in literal dog kennels.

BCIs could be used to unscrupulously alter perceptions of basic things such as emotions and values, changing people's thresholds of satiety, happiness, anger, disgust, and so forth. This is not inconsequential. Someone's entire regime of behaviors could be altered by a BCI, including such things as suppressing their appetite or desire for virtually anything on Maslow's Hierarchy of Needs.

Anything is possible when you have direct access to someone's brain and its contents. Someone who is obese could be made to feel disgust at the sight of food. Someone who is involuntarily celibate could have their libido disabled so they don't even desire sex to begin with. Someone who is racist could be forced to feel delight over cohabiting with people of other races. Someone who is violent could be forced to be meek and submissive. These things might sound good to you if you are a tyrant, but to normal people, the idea of personal autonomy being overridden to such a degree is appalling.

For the wealthy, neural laces would be an unequalled boon, giving them the opportunity to enhance their intelligence with neuroprosthetics (i.e. an "exocortex"), and to deliver irresistible commands directly into the minds of their BCI-augmented servants, even physically or sexually abusive commands that they would normally refuse.

If the vaccine is a method to surreptitiously introduce an injectable BCI

into millions of people without their knowledge or consent, then what we are witnessing is the rise of a tyrannical regime unlike anything ever seen before on the face of this planet, one that fully intends to strip every man, woman, and child of our free will.

Our flaws are what make us human. A utopia arrived at by removing people's free will is not a utopia at all. It is a monomaniacal nightmare. Furthermore, the people who rule over us are Dark Triad types who cannot be trusted with such power. Imagine being beaten and sexually assaulted by a wealthy and powerful psychopath and being forced to smile and laugh over it because your neural lace gives you no choice but to obey your master.

The Elites are forging ahead with this technology without giving people any room to question the social or ethical ramifications, or to establish regulatory frameworks that ensure that our personal agency and autonomy will not be overridden by these devices. They do this because they secretly dream of a future where they can treat you worse than an animal and you cannot even fight back. If this evil plan is allowed to continue, it will spell the end of humanity as we know it.

Conclusions:

The current pandemic was produced and perpetuated by the establishment, through the use of a virus engineered in a PLA-connected Chinese biowarfare laboratory, with the aid of American taxpayer dollars and French expertise.

This research was conducted under the absolutely ridiculous euphemism of "gain-of-function" research, which is supposedly carried out in order to determine which viruses have the highest potential for zoonotic spillover and preemptively vaccinate or guard against them.

Gain-of-function/gain-of-threat research, a.k.a. "Dual-Use Research of Concern", or DURC, is bioweapon research by another, friendlier-sounding name, simply to avoid the taboo of calling it what it actually is. It has always been bioweapon research. The people who are conducting this research fully understand that they are taking wild pathogens that are not infectious in humans and making them more infectious, often taking grants from military think tanks encouraging them to do so.

These virologists conducting this type of research are enemies of their fellow man, like pyromaniac firefighters. GOF research has never protected anyone from any pandemic. In fact, it has now started one, meaning its utility for preventing pandemics is actually negative. It should have been banned globally, and the lunatics performing it should have been put in straitjackets long ago.

Either through a leak or an intentional release from the Wuhan Institute of Virology, a deadly SARS strain is now endemic across the globe, after the WHO and CDC and public officials first downplayed the risks, and then intentionally incited a panic and lockdowns that jeopardized people's health and their livelihoods.

This was then used by the utterly depraved and psychopathic aristocratic class who rule over us as an excuse to coerce people into accepting an injected poison which may be a depopulation agent, a mind control/pacification agent in the form of injectable "smart dust", or both in one. They believe they can get away with this by weaponizing the social stigma of vaccine refusal. They are incorrect.

Their motives are clear and obvious to anyone who has been paying attention. These megalomaniacs have raided the pension funds of the free world. Wall Street is insolvent and has had an ongoing liquidity crisis since the end of 2019. The aim now is to exert total, full-spectrum physical, mental, and financial control over humanity before we realize just how badly we've been extorted by these maniacs.

The pandemic and its response served multiple purposes for the Elite:

- Concealing a depression brought on by the usurious plunder of our economies conducted by rentier-capitalists and absentee owners who produce absolutely nothing of any value to society whatsoever. Instead of us having a very predictable Occupy Wall Street Part II, the Elites and their stooges got to stand up on television and paint themselves as wise and all-powerful saviors instead of the marauding cabal of despicable land pirates that they are.
- Destroying small businesses and eroding the middle class.
- Transferring trillions of dollars of wealth from the American public and into the pockets of billionaires and special interests.
- Engaging in insider trading, buying stock in biotech companies and shorting brick-and-mortar businesses and travel companies, with the aim of collapsing face-to-face commerce and tourism and replacing it with e-commerce and servitization.
- Creating a casus belli for war with China, encouraging us to attack them, wasting American lives and treasure and driving us to the brink of nuclear armageddon.
- Establishing technological and biosecurity frameworks for population control and technocratic- socialist "smart cities" where everyone's movements are despotically tracked, all in anticipation of widespread automation, joblessness, and food shortages, by using the false guise of a vaccine to compel cooperation.

Any one of these things would constitute a vicious rape of Western society. Taken together, they beggar belief; they are a complete inversion of our most treasured values.

What is the purpose of all of this? One can only speculate as to the perpetrators' motives, however, we have some theories.

The Elites are trying to pull up the ladder, erase upward mobility for large segments of the population, cull political opponents and other "undesirables", and put the remainder of humanity on a tight leash, rationing our access to certain goods and services that they have deemed "high-impact", such as automobile use, tourism, meat consumption, and so on. Naturally, they will continue to have their own luxuries, as part of a strict caste system

akin to feudalism.

Why are they doing this? Simple. The Elites are Neo-Malthusians and believe that we are overpopulated and that resource depletion will collapse civilization in a matter of a few short decades. They are not necessarily incorrect in this belief. We are overpopulated, and we are consuming too many resources. However, orchestrating such a gruesome and murderous power grab in response to a looming crisis demonstrates that they have nothing but the utmost contempt for their fellow man.

To those who are participating in this disgusting farce without any understanding of what they are doing, we have one word for you. Stop. You are causing irreparable harm to your country and to your fellow citizens.

To those who may be reading this warning and have full knowledge and understanding of what they are doing and how it will unjustly harm millions of innocent people, we have a few more words.

Damn you to hell. You will not destroy America and the Free World, and you will not have your New World Order. We will make certain of that.

Dr. Lawrence Palevsky Discloses the Dangers and Unknown Risks of Vaccines

Introduction

I think this talk about vaccines by Dr. Palevsky is nothing short of outstanding! He is talking about regular vaccines given to children, which, in my opinion, are harmful but not even nearly as harmful as the Covid-19 vaccines! My first son, Jeremy, was vaccinated at only 5 months old, and he was not a normal child. It was only after Jeremy became older that I found information from the Internet that led me to think Jeremy has a type of autism known as Asperger syndrome. And I firmly believe it was due to the vaccination he received when he was a baby. His brother Timothy was never vaccinated and is normal. Timothy has lots of friends. Jeremy has few friends

and is not a social person like Timothy is.

It's my hope that after you listen to or read this talk by Dr. Palevsky that you will question everything you hear from the mainstream media that is called "science". It may not be true science at all, only opinions, assumptions, conjectures, or speculations that are pushed by big corporations whose interest is only in profit for their shareholders, and not in your well-being! If you're a Bible believer, you *know* when you hear scientists talk about Darwin's evolution, they are not talking about real science which is based on observation and measurement. They absolutely refuse to consider God the Creator in the equation in spite of all the evidence that abounds in nature that manifests intelligent design. There is no design without a designer! True science is a quest for knowledge. An honest scientist will follow the evidence wherever it leads.

My name is Dr. Lawrence Palevsky. I'm a pediatrician, originally trained at NYU School of Medicine, graduated in 1987, finished my residency at Mount Sinai Hospital in New York in 1990, did a fellowship at the Bellevue Hospital in the outpatient department. The first nine years of my career were spent in ERs, running an intensive care unit, working in a neonatal intensive care unit, working inpatient in the hospital, working in a clinic and then eventually having a private practice.

In 1983, when I started medical school, I was taught vaccines were safe, and they were effective, but I was not taught about any of the science around their safety, or any of the studies around how safety were done. And it wasn't until 1998 that a mother came up to me and said, "Dr. Larry, did you know that there's mercury in vaccines?" And I said, "No, I did not." And as a medical student, I was trained to critically think. If you see an observation, you go after it, and try and figure out if there's a question to ask. So instead of just ignoring it, I looked further into the vaccine ingredients. And I found that there were a number of vaccine ingredients that in animal studies were proven to be very dangerous to animals. And I didn't understand why these same ingredients were actually in vaccines.

