

# The Biblical Identity of the Antichrist

Once upon a time I used to like to speculate on who the Antichrist might be. I was deceived by a Jesuit doctrine which is known as *futurism*, i.e. the belief that the Antichrist is a single person who will appear at the very end of man's rule on earth, a "final 7 years", or so they say. If you hold this view, please know that it's a view held by Christians only since sometime in the 19th century! All Christians prior to that point identified the Antichrist as the papacy! Not convinced? Please check out the following articles and you will see why I believe what I believe about who the Antichrist is.