I'm starting to hear stories from parents, not dozens, not hundreds, but 1000s of stories from parents, who took a very healthy child into their doctor's office, and then found that their child lost much of their health, whether it was their speech, whether seizures, whether it was death, whether it was asthma, allergies, eczema, whether it was autism, whether it was learning disabilities, whether it was inflammatory bowel disease, autoimmune diseases. And every one of those parents were told, it had nothing to do with the vaccine, every single one. And this continues today. But yet, when I look at the ingredients that are in the vaccines, I have the science to actually explain how these medical problems could be happening in these children.

Today, one child in five is learning disabled. In 1976 it was one in 17. One in six under age eight, one in two adolescents, and one in four young adults are diagnosed with a mental behavioral, or emotional disorder. One in 20

children under the age of five have seizures. One child in 40 develops autism. The number of cases of children and adults with autoimmune diseases is rising exponentially. It's one of the highest-rising diseases in this country. And the vaccine ingredients, if you are willing to look at them, and understand how they work when they're injected into the body, can be seen to be responsible for every single one of these cases.

So what are these ingredients? Well, when I was in medical school, we were taught that the body has something called the *blood-brain barrier*. The blood-brain barrier is like Fort Knox to the brain. Elements of the bloodstream cannot get into the brain. And those elements include drugs, viruses, and bacteria, among other things that are in the blood. Drug companies were very concerned about being able to develop drugs to get the drugs into the brain. And so they used something called a nanoparticle, nanoparticle, very small particle, bound to the drug. And they found that **if they could put a nanoparticle onto a drug, they could get that drug to go into the brain**. And it shows in animal studies, that they were able to do this.

They then were able to take an emulsifier which is something that's good with water and fat, it can dissolve in both. And if they added the emulsifier to the nanoparticle bound to the drug, **they could increase drug entry into the brain 20 fold**. This is right out of animal studies that I found. So you have a drug, you have a nanoparticle, and you have this emulsifier. The vaccines are constructed the same way. You have the vaccine viruses and bacteria that are bound to a nanoparticle called aluminum, and that aluminum is a nanoparticle. And by definition, a nanoparticle has the potential to enter the brain.

Most vaccines also contain polysorbate 80, or sorbitol. Both of those compounds are emulsifiers. Emulsifiers bind very tightly to the nanoparticle aluminum, which is bound very tightly to the vaccine antigens. This raises a question: If the vaccine model is the same model as the model that the drug companies are using to enhance the delivery of drugs into the brain, is it possible that vaccine ingredients are making their way into the brain of our children? That could explain why so many parents are watching their kids deteriorate after vaccinations, even though the doctors, the media, and the government say absolutely no connection, even though the science suggests that there is. You cannot find a single study in the literature that addresses whether the injection of aluminum into the body penetrates the brain, whether any vaccine ingredients enter the brain, and whether polysorbate 80 enhances the delivery of any of those ingredients into the brain. And when I could not find those studies, I was concerned, because I'm told you're told vaccines are evaluated, and very, very distinctly tested for safety. But yet, you cannot find a study that says, "Does aluminum get into the brain of children? Does aluminum take other vaccine ingredients into the brain that don't belong in the brain?" Because when ingredients get across the blood-brain barrier that don't belong in the brain, they cause inflammation. And inflammation is what we see in one in five children with learning disabilities, and one in 40 children with autism. And all you have to do is ask the guidance counselors. And if you get honest pediatricians who are telling you what they're seeing in their practice, they're seeing kids

one after another with more and more brain disorders.

Now, as a medical doctor, who was taught to think and then went into the literature, and said, Are proper science studies done? – safety studies – where you take a vaccine and you inject it into 100 kids, and then you give 100 kids a saline placebo, meaning it's inert. No study exists to actually evaluate the safety of a vaccine compared to a placebo group. None.

When vaccines are studied, the maximum amount of days that vaccines are studied are up to 10 days to two weeks. And unfortunately, the vaccine manufacturers preselect what side effects they will allow to be associated with the vaccines. So if a child has a vaccine reaction that is associated with the vaccine, the vaccine manufacturers will decide whether or not it should or should not be associated with a vaccine. And the public knows this, and they're learning it more and more. So if your child develops seizures five months after a vaccine, your child is told by the doctor it had nothing to do with the vaccine. But that's not true. Because there are no studies to prove it. There's opinion, but there's never been a study, really addressing whether a vaccination at two months, or even nine hours of age, could be related to an event that happened months or even years later. And yet we have some of the sickest children in our country.

In New York, we lost the religious exemption on June 13, because the unvaccinated children with a religious exemption were blamed for a measles outbreak. When I met with representatives in New York, I told them that there is no study to prove that unvaccinated children have ever been proven to start an epidemic. And he was surprised and he said, "I will vote against removing the religious exemption if I can't find a study, like you said." He could not find a study, but he voted to repeal the exemption anyway. Because there are no studies. There are no studies proving that unvaccinated children are responsible. There's consensus, and here's why there's consensus:

We are taught that vaccines stop the children from carrying the germs that we are vaccinating against. And **study after study shows that children who are vaccinated can still carry the germ, despite having received the vaccine.** So, the vaccinated are still capable of spreading disease. But **the unvaccinated are being unfairly blamed because of a consensus opinion, but not true science.** To repeat, no study, no science has ever proven that vaccines eliminate the existence of the organism in your body. If anything, science is showing that the vaccines cause the organisms to mutate, and there are plenty of articles showing that strains are replaced by new strains after vaccination, similarly, to the way antibiotics are bringing about new strains of bacteria because of the overuse of antibiotics.

So why are we blaming the unvaccinated children? No study has ever been done in this country appropriately to address the health outcomes of children who are vaccinated, versus the children who are unvaccinated. I have been seeing families in my practice for over 20 years that have opted out of vaccination. They are the healthiest children I have ever seen. I have families who have older children who have been vaccinated, middle children who have been partially vaccinated, and then younger children who have not been vaccinated at all. And those families are rising in number. And they see the difference

between the health outcomes of their younger children who are rarely sick, versus their older children who are getting IDPs (?) in schools, needing medications, ERs and constant health issues. And all I get when I hear that, when I state something like that is, "Well, that's anecdotal." Well, it's anecdotal if you see it a couple of times. But it's not anecdotal when you see it for over 20 years, and when you speak to parents, and when you speak to teachers, and when you speak to guidance counselors.

And when I speak to pediatricians who were too afraid to come out in public, there is pressure to ostracize the families who know the science and know the lack of science that's available. There's a lot of consensus. And when I think about the subject of vaccination, I want to ensure that if we're going to prevent infectious diseases in children, that we don't create something worse in its place.

Unfortunately, we're dealing with a lot of beliefs instead of actual science, and beliefs go a long way. I took the oath of "first do no harm". But when I look into the science, and I don't see long term studies, and I see only short-term studies, up to four to 10 days, where the side effects are manipulated by the manufacturers who are the only ones doing the studies on the vaccines. And when I see no placebo groups, and I see no studies of the single ingredients or the combined ingredients, and I see the science, the biochemistry of the ingredients in animal studies, where animals who are given the aluminum are found to have motor delays and behavioral problems, which is a great deal of what we're seeing in children today, I say, are we first doing no harm? And so, first do no harm means the precautionary principle. And more and more parents are understanding the dangers of vaccines. And that's why we're seeing such pressure to mandate vaccines because more of the science is coming out.

In order to create herd immunity, you have to be able to prove that children who are vaccinated are immune. And the sad part about that is that whenever you vaccinate a population of children, you're always going to have a population that doesn't develop any antibodies at all. The estimates of that are about 10% that vaccines will fail in 10% of the population. Vaccination, no antibody production. But the next group is even more suspicious. Because when you vaccinate, and you do produce an antibody, there is science to show that the presence of an antibody doesn't guarantee immunity either. And we don't know the percentage of children who get a vaccine, develop an antibody, but aren't immune at all. We assume that if we vaccinate, we're getting protection. **We assume that if we vaccinate, we're stopping spread of disease. Those are assumptions that have never been solidified in science.** And I'm happy to offer more explanations during the Q&A. I wouldn't say that if I didn't have the science to prove it.

The parents that I work with a New York that I see around the country are very concerned that their rights are being taken away, that their knowledge about the science is being pushed away by an agenda that only says unvaccinated children are a problem.

Just to wrap up, in California when they had a measles outbreak, there were 194 cases. Of the 194 cases, 73 cases were due to the actual virus in the

vaccine itself. Seventy-three, 38%, 73 cases were due to the measles virus causing measles. All the literature states that measles virus infection is not true measles and should not be counted as a health threat. That means only 121 Kids developed measles, 121 people. New York State did not do the proper testing that's given down by the CDC to test every child to see if the children had measles strain, wild type measles or a mutated measles. There are cases around the country and around the world where in a 95 ~ 98% vaccinated population they had measles outbreaks, because they found mutated viruses. As I said before, there are cases where the virus mutates, where they're strain replacements. New York State did not do the proper testing of the 1000 plus young children and adults who came down with measles. They wrote a little blurb on the CDC website of the two wild viruses that were responsible for the measles outbreak. But we in New York know that the testing was not done. Four thousand two hundred kids on Long Island had the religious exemption and were not vaccinated. And there was not one case of measles on Long Island.

Thank you.

How Are Forced Covid Vaccinations Different From The Mark Of The Beast? They Aren't!

All lovers of liberty should be against mandatory vaccinations. They are against the principles laid out in the Nuremberg Code (1947) which states:

The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without

the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.

You can read all 10 points of the Nuremberg Code on <http://www.cirp.org/library/ethics/nuremberg/>

Below is a message from Pastor Chuck Baldwin to Liberty Fellowship on Sunday, August 22, 2021. You busy people can read the transcript of the main part of the message below the video.

All right, open your Bibles, if you would with me, please to the book of Revelation, the book of Revelation, chapter 13. I'm going to pull out two verses from this chapter, as the text for the message, Revelation chapter 13. And the two verses are verses 16 and 17. Again, Revelation chapter 13, verses 16, and 17.

Revelation 13:16 And he (the Beast) causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:

Now, just a pause for a moment, when we get into our detailed discussion on prophecy will go into this much more, of course, but just for now, you have to understand that most of the book of Revelation is written in allegorical form. And that's true here in the Passage. In their right hand or in their foreheads does not necessarily mean some kind of a tattoo in your right hand or forehead, literally. The term forehead and right hand would immediately resonate with the Hebrew Christians who were reading this prophecy of John, because under the old covenant, the Hebrews, many of them would wear phylacteries, on their heads, and on their arms. And so this was definitely a symbolic allegory to that. And even though the book itself was written in Greek, the Hebrew believers would have definitely understood the right hand, and the forehead, meaning accepting, in the case of the Hebrews, under the old covenant, it would have meant accepting the law of the Lord, with your heart, and mind and with your body. So the mind and then the arm, representing the totality of the human being, body, soul, spirit, heart. And so that was the symbolism of the phylacteries that the Hebrews would wear under the old covenant. So when he talks about this, pertaining to the Beastly System, he's saying, that you will accept this System with your whole heart, with your mind with your flesh. And that's, that's the meaning of this.

Revelation 13:17 And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.

So I'll read it one more time without the comment.

Revelation 13:16 And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:

17 And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.

In other words, **if you do not accept the authority of the Beast, over your life, by whatever Mark is meant, you would not be able to function in society.** You would not be able to purchase to buy to travel to work, you must submit to the authority of the Beast. You must have the Mark of the Beast, whatever specifically that refers to, or you will not be able to conduct business, to work, and to live in the Beastly society. That's what the verse is saying.

This week, an article appeared on [theburningplatform.com/](https://www.theburningplatform.com/). And I'd like to read this to you.

Now, in France, where this column originates or this article, the Mark is called a Pass. If you do not have a Pass, showing that you have been vaccinated with the COVID vaccines, you are not able to conduct yourself in society throughout the country of France. So as I read the article, I have no idea whether this individual is a Christian or not, there's no reference to that. But in the article, he refers to the Pass. Okay. So instead of using the word Pass, every time it appears, I'm going to use the word Mark, because it's one and the same. The Pass is the Mark. The Mark is a Pass. It's identical in definition. So I'm going to use the word Mark. Every time he used the word Pass. Let me read it.

(From <https://www.theburningplatform.com/2021/08/15/message-from-france/>)

Here in France, it has gone to the extreme with the health Mark. Last week on the 21st, all restaurants, bars, coffee shops, and any leisure activities like sporting events, theaters, cinemas, museums were closed to anyone without the Mark. And all staff at these places are mandated to get the jab to keep their job. It is now a six month prison sentence. If you are caught inside any of these places without the Mark, business owners will get a fine of 45,000 euros and one year prison sentence if they do not comply with the use of the Mark and force all their employees to get the jab.

So the result? All the low paid employees quit, they can make more on welfare here. (for now) We can still technically "get take out food" but I just tried last night and every restaurant in our town (that is dine in with take out) has closed their doors due to the lack of staff.

As of last week ALL doctors, nurses and health industry workers have been mandated to get the jab or lose their license, practice, job, business etc. (ALL health care here is Govt paid positions and there are no private health care Doctors or Hospitals etc.)

That no man might buy or sell. Save he that had the Mark or the name of the Beast, or the number of his name.

Continuing with this article:

As of Aug 1st ALL large malls, retail stores and grocery store owners and their staff need to be jabbed and the health Mark is required to enter for employees and customers.

You cannot even get in the grocery stores, malls etc. without the Mark.

This would be the equivalent to closing ALL Targets, Walmarts, Costcos, Home Depots, and all major grocery stores. (basically any building over 20,000 square meters) to those without "the Mark".

As of Sept 15th all public areas and access will be off limits. No farmers markets, no parks, no national parks, lakes, rivers, beaches, recreation areas, campsites etc. and no gathering over 100 people, no churches, no weddings, etc. (Without the Mark.)

As of Oct 1st ALL small vendors such as, delis, pizza trucks, sandwich shops, butchers, bakers, vegetable stands etc. (Will be off limits if you don't have the Mark.

So as of Oct 1st I will only be able to purchase food by internet and pick up (if the store allows it).

Is it me or does all this seem a bit extreme for a "pass" that isn't exactly working?

America Canada England Australia New Zealand you'd better wake up.

All over the United States, government employers and many private companies are mandating their employees take the jab or lose their jobs – as we found out from this dear lady from Missouri today. Paul Craig Roberts wrote a great article that was picked up on [Lewrockwell.com](https://www.lewrockwell.com/2021/08/paul-craig-roberts/why-are-we-being-deceived-about-covid/) this week. Paul was former assistant treasury secretary under Ronald Reagan, as most of you know. And I quote his brief column.

(From <https://www.lewrockwell.com/2021/08/paul-craig-roberts/why-are-we-being-deceived-about-covid/>)

Why have US corporations involved themselves in public health policy? Why have they taken a position that is totally contradicted by all facts and all known evidence?

And you see, if you don't understand the spiritual nature of this Beastly system, if you don't understand that this is not science, this is not medicine, this is spiritual deception, then you're not going to understand why all of this is happening. And Paul, that's that's why he's asking the

question. He may not understand the spiritual significance of this.

It is not only democratic governments that have turned totalitarian but also private corporations who are asserting authority to override the Nuremberg Laws and mandate that employees be vaccinated with the Covid Vaccine. A vaccination is a medical procedure and requires informed consent.

It is very strange to find corporations recruited to serve a coerced marketing campaign. We hear about the “pandemic of the unvaccinated.” But there is no such pandemic. All evidence shows that the majority of new cases are among the double inoculated.

The majority of people are those who’ve been inoculated.

Public officials and the pressitutes (the media) are implying that it is those who refuse the vaccine who are responsible for the new outbreak when to the contrary it is the vaccinated people who are the cause of the variants and new illnesses. As Dr. Malone, the inventor of the mRNA technology used to create the vaccine has patiently explained, **the vaccine trains the virus to produce variants that escape vaccines.**

[Considering the enormous number of deaths and injuries associated with the vaccine](#), we are faced with the conclusion that the vaccine gives those vaccinated Covid illnesses.

No evidence exists that supports the claim of CDC director Rochelle Walensky that the delta variant is a “pandemic of the unvaccinated.”

No evidence exists that the vaccine protects against Covid. Indeed, the vaccine seems to spread the virus.

We have learned that there is no such thing as “fully vaccinated.” The new program is endless booster shots every few months, the result of which will be an explosion in adverse effects from the vaccine.

The Covid policy is so counterfactual and so contradicted by all evidence that conspiracy theorists who see a darker agenda at work are gaining credibility.

And for Paul Craig Roberts to say that, that’s significant. And then he concludes,

When a vaccine has proven itself not to protect but to cause unprecedented deaths and illnesses, how can any intelligent person

arrive at the conclusion that more vaccine is the solution?

Just this week, we learned that two of my congregates from my former pastor, died after receiving the COVID vaccination. One of them was in her 40s. Two people that I personally knew as their pastor died this week, and both having taken the COVID vaccination. For those of you around the country, you should know that our state here in Montana is the only state in the United States to ban vaccine requirements for employees. And that was the direct result of a massive input from the grassroots citizenry of this country, and some great legislators who had a determined position to bring this legislation to the legislature, and the governor had the guts to sign it. And it's the law of our state that no business can require the vaccine for their employees as a condition for employment. And we're the only state in the country with such a law. And as you can imagine, pressure is coming in from all over the country, on our state government, our legislators and our governor to reverse this law.

Next week, would you please bring with me, the names of our legislative leaders, our governor, our Majority Leader, and majority Senate and House and all the leadership, and we need to start letting these people know that they cannot buckle to the pressure of outside influences, to try and undo the constitutional acts of the legislature supported by the people of the state of Montana. It's very important that we stand in the gap with our legislative because I'm telling you, right now, the pressure is immense, including economic bribery attempts in order to get them to reverse because we're the one state the only state that has done this, and they don't want other states copying this. And so they're going to try to stop it here in Montana. It's very important that we get involved in this, will have those names. And if you have the names yourself, don't wait for us to give them to you. You can start contacting them this week. Tell them thank you so much for what you've done and do not submit to the pressure. We are behind you.

With that in mind, I'm gonna give you a couple of other articles that were in the news this week that I think are so very relevant to the message of the hour. This comes from attorney Thomas Renz and his [website](#). The title of it, "Bombshell lawsuit alleges government covering up tens of thousands of injection-related deaths". Attorney Thomas Renz, filed a lawsuit in federal court in Alabama on July 19, that alleges a massive government cover-up of injection-related US deaths, that number "at least 45,000". The suit filed on behalf of America's Frontline Doctors in US District Court for the Northern District of Alabama, is based on a sworn statement by a government insider under federal Whistleblower Protection. America's Frontline Doctors, a nonprofit, filed a motion seeking immediate injunction injunctive relief to stop the emergency youth authorization of COVID-19 vaccines for three groups of Americans, anyone under the age of 18, anyone who has recovered from COVID-19, and those who haven't get been given informed consent as defined by federal law.

Speaking at a reawaken tour event held July 17 and 18 in Anaheim, California, Renz made the bombshell announcement, he says is based on a whistleblower with access to government computers, and can prove that at least 45,000

Americans have already been killed by the three COVID-19 vaccines authorized for emergency use by the FDA. 45,000 according to this source, people have died after receiving the COVID injection. Well, I can vouch for at least two of those.

Then there was another report that I want to share. This is [from LeoHohmann.com](https://leohohmann.com). The doctor cites whistleblowers inside CDC, who claim injections have already killed 50,000 Americans. The doctor quoted is Dr. Peter McCullough. He says, "good doctors are doing unthinkable things. They appear to be under a spell. The whole world is under a spell. The spell is satanic deception. And it includes most of the pastors in America.

So I quote now the article,

The most highly cited physician on the early treatment of COVID-19 has come out with an explosive new video that blows the lid off the medical establishment's complicity in the unnecessary deaths of 10s of 1000s of Americans. Dr. Peter McCullough said these deaths have been facilitated by a false narrative bent on pushing an all-new unproven vaccine for a disease that was highly treatable. McCullough is a professor of medicine and vice chief of Internal Medicine at Baylor University. He also teaches at Texas A&M University. He is an epidemiologist, cardiologist, and internist and has testified before the Texas State Senate related to COVID-19 treatments. He holds the distinction of being the most widely cited physician in the treatment of COVID-19 with more than 600 citations in the National Library of Medicine.

The sources are plenteous that the medical profession in general, and **the CDC in particular, are deliberately hiding the numbers of deaths that have occurred among people having taken the COVID vaccination.** In the same way that the CDC and the medical establishment manipulated and exaggerated the number of deaths associated with COVID, back in the spring of 2020, when our own Dr. Annie Bukacek, got up on this platform and gave her professional analysis citing this CDCs own documents to prove the manipulation, the exaggeration that was taking place at the CDC, in order to beguile the American people regarding the threat and the danger of COVID-19. In the same way, that they exaggerated the numbers of deaths associated with COVID in 2020, is the same way that they are manipulating the numbers in 2021, **to hide the numbers of those who are dying from the COVID vaccinations.** Ladies and gentlemen, **this is not medicine, this is not science, this is blatant deception.**

And as I said, unfortunately, the vast majority of evangelical pastors and churches are fully subservient to this medical Mark of the Beast. And that's exactly what these vaccine passports or passes, call them whatever you want, that's what they are. They are **medical Marks of the Beast!** Some churches and Christian organizations – and I am not making this up – some churches and Christian organizations are even refusing to allow unvaccinated people from attending their services or participating in their Christian observances. In other words, they would not deny them communion, they would deny them baptism, they would they would deny them the Christian ordinances that we we observe as a church body, and they are denying them attendance in the

churches, because of their submission to the Beastly system. If you do not have a vaccination passport, many churches will not let you into their congregation. If you have run into that, wherever you are, would you please spread the word in your state and in your local community, that there is one church in this country where the unvaccinated will always be welcome? And that's Liberty Fellowship in Kalispell, Montana.

Now, please let me remind you of three important biblical truths that are all germane to everything we're discussing. Number one, the Israel-based pre-tribulation rapture is a myth. Let me say it again. The Israel-based pre-tribulation rapture is a myth! Why is that important? Because this Israel-based pre-tribulation rapture, deception is what the vast majority of evangelical churches have embraced for the last 100 years. As a result, they have fallen for these massive misinterpretations of Scripture, which have led evangelicals across the country to accept this medical Mark of the Beast. **If they had never accepted this phony pre-tribulation rapture myth, they would not be susceptible to the deception that is the medical Mark of the Beast.** So number one, the Israel base pre-tribulation rapture is a myth.

Number two, the Israel base seven-year tribulation itself is a myth! And when we get into our discussion of prophecy, I will elaborate on that in detail. But these two falsehoods formed the theological foundation that has opened the minds and the hearts of evangelical Christians to accept all of the lies that are now permeating the world pertaining to the phony COVID narrative, and the COVID shots in particular. Without the acceptance of this false prophecy doctrine, that deception would not have a fertile groundwork on which to grow. But those foundations of false prophecy, give fertile ground for the deception that we are now experiencing.

And number three, let me remind you again, and I've mentioned this several times in messages of the past, the Beast is not a man. It is an antichrist beastly system. It's a system. But because the evangelical world thinks that the Beast is an individual being, an individual human being that's going to come in the future after they've been raptured – and this is all for Israel – and we're not going to be here – because of that deception, they are sitting on the sidelines, saying nothing and have actually given their hearts to this medical Beastly system, out of ignorance of truth, and out of the acceptance of the falsehood of the Scofield futurism that is known as predestinational prophecy that most evangelicals all accept thanks to the ministry and the Bible of C.I. Scofield.

So I'm trying to show you the connection between false theology that has permeated the church over the last 100 years, and the acceptance of this Beastly system by the church that we are now experiencing today. And let's face it, if the Evangelical Church had not have fallen victim to this lie back in the spring of 2020, if they would have stood their ground for truth, as a church body, collectively, you and I both know that the COVID narrative would have died on the vine, it would have died before it started. But when the churches started closing their doors, when the churches started accepting the virus, when the preacher started getting up on television and telling everybody that they need to stay home and do everything to CDC said, when they did that, it gave the spiritual cover for the deception that was needed

in order for this to become the monster that it is today. Again, that's why I've told you from day number one, this is not a political issue. This is not a medical issue. This is not a science issue. This is a *spiritual* issue.

[Dr. Vladimir Zelenko Calls the Covid-19 Vaccinations Government Sanctioned Genocide!](#)

Vladimir (Zev) Zelenko (born 1973)[1] is a Ukrainian-American family physician known for promoting a three drug cocktail of hydroxychloroquine, Zinc and Azithromycin as part of an experimental outpatient treatment for COVID-19 that he has promoted as the Zelenko Protocol.

On March 23, 2020, Zelenko published an open letter to U.S. president Donald Trump where he claimed to have successfully treated hundreds of his COVID-19 patients with a 5 day course of hydroxychloroquine, azithromycin, and zinc sulfate.

Zelenko's treatment protocol quickly gained notoriety with several media figures and various U.S. administration officials promoting it, including Rudy Giuliani, Sean Hannity, and White House chief of staff Mark Meadows. – Quoted from Wikipedia

Interviewer's introduction: Dr. Vladimir Zelenko. Dr. Zelenko is a Board Certified family physician for over 20 years. He has been described by his patients as a family member to thousands of families, and he's a medical

advisor to the volunteer ambulance courts in Kiryas Joel, New York. Dr. Zelenko developed and is now famous for the *Zelenko Protocol*, which has saved countless lives worldwide. So welcome Dr. Zelenko. Thank you for joining us. And I would like you to comment on our subject, please.

Dr. Zelenko: Thank you so much for having me. Can you hear me?

Interviewer: Yes, loud and clear.

Dr. Zelenko: So I'll just give you quickly my experience, my team has directly treated successfully 6000 patients. I've trained hundreds of physicians who are now training their students. And as a cumulative group, we've treated millions of patients successfully. President Trump was my patient, Rudy Giuliani was my patient, HaRav Chaim Kanievsky has been my patient, Mr. (Yaakov) Litzman your health minister of Israel, last year, was my patient. I'm just telling you, which people have contacted me for care, including President (Jair) Bolsonaro of Brazil.

Now, my experience has given me a very unique perspective in approaching COVID-19, which is basically keeping people out of the hospital. I would like to describe, regarding children, **the only reason you would want to treat a child is if you believe in child sacrifice**, or even [garbled] if you want [garbled], like a [garbled], there are very good reasons to give them a shot. Otherwise, there's no necessity.

Let me explain. Any time you evaluate any therapeutic, you need to look at it from three perspectives. Is it safe? Does it work? And do you need it? Just because you have a capability doesn't mean that you have to use it. It has to be a medical necessity, there has to be a need for it. You look at the CDC, the statistics for children under the age of 18 that are healthy, the survival rate is 99.998% – survival rate with no treatment, just like Dr. Yeadon said, the influenza virus is more dangerous to children than COVID-19. And he made an estimate that per million, 100 children would die from vaccination. I feel the number would be significantly higher. And I'll explain to you the rationale for it.

So if you have a demographic, can you hear me? **If you have a demographic that has no risk of dying from an illness, why would you inject them with a poison death shot?**

Now, let's see if this thing works. Two countries in the world that have most vaccinated its citizens is Israel, with a high 85% rate of vaccination, and an island nation in the Indian Ocean called Seychelles, also over 80%. Both countries are experiencing a Delta variant outbreak. So let me ask you a question. If you vaccinated the majority of your population, why are you still having an outbreak? That's number one. Number two, why would you even give a third shot of the same stuff that didn't work the first two times? That's whether or not it works.

And let's talk about safety. Now, this is the real issue. There are three levels of safety toward death that we need to look at. One is acute, one is sub-acute and long-term. Acute, I'll define from the moment of injection to

three months. The number one risk of the shot is blood clots, just like Dr. Yeadon said, according to the Salk Institute, oh, by the way, everything I'm saying I will defend with documentation. And please don't take my word for it, you should do your due diligence. And I can provide to you, proof of everything that I'm saying.

According to the Salk Institute, when a person gets an injection of these "vaccines", the body becomes a spike producing factory, making trillions of spikes which migrate to the endothelium, which is the inner lining of your blood vessels, and it's basically little thorns on the inside of your vasculature. As the blood cells flow through it, they get damaged, they cause blood clots. If that happens in the heart, that's a heart attack, if that happens in the brain, that's a stroke. So we're seeing the number one cause of death in the short term is from blood clots. And most of it is happening within the first three, four days. And 40% is happening within the first three days of injection of this **poison death shot**.

Now, the other problem is that it's causing myocarditis or inflammation in the hearts of children, young adults, I'm sorry, in the hearts of young adults.

And the third problem, which is the most disturbing, is according to the New England Journal of Medicine (JAMA) article, their preliminary data, the miscarriage rate, and the first trimester woman gets vaccinated, the first trimester goes from 10% to 80%. I want you to understand what I just said. The miscarriage rate in the first trimester of pregnant women, when they get vaccinated, goes up by a factor of eight. That's preliminary data, it may change with time, but I'm just telling you what it is as of today. That's the smallest of the problem.

The second problem is the sub-acute death issue, which is the following, that the animal studies that were done with these vaccines showed that all the animals responded well, in generating antibodies. When they were challenged, however, with the virus that they were immunized against, a large percentage of them died. And when that was investigated, it was found that their immune system had killed them. It's called antibody-dependent enhancement (ADE), or pathogenic priming, or paradoxical immune enhancement. But the point is that a lot of those animals died. So you can make an argument maybe human beings are different. My answer to you, *maybe*. However, those studies were not done. **You are the study right now**, the Pfizer CEO said, Israel is the biggest laboratory in the world. And so those long-term studies to rule out that, Luc Montagnier who won the Nobel Prize in Medicine for the discovery of HIV, said that **this is the biggest risk to humanity, and the biggest risk of genocide in the history of humanity**. And so the risk of a ADE reaction in human beings, which happens later, has not been ruled out. So my question is, why would I vaccinate someone with a potentially destructive lethal substance without ruling that out first.

And the third component here is the long-term consequences. There is definite evidence that it affects fertility. damages ovarian function, that and reduces sperm counts. Number one, number two, definitely increases the amount of autoimmune diseases. Who knows over time, how that is going to reduce

lifespan. And just last week, a paper came out showing that increases the risk of cancer.

Any way you want to look at it, whether it's an acute setting, where it causes blood clots, inflammation of the heart, and miscarriages, in the midterm, sub-acute setting where it can result in a pathological disastrous immune reaction, or in the long term, whether it causes autoimmune diseases, cancer, and infertility. Now, that's a big concern. Actually, I will say it this way. In my opinion, the current Israeli government is as guilty as Josef Mengele. They have permitted, they've committed human experimentation on their own people.

And, I'm going to tell you, I hope, I hope this space does a little different. Maybe not. But I know I finally understood what I'll say that if you take sort of some close role, you should look at the ??? role in the sector sharpest. [Cannot understand this sentence.] That if you see trouble in the Jewish people, you should look at the rabbinic leadership because if the head is diseased, what do you expect of the body? I beg this base (??) to put the interest of Israel above politics, and anything else that may alter your opinions. I receive daily death threats. I risk my life, my career, my financial life, my reputation, almost my family, everything, just to sit here and tell you what I'm doing.

So I'll just summarize that there is no need for this vaccine. And there's actually no need for anyone and I'll explain. Children I already told you that they have a 99.998% chance of getting better. The young adults from 18 to 45 have a 99.95% of getting better, just according to the CDC, same concept. Someone who has already COVID that has antibodies, naturally, induced immunity is a billion times more effective than artificially induced immunity through a vaccine. So why would I vaccinate someone with a poison death shot that makes inferior or dangerous antibodies when I already have healthy antibodies? And then if you look at the high-risk population that has a 7.5% death rate, so my data, which was the first in the world, which I published in a peer-reviewed journal, which has become the basis of over 200 other studies, and that have corroborated my observations that, if you treat people in the right time frame, you reduce the death rate by 85%. So out of 600,000, Americans, we could have prevented 510,000, from going to the hospital and dying.

And by the way, I presented this information to Bibi Netanyahu directly into his hands by way of [Hebrew word?] in April of 2020. And I informed every single member of your Ministry of Health as well. So my question to you is, **if I can reduce the death rate from 7.5% to less than a half a percent, why would I use a poison death shot that doesn't work, and has tremendous and horrific side effects?**

I'll do one more mind experiment with you. If everyone on the planet were to get COVID and not get treated, the death rates globally, will be less than a half a percent. Now, I'm not advocating for that that's a lot of people, that's 35 million people would die. However, if we follow the advice of some of the "global leaders", let's say like Bill Gates said, last year, 7 billion people need to be vaccinated, the death rate will be over 2 billion people.

So wake up! This is world war three. This is a level of malfeasance and malevolence that we have not seen, probably in the history of humanity.

So I'm against child sacrifice. I'm against [Hebrew word?]. And I really believe that God is testing every human being here. And here's the test.

Are you going to bow down to me, HaShem [God]? Are you going to ask protection from Me? Are you going to take your fears, and ask Me to help? Or are you going to run to the other czar of the vaccine of your governments, of despots and tyrants, like sociopaths, who want to be deities! There's nothing new under the sun. These people are no different than pero (??). They think they're God. And you're going to bow down to them. If you're going about down to them, that's okay. Let them protect you. Let's see how that's going to work out for you.

I'm seeing fear drive people to do things that are completely irrational, do not make sense and they sacrifice their own children. And yes, your ministry of elders is lying to you. Your statistics are absolutely skewed. If you want to see something real, there's a website called <https://www.worldometers.info/> Go to [Israel](#). And you can see at December 20, there's a huge spike in the curve of deaths in Israel. Do you know what happened in Israel December 20th.? National immunization started. And these are numbers being reported by the Israeli government. They're just too stupid to hide it. There is zero justification, **zero justification for using this poison death shot unless you want to sacrifice human beings.**

I think I'm done.

Interviewer: After these words, the fact I don't think you can ever say you're done. I very much I appreciate your time and effort. Very, definite and very clear. We appreciate that.

Dr. Zelenko: Do you have any questions?

Interviewer: I have many questions. But just as 2 billion would pass out if you gave 7 billion the shot according to what the doctor said, correct?

Dr. Zelenko: Not according to what I said, according to what world experts are saying. That....If you look at Dr. Malone, who invented the mRNA technology, has the original patent for the vaccine. He's saying, "Do not use this. The government is lying to you. The side effects are horrific. " Dr. Cahill from Ireland said that, she believes within two years 90% of the people that got vaccinated will be **dead**. When Dr. Michael Yeadon – I hope he can confirm, I hope he's still there – was asked that question, he said, "you wouldn't go that far". So I don't know. Maybe it's not 90%. What is the percentage? And maybe it's not two years, maybe it's three years. And Dr. Luc Montagnier, who is the Nobel Prize winner for the discovery of HIV, saying this is the biggest risk of genocide in the history of man.

Dr. Roger Hodkinson Warns of Myocarditis and Infertility from Covid Vaccines

Introduction

Anna Brees is a journalist who used to work as a reporter on BBC. In the video, she interviews Dr. Roger Hodkinson, a noted pathologist who is not an anti-vaxxer but who is sounding the alarm about the dangerous side-effects of Covid vaccinations.

Transcript

Anna Brees: Hello, everyone, it is the 11th of June 2021. And I'm talking to Dr. Roger Hodkinson again, for a third time with a very important message. We were chatting on the phone a few minutes ago, Roger, and I thought it was incredibly important that I got you on this call, because there's a really urgent message isn't there to the public? Tell me first of all, for those who haven't heard about you before, what's your experience? What do you do? Who are you?

Dr. Hodkinson: In summary, I'm a retired pathologist living in Canada. I was trained at Cambridge in the UK in medicine, and then in pathology in Vancouver, British Columbia. I've been an assistant professor of the Faculty of Medicine at the University of Alberta. I've been Chair of the examination committee for general pathology at the Royal College of Physicians and Surgeons in Ottawa, I've been the CEO of a large commercial laboratory. I'm currently the chairman of an American company involved in molecular diagnostics, DNA sequencing for early diagnosis of cancer. So I've had a rather well-rounded career, and I think I'm quite competent to comment upon many aspects of COVID.

Anna Brees: And you're not a lone voice. And I keep saying to people, you know, there are doctors for COVID ethics, you've got PANDA (Pandemics ~ Data & Analysis), you've got heart, you've got the Frontline American doctors. And there may be a few doctors in there, you're not completely so sure about, you

know, in terms of ...

Dr. Hodkinson: Well, I'm part of, you might say, the inner circle, there are about twelve of us internationally, that converse on a regular basis offline. And I did have a conversation by email with Peter McCullough, which we'll talk about in a minute, the preeminent American cardiologist involved in COVID. And so yeah, I'm right in the thick of it. I'm extremely frustrated with what's going on. And I'm sure we'll talk about that.

Anna Brees: When I said at the beginning of this interview, is you have a really urgent message to get out to the public. So what is it?

Dr. Hodkinson: Well, this, of course, is an experimental vaccine. It should have never been released. It was never an emergency, which predicated the development of the vaccine. And as with all vaccines, there are complications, which were predictable with time, but there was never enough time given for the clinical trial, which only lasted four to six months. In particular, complications are now coming out that are very disturbing.

The latest one over the last few days starting off in Israel is the frequency of Myocarditis in young adult males. And getting worse, the younger they are in teenagers. Just so I can translate that, Myocarditis is a medical term for inflammation of the heart. Now, the CDC is calling this reality of a large number of these events – we're now up to well over 200 events in the United States recorded – the CDC is calling us an “unbalanced” realization. Well, **You're damn right it's unbalanced! It's the CDC that's unbalanced!**

Myocarditis is never mild, as they're describing it for the general public, meaning not terribly significant. The heart muscles, the cells that make up the heart muscles **never regenerate**. If one dies, they're done. It's not like the liver or the kidney that regenerates. When a heart muscle dies, it's dead and it's never replaced. Myocarditis means a generalized inflammation of the heart muscle. So muscle cells in the heart will be dying. The number is hard to determine, obviously, because the person is still alive. But I can tell you with categorical certainty, supported by Dr. (Peter) McCullough's conversation with me this morning, that Myocarditis is totally unpredictable in terms of its long-term consequences. It may only present 20 years later, because of the reserve of the heart having been destroyed. We're talking here about cardiac arrhythmias, abnormal heartbeats. We're talking about heart failure, and so on. This is a most worrying, development. And of course, it's exactly the kind of complication that would have come out of a normal clinical trial for a vaccine, which typically takes a number of years.

Anna Brees: Why did you speak to Dr. Peter McCullough? Where do you go at the moment when you're getting all this information and reports from all over the world? You know, you said you're in a group of 12. Where do you go? Where's the expertise? How can we be sure that what you're saying is something for us to take note of?

Dr. Hodkinson: Well, Dr. McCullough has his own group in the United States that I follow very carefully. I mean, communication, he's the lead of it. And I mean, frequent communication with him. In Europe, there are [doctors for COVID ethics](#), which is headed up by Dr. Sucharit Bhakdi, and Dr. Mike Yeadon,

and Dr. Michael Palmer, all with substantial reputations in their own fields. And then in South Africa, of course, there's PANDA which is headed up by Nick Hudson, with his own esteemed scientific advisory board. So yeah, I'm as plugged in as anyone can be. We're all in frequent communication with zoom calls every week. And I'm speaking, therefore, with some authority on this. I'm connected on a daily basis, with the top guys in the world.

Anna Brees: But I need to challenge you here because you want 12 or small groups, but there must be 1000s and 1000s, of doctors who completely disagree with you? Or are there they? Is there something that's keeping them quiet? I mean, why should we listen to you? And why is this so important in your experience with these groups?

Dr. Hodkinson: Let me assure you that the statistics, when the books are written, will be exactly the other way around. I suspect, and it's impossible to confirm because of the intimidation that colleges across the world are putting on individual physicians, including me. I can assure you that **there's a vast number of physicians who do not buy into this idiocy**. Physicians who are well trained can see through this immediately as so transparently stupid. It's medical idiocy of the most grotesque degree that's going on. None of the so-called mandates, first of all, are supported by any scientific consensus whatsoever. If there had been one, we would have used it in previous flu epidemics, and we never did. You simply can't solve these things. By any control, you can't solve the spread of a pandemic, with an upper respiratory tract virus, by any known names to medical science. It's simply not possible.

Anna Brees: What reaches the public that is maybe sitting on the fence? Those are the people I want to reach. What I found interesting is when I've been listening to these doctors, they were actually recommending the vaccination in January, and February, and March and even, you know, I wasn't getting any emails whatsoever. As a journalist who has quite a high profile in this situation. I wasn't getting any stories of adverse vaccine reactions, but something shifted, I would say about six weeks ago. And so these doctors were recommending it to patients. But they've actually completely changed their mind and said, **"We must halt this immediately."** So it's not you're in an anti-Vax movement in any way you were promoting the vaccine. And Dr. Mike Yeadon talked about vaccinating the vulnerable, but over the last, I don't know, two months, they've pulled back and said, "Actually, no, we need to hold back now. We no longer recommend this for our patients."

Dr. Hodkinson: Dr. Tess Lawrie is the most authoritative person on this. And she's just published a devastating analysis of the whole NES (??), with the bottom line being exactly that, that this vaccination of everybody should stop immediately. Remember, please, that the predicate for this vaccine or these vaccines, was the statement that this was a medical emergency of a most sinister global scale. Well, it never was by any definition. And so if you take away that underpinning, requirement, if you take away the emergency, there was absolutely no reason for the development of a vaccine that contravened all the normal safeguards for the introduction of something on such a global scale. There's never been ever in medical history, a vaccination program on this scale involving billions of people with the most minor attention to long-term consequences. And I do want to expand on that

because the story is not yet over.

Look, last time I checked, pregnancy takes nine months. You cannot conceivably check for fertility issues, if you're only doing a clinical trial for four to six months, but never even included pregnant women other than those that got pregnant during the trial, and there were only 40 of them.

There are very serious scientific possibilities here for long-term infertility. The studies have not been done. We do know for a fact that the placenta and the testis have a very heavy expression of the receptor for the spike protein which is being produced in large amounts by the vaccines. We do know that. We also know that during the SARS epidemic, which was a very similar organism, there were reports of a small number, but then it was a small number of people that came down with it, obviously, it was well contained. But we do know that during the SARS epidemic, there were reports of orchitis, which is a medical term for inflammation of the testis. So what I'm saying is on the male side of fertility, there are serious scientific grounds for worry. Not proven, I'm not being a scaremonger here. I'm not a conspiracy theorist, I'm not an anti-vaxxer da de da, right, I take vaccines myself.

On the female side does equal concern, because it comes out of the obscure Pfizer submission to the Japanese regulatory authority, that the vaccine particles, the little tiny lipid nanoparticles that are part of the vaccine locate very heavily in the ovary. Now, this was a rat study. But it still showed heavy localization most unexpectedly of these vaccine particles in the ovary.

End of the first 12 minutes of the transcript. I hope this inspires you to listen to the rest of the interview if you have not done so.

[Proof Our Immune System Can Protect Us from All Variants of the Coronavirus](#)

Transcript of the video

The good news today is that scientific publications have just appeared that put an end to the whole narrative. What one has been made to believe up to now is that the SARS-CoV-2 virus is so new, that our immune system will not recognize it, and therefore, when the need arises, the immune system will not respond in time with the production of antibodies, that they could save our lives. And that's why we need to be vaccinated. That's why the whole world needs to be vaccinated.

Now, scientific publications that have appeared in the last weeks, as I said, put an end to this narrative, because it turns out that the Corona SARS-CoV-2 virus and its descendants are not so different from the old normal coronaviruses that they would not be recognized by the immune system.

Now, I tried to explain this with this chart here. This is the immune system, and the immune system can make many components. One of them are the antibodies that the immune system will make when it meets a new opponent of virus. Now, depending on whether the immune system recalls that it has seen this virus before or not, the response will be slow. The first response is always slow; takes about four weeks for the antibodies to be made, and these antibodies are called IgM, immune globulin M.

If, however, the immune system has seen this virus before, and remembers it because the immune system has a memory, then it quickly makes other antibodies, which are called IgG and IgA. These are recall antibodies.

these antibodies serve principally two functions. One function is that if it's a virus that the antibodies are supposed to combat, the antibodies can try to prevent the entry of the virus into yourself. This is what the antibodies to Corona are supposed to do. They are called protective antibodies, because they protect the cell from getting infected by the virus.

If however, the cell does get infected, then lymphocytes are there behind the scenes that will come out and recognize that the cell is infected. And these killer lymphocytes have the duty to kill the cell. So once the cell is killed, the virus factory is destroyed, the virus can't be produced any more, and you get up and go back to work.

The other function of antibodies – major function – is that if the antibodies are directed against a bacterium, or a fungal, then these antibodies will bind to the bacteria. And that will cause another arm of the immune system to be activated. This is so-called complement, because it complements the action of the antibodies and leukocytes.

Leukocytes are the cells that eat. These are cells that are in your blood. And they're circulating all the time. And waiting for these bacteria to come to your blood to be coated with the antibodies and they will come and eat them. And thus are you protected by your antibodies against bacteria.

So we have actually two major arms of the immune system, one, the lymphocytes that are directed against viruses and virus infected cells, and the others are leukocytes that are directed against bacteria. It's like the Navy and the Air Force, Air Force, Navy, and both are really deadly. They take care of all the viruses that you are confronted with and all the bacteria normally.

So the question is now, is our immune system really blind to the new so called new SARS-CoV-2 virus?

Now this can be answered very simply. And for that, what one has to do is, one has to inject this virus or the virus gene into the body and see how long the immune system takes to make the antibodies against this gene. And this was done by three independent Americans research groups in the last weeks and published, so everyone can go and have a

look at these papers. And everyone should look at the papers because two questions arise.

First, was the antibody response, fast or slow? This would be fast. And this would be slow. 30 days, 10 days or five days? And if it were fast, did the antibodies carry the correct label IgM, IgA or the wrong label?

So, what do you think? I'm going to ask you, the Americans measured in the blood, the appearance of the antibodies every day. The people who are telling you that you should get vaccinated are going to say, "of course, they were IgM antibodies because this was blind to them. But the fact is the opposite. All groups found out that everyone who had been vaccinated responded with IgG, and IgA antibodies within days after the vaccination, which is absolute proof that it is a recall response to something that the immune system has recognized.

You may ask me, "How can this be?" The answer is very simple. Look, this is the hand, the grasping hand of the virus, this is the spike and the spike is there to grasp the handle of the door to yourself to get in. The antibody comes and forces itself into the jaw, like the crocodile, the mouth is open, it stops the crocodile from closing his mouth. Of course, this is not completely correct. But it will do as a picture for you.

All right. Now, this key that enters into the mouth, of course, it's not a perfect fit. So you could change a finger or two, and it will still go

in. And this is the difference between coronaviruses and influenza viruses. influenza are flu viruses, the real flu, alright, which has really caused pandemics because flu viruses can completely change the whole hand so that the hand looks like this suddenly. Okay. And then your antibodies don't fit into that. But this is something that the Coronavirus can never do. They can't, and so they can only change the shape of the fingers. And that's not enough to fool the immune system. It's that simple. And this applies to all the variants. So forget it, if someone tells you that you are not immune against the variants.

The fact is, of course, that the immune system doesn't splurge. It keeps its antibodies in a locker, just like you have money in the bank, you don't go around throwing your money out of your pocket, you get the money out of the bank when you need it. And that's what happens to the immune system. And wonderfully enough, another publication coming from Denmark, showed that true infections with the SARS-CoV-2 do exactly the same, meaning that everyone who has had an infection, even if he's asymptomatic, you know no symptoms, if the virus just gets into your throat, multiplies a bit and gets thrown out again. But even then, the immune system responds by making IgG and IgA antibodies, meaning that you have the money in the bank.

This means dear fellow citizens, that the herd immunity is already present, but kept under lock and key like a treasure. But it can be mobilized at

any time you want. This is like a dog and his master. The dog, this is the immune system. The master in this case would be the virus. So the moment the virus comes near to the house, gets back, the dog senses that the viruses is coming, begins to wagging his tail, begins barking, throwing out the antibodies to say hello to the master.

So you see, this virus always first enters through the front door goes into your throat and it takes days to multiply and if it multiplies in your throat, it doesn't matter. It only kills you if it gets to your lungs.

But now we know that this is enough time for you and me or anyone, because the Danes showed that over 99% of all people running around, have this treasure, they have the treasure, and they could mobilize the IgG and IgA antibodies, even when the virus was only in the throat. Now, isn't this a piece of wonderful news? I think it causes us to realize, it causes us to realize that we can cast the dread of this pandemic away, and return to a wonderful world, return to our friends, our beloved ones, join hands with them, and rejoice. The pandemic is not existent as a mortally dangerous new disease.

Now, the second piece of news I have for you is that this will not only cause vaccination to be unnecessary, but also says if the vaccination carries any danger whatsoever, it must be stopped because there is no benefit. And if it only

contains danger, then it is the duty of the doctors and the authorities not to undertake vaccination.

Now, let me tell you something very, very alarming. So alarming that this piece of news is just as important as the good piece of news. And this comes also from the publications that have just appeared. So we'll go back to this chart here. And I told you, in the vaccinated, they found that the IgA, and IgA antibodies came immediately. Then they waited for another two weeks or three weeks. And then they gave the people a second shot. What did you see, they saw that the IgG and IgA levels immediately continued to rise, which is what a booster is supposed to do.

However, now, listen very carefully, look at this. This is a vessel wall, this is your blood. It is now known that the genes that are injected into your body will enter the bloodstream. And it is absolutely certain now that these genes are going to enter the cells that line the vessel wall. Because these are the cells that they contact.

Now, what happens when the cells that line the vessel walls begin to produce these spikes? The spikes will then be produced by the cell and protrude from the cell surface into the bloodstream. Alright, now, these cells going to be recognized by your lymphocytes that have been given to you by the Dear Lord to kill those cells that are making the virus or the virus protein, any virus protein. So, these lymphocytes are going to mount the attack on your vessel walls.

This is the first way towards clot formation that as we know is happening all over the place all over the world. Now at the beginning after the first vaccination, this danger is bad and is already terrible in itself if your killer lymphocytes start trying to kill you. But at that time, during the first seven to 10 days, they are still no antibodies. They are not yet any antibodies. However, after three or four weeks, there are masses of antibodies all over the place in your blood. And if you dare to repeat this performance and start to put those spikes out into your blood, God help you because now not only the killer lymphocytes will detect antibodies and complement, and leukocytes are also going to attack thinking that your cells that are producing these spikes are bacteria and they are going to try to eat your vessel wall cells.

Now, this attack of the Air Force and the Navy on a single cell target has never been seen before. There is no situation because either you're combating a virus, or you're combating the bacteria; mixed infections that go through the body are actually virtually unknown. So we have the unique situation that has been created by the vaccination.

That is, in a way, extremely interesting. Because no one knows what the outcome will be. However, the vision is so horrible, and so awful and terrifying, that I, myself, don't really want to know the answer. And I don't want this answer to become known.

I want you to decide to not take the second shot. Not only the second shot, but any shot thereafter is going to place your life in danger. That is what I am convinced of now, especially because of the publications that have just appeared. So I think that was the most important thing I have to say today. And I hope people will sit down, look at these papers, talk about them. And I hope that my colleagues, physicians, and scientists will do the same and get together to see whether this may have a grain of truth. Because if it does, the consequences are absolutely endless or the consequences are very simple. We just have to stop everything now.

Messenger RNA Vaccines May Cause Damage to the Cardiovascular System

Transcript of Dr. Bridle interview on *On Point* with Alex Pierson

Alex Pierson: Talking about a lot of science these days! It's coming out as fast and furious. And a lot of people asking a lot of good questions, you know, the vaccines, are they safe for kids?

Certainly, there's a big push to get kids as young as 12 the shot as soon as possible, but, but everyone's confident about it, even if you're not an anti-vaxxer, there are a lot of parents who are kind of nervous about putting something into their kids.

And then I read that there have been several dozen cases of heart problems in teens and young adults, which Israel is now looking into. And what they're looking into which they'll release the results of are why mostly males, not all, but around 22 years of age and younger, are getting heart inflammation. So one to four days after getting a shot, they get shortness of breath, fatigue, and some very specific chest pain. It's mild, so no one's gotten really sick or died. But you want to know what you don't know if you're going to put something into

your kids.

Let us bring in Dr. Byram Bridle. He's an associate professor of viral immunology at the University of Guelph (Ontario, Canada). Doctor, you've been very, you know, very open on this whole issue. And you know, you're not an anti-vaxxer by any stretch, but what do you think about this inflammation in the heart, and is it an actual threat?

Dr. Bridle: Yeah, thanks for having me on, Alex. Yeah, as you said, I'm very much pro-vaccine, but always making sure that the science is done properly, and that we follow the science carefully before going into public rollout of vaccines. I hope you'll run let me run with this a little bit, Alex. I'll forewarn you and your listeners that the story I'm about to tell is a bit of a scary one. This is cutting-edge science.

There's a couple of key pieces of scientific information that I have become privy to just within the past few days that has made the final link. So we understand now, myself and some key international collaborators, we understand exactly why these problems are happening. And many others associate these vaccines. And the story is a bit of a scary one. So just to brace you for this, but I'm going to walk you through this. The science that I'm gonna be talking about. I don't have the time here to describe exactly the scientific data. But let me assure you that everything that I'm stating here that I'm gonna state right now is completely backed up by peer-reviewed scientific publications,

and well-known and well-respected scientific journals.

I have all of this information in hand, I'm in the process of mildly trying to put it all into a document that I can hopefully circulate widely. So your listeners are going to be the first to hear the public release of this conclusion, and I can vouch for the science. So this is what it is.

The SARS-coronavirus 2 has a spike protein on its surface. That spike protein is what it allows it to infect our bodies. That is why we have been using the spike protein in our vaccines. The vaccines we're using get our cells in our bodies to manufacture that protein. If we can mount an immune response against that protein, in theory, we can prevent this virus from infecting the body. That's the theory behind the vaccine. However, when studying the disease, severe COVID-19, everything that you've just described heart problems, lots of problems with the cardiovascular system, bleeding and clotting is all associated with severe COVID-19.

And looking and doing that research, what has been discovered by the scientific community is the spike protein on its own is almost entirely responsible for the damage to the cardiovascular system if it gets into circulation. Indeed, if you inject the purified spike protein into the blood of research animals, they get all kinds of damage to the cardiovascular system, and it can cross the blood-brain barrier and cause damage to the brain.

Now at first glance, that doesn't seem too concerning because we're injecting these vaccines into the shoulder muscle. The assumption all up until now has been that these vaccines behave like all of our traditional vaccines that they don't go anywhere other than the injection site, so they stay in our shoulder. Some of the protein will go to the local draining lymph node in order to activate the immune system. However, this is where the cutting edge science has come in this and this is where it gets scary.

Through a request for information from the Japanese regulatory agency, myself and several international collaborators have been able to get access to what's called a bio-distribution study. It's the first time ever that scientists have been privy to seeing where these messenger RNA vaccines go after vaccination. In other words, is it a safe assumption that it stays in the shoulder muscle?

The short answer is absolutely not. It's very disconcerting.

The spike protein gets into the blood, circulates through the blood in individuals, over several days post-vaccination. It accumulates once it gets to the blood and accumulates in a number of tissues such as the spleen, the bone marrow, the liver, the adrenal glands. One particular concern for me is it accumulates at quite high concentrations in the ovaries. And, and then also a publication that was just accepted for a scientific paper just accepted for publication that backs this up, looked at 13

young healthcare workers that had received the Moderna vaccine which is the other messenger-RNA-based vaccine we have in Canada. And they confirm this They found the spike protein in circulation in the blood of 11 of those 13 health care workers that had received the vaccine.

What this means is, so we have known for a long time that the spike protein is a pathogenic protein, it is a toxin, it can cause damage in our body if it gets into circulation. Now, we have clear cut evidence that the vaccines that make our bodies, our muscles or the cells in our in our deltoid muscles, manufacture this protein, that the vaccine itself, plus the protein gets into blood circulation. When in circulation, the spike protein can bind to the receptors that are on our platelets and the cells that line our blood vessels.

When that happens, it can do one of two things. It can either cause platelets to clump, and that can lead to clotting. That's exactly why we've been seeing clotting disorders associated with these vaccines, it can also lead to bleeding. And of course, the heart involved. It's part of a key part of the cardiovascular system. That's why we're seeing heart problems.

The protein can also cross the blood-brain barrier and cause neurological damage. That's why also in the fatal cases of blood clots many times is seen in the brain. And also of concern is there's also evidence of a study – this has not yet been accepted for publication yet, this one – they were

trying to show that the antibodies from the vaccine get transferred through breast milk. And the idea was this may be a good thing because it would prefer some passive protection to babies. However, what they found inadvertently was that the vaccines, the messenger RNA vaccines, actually get transferred through the breast milk. So the delivering the vaccine vector itself into infants that are breastfeeding. Also what this note we know spike protein gets into circulation, any proteins in the blood will get concentrated in breast milk. Looking into the adverse event database in the United States, we have found evidence of suckling infants experiencing bleeding disorders in the gastrointestinal tract.

Alex Pierson: So okay, let me pause you there. There are only about 45 seconds left.

Dr. Bridle: Sure, I'll wrap it up this message.

So this has implications for blood donation. Right now Canadian Blood Services are saying that people who have been vaccinated can donate. We don't want the transfer of these pathogenic spike proteins to fragile patients who were being transfused with that blood. This has implications for infants that are suckling. And this has serious implications for people for whom SARS Coronavirus 2 is not a high-risk pathogen, and that includes all of our children.

In short, the conclusion is, we made a big mistake, we didn't realize it until now, we thought the

spike protein was a great target antigen, we never knew the spike protein itself was a toxin and was a pathogenic protein. So by vaccinating people, we are inadvertently inoculating them with a toxin. And some people this gets into circulation. And when that happens in some people, they can cause damage, especially in the cardiovascular system. And I have many other, I don't have time, but many other legitimate questions about the long term safety, therefore, of this vaccine, for example, with it accumulating in the ovaries, one of my questions is, will we be rendering young people infertile, some of them infertile? So I'll stop there. I know it's heavy heading...

Alex Pierson: I'm up against the clock. I need like an hour when I talk to you because you have so much information and of course your one opinion of many, but you know, it's interesting because you have a different look at it. And certainly, the time will tell on this but we'll have you on again because I always get an interesting and different perspective from you. Doctor, thank you.

Dr. Bridle: It was my pleasure. Take care.
